ATLANTIC MAIL SERVICE.

First-Class Steamship Chartered

Matter Still Unsettled.

OTTAWA, Nov. 5.—The Beaver Line has chartered the Cunard steamship Gallia for the Canadian mail service.

The Beaver Line is determined to give a first-class service, but finds difficulty in getting the Canadian Pacific Railway to consent to both steamers calling at Halifax

ST. JOHN, Nov. 5.—There is a good deal of talk here about the steamship mail matters, and a private word from Ottawa indicates that matters are still in a state of confusion.

HESITANCY DENOUNCED.

The London Post Criticises British Government.

Expedition Against the Madhi to Stop.

LONDON, Nov. 5.—The Post in an editorial based on the report that nothing further will be done for the present in the Soudan, denounces the government for its hesitancy and weakness on all great occasions. It declares that the unfortunate losses in money and blood on the Indian frontiers are due to procrastination, and that now, when the hour is ripe to vindicate Gordon and to punish the Mahdi, nothing is to be done; but a baneful hesitancy sets in, a moral influence which paralyzes our statesmen and is the curse of constitutional government.

THE NEW POSTAGE STAMP,

A Very Pretty Design.

OTTAWA, Nov. 5—The design of the new postage stamp is very neat. A vignette of the Queen is enclosed in an oval border, with the words "Canada Postage" and the particular denomination of the stamp "one cent" "two cents" etc. A maple leaf is placed in each corner of the stamp.

LATEST NEWS BY WIRE AND MAIL

CHRISTIANIA, Nov. 2.—The government has instructed the governor of the Province of Tromson the most northern province of Norway, to charter a steamer at the expense of the State, to provision it for six months and to send out a relief expedition for Herr Andree, the aeronaut, who ascended in his baloon, the Eagle, on July 11 last from Spitzbergan, 400 miles northwest of the North Cape of Norway, in a proposed expedition to the North Pole. The relief steamer will start in three days time from Tromsoe Island, off the north coast of Norway, and will proceed to Spitzbergan.

BERLIN, Nov. 3.—A steamer has started from Tromsoe island to search for Prof. Andree, who started out last of July in a baloon to find the north pole.

VANCOUVER, Nov. 3.—The boiler of the Royal City sew mills exploded at noon today, while the men were eating dinner. Several men were killed and many injured. The roof of the mill was blown off and the building wrecked.

BERLIN, Nov. 3.—A paper here publishes the following sensational despatch from Constantinople: "The Bulgarian government recently delivered an ultimation to Turkey threatening to declare the independence of Bulgaria unless the berats to the Bulgarian bishops in Macedonia were granted by ten o'clock on the morning of Nov. 3."

ST. JOHN, Nfld., Nov. 3.—To-day Sir James Winter, the opposition leader, waited upon Sir Herbert H. Murray, Governor of the colony, to arrange for taking over the control of public affairs. Sir William Whiteway and his colleagues will probably resign within the next ten days. The general feeling is that the financial status of the colony, both at home and abroad, will be strengthened by the change of Government.

ROME, Nov. 3.—The new Archbishop of Montreal, Mgr. Bruchsi, has arrived here and will reside at the Canadian College during his stay in this city. He declares that the right of Roman Catholics to seperate schools in Manitoba will be supported, and it is said the Pope will shortly give a decision on the subject, as the moment is regarded as opportune, in view of the calmness of the Canadian press since the mission of Mgr. Merry del Val to Canada.

LONDON, November 3.—It is announced in a special despatch from Paris, that a detachment of French troops, which had been to the Ogowal River in the Congo district, for the purpose of avenging an attack made by the natives of that locality upon a mail steamer, the Eclaireur, in August last, has been surprised by the enemy, with the result that many men belonging to the expeditionary force have been killed or wounded. The French colonial adminstrator, who took part in the expedition, was seriously wounded.

MANCHESTER, Eng., Nov. 3.—At a conference between representatives of the employers and reprentatatives of the cotton operatives, and agreement was reached to submit to arbitration the proposition to reduce by five per cent. a month hence, the wages of the cotton operatives.

LONDON, Nov. 3.—A despatch to the Daily Mail from Paris says: "A British syndicate has obtained some control of the trade of the Soudan in exchange for the payment of an annuity to the Egyptian Government and the defrayer of the expenses of military occupation. It will reconstruct and work the railway from Suakim on the Red Sea, to Burber on the Nile, the southernmost point reached by the Anglo-Egyptian expeditions."

The sick man knocking at the door of health gets in if he knocks the right way, and stays out if he doesn't. There are thousands of ways of getting sick but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. Constipation is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The "Golden Medical Discovery" has been used with unvarying success for over 30 years.

THE STYLE OF ALDERMEN.

People Who Do Address Them as "The Honorable" In Spite of Webster.

In none of the "ready letter writers" are directions given as to the prefix which it is proper to put before the name of an alderman, and it is for this reason perhaps that a controversy has recently arisen. One of the disputants says:

"When writing to a member of the board of aldermen or a commissioner in one of the city departments, it is high-falutin, I think, to address him with the prefix 'Hon.'" In proof of the correctness of this view of the case this correspondent invokes the testimony of Webster, the dictionary compiler, who said of the use of "the honorable:"

"An American usage. It is a title of courtesy merely, bestowed upon those who hold or have held higher public offices, especially governors, judges, members of congress or of the senate and mayors."

Webster was born in Connecticut in 1758 and died in the same state in 1843, long before the establishment, as such, of the present New York board of aldermen and at a time when that body was generally known as the common council, and any opinions which he may have expressed in his dictionary or any views which he may have entertained personally on the subject of honorary titles in use in the United States could have no especial bearing upon the case of the New York aldermen, whose fame as legislators has now spread to confines where the name of Webster is quite unknown.

The title alderman is derived from the Saxon word "ealdorman," otherwise elderman or elder. It was a title of honor in early days in England, and the elderman or alderman was a local functionary responding somewhat to the present justice of the peace. In England the alderman was usually a judge, but afterward the office came to be an elective one, and from the English word has come the American title alderman so valiantly upheld by the aldermen of New York, who insist upon a full share of all political honors, perquisites, privileges, rights, advantages and immunities, and he would be a courageous man indeed who would omit from the designation of an alderman (especially an alderman recently elected) the title "the honorable." The legal duties of aldermen are so few, their exercise is so carefully guarded by acts of the legislature, that it is necessary, so to speak, for the aldermen to find, if the expression may be used without offense, work for themselves. Accordingly from time to time resolutions are passed by the board taking the form of ordinances which by tacit agreement among the members it is arranged shall not be acted upon unless the alderman of the district in which the applicant or applicants reside assents to action. In this way the powers of an alderman in a district are very considerably enhanced, and in such cases the petitioner, realizing the full force and importance of the alderman's office, is glad of the opportunity to address him as "the honorable," and realizes the futility of another course.—New York Sun.
