

THE DAILY EXAMINER

AUGUST 9, 1900.

IMPORTANT VISITORS TO OUR EXHIBITION.

We learn that the Vice President of the Dominion Short Horn Breeders' Association, Mr. Fred G. Bovyer, has received a letter from Secretary Wade, of the Dominion Cattle Breeders' Association, to say that John I. Hobson, President of the Dominion Short-Horn Breeders' Association, and Mr. Wade have been appointed delegates by those associations to attend the Provincial Exhibition to be held in Charlottetown in September next. They hope to meet and confer with our cattle, sheep and horse men and talk over the many problems that confront the stock man or agriculturist who is striving to advance. We bespeak for the eminent gentlemen a cordial reception from our people individually as well as from those at the head of the Government, and especially the exhibition managers.

Mr. Hobson is the recognized head of advanced agriculture and stock raising in Ontario, having by practical agriculture made a fortune. He is an able public speaker on agricultural topics and is one of the trustees of Guelph Agricultural College and Experimental Farm; while Mr. Wade is the principal acting head of all the pure bred cattle, sheep and horse registration associations in Canada. Could not a portion of each day during the Provincial Exhibition be devoted to a social meeting of the visitors to the show and the farmers? We offer the suggestion in the belief that pleasure and profit and enhanced interest can be got from such an arrangement.

THAT PRIVATE SUBSIDY!

THE PATRIOT challenges THE EXAMINER to name one merchant or shipowner in the community who suffered loss to the extent of one dollar by the steamer's having come here to take the surplus oats away. We submit that it would be much more reasonable and proper for The Patriot to name the merchants and farmers—apart from the favored few,—who have profited in the slightest degree by the tax-payers' money expended by the Dominion Government to subsidize the tramp steamers which were brought here last spring to load oats for England. We challenge The Patriot to name one.

The Patriot, we notice, claims credit for Sir Louis Davies in respect to the transaction. Sir Louis' vaunted "influence" is all very well, but it ought not, we contend, to be exercised for the special benefit of two or three particular friends. Sir Louis represents the public, and is paid handsomely for doing so. The public money should be expended for the public good,—not for the good of private merchants, however estimable they may be.

—Victoria and New South Wales and South Australia have sent troops and a gunboat to China; and the Montreal Gazette remarks that "the fighting spirit grows strong under the Southern Cross, stronger than under the Great Bear, which constellation has its home in the heavens over Canada."

—The Halifax Herald remarks that "every public Journal with a spark of independence, having turned against the Laurier government, grit organs have taken to quoting the most rabid grit organ of the lot of them as an "independent" paper, and indeed some of the Grit organs have credited some Montreal Herald vagaries to conservative journals." We note that the Guardian is sometimes quoted as an "independent."

THE TELEGRAPH SERVICE.

We regret to note that The Guardian excuses Sir Louis Davies' failure to obtain improved telegraph service, and is disposed to blame THE EXAMINER! Certainly THE EXAMINER did not join to any great extent in the Guardian's chorus of complaint against "the telegraph monopoly" We knew that nothing would or could come of it. But the Guardian's statement that THE EXAMINER from the first "opposed the efforts of the merchants, business men and Board of Trade to secure improved telegraph service is simply untrue.

As to what THE EXAMINER would do to remove the telegraph grievance, if THE EXAMINER were in the place of Sir Louis as representative of the business interests of this Province, we have to say that we should get the improved service desired by our constituents as cheaply as possible—but we should get it. The only way now practically leading to this result is an easy way. A thousand or two—perhaps only a few hundreds of dollars—would do the business. Then, taking advantage of the improvements in telegraphy, we should see if a better arrangement could not, ere long, be made with some other company. But Sir Louis, echoing the Guardian, has shouted, and accomplished nothing.

Concerning a night service,—is it not true that, except in the most urgent cases and for the press—telegrams sent in the night, when people are asleep, are not delivered until the next day. Then how can it be said that a night service would greatly advance the business of this community?

If this were a large city, with several morning dailies, and a larger telegraph business than could be overtaken in the day, the telegraph company would, of course, put on a night service at its own expense. But as it is a small city, doing a small telegraph business, the telegraph company will not do so, unless the Government adds to its subsidy.

SANITORIUM FOR CONSUMPTIVES.

We heartily approve the suggestion of our esteemed correspondent, Dr. McNeill, that a sanatorium for consumptives be established here. This vital matter should at once engage attention. We hope that all our doctors will unite with Dr. McNeill and lead the way towards the proposed sanatorium. The people will certainly follow, and will, without doubt, supply the money that will be required in the development of so good an idea.

But few of those stricken by incipient consumption in this Province can afford to go abroad for treatment. If they can be successfully treated here—and Dr. McNeill thinks that they can—the means of treatment ought to be provided. Even when the utmost care is taken to prevent the propagation of the germs of consumption by means of the sputa, etc., many persons are liable to be seized by the deadly disease; and a sanatorium will therefore always be needed. Let action under the advice of a committee of physicians be taken as soon as possible. The doctors know what's wanted; and action under their direction will be practical and effective.

Many deaths and prostration on account of excessive heat are reported from various parts of the United States.

Eclipse Picnic.

The ladies of Mount Stewart, viewing the necessity of improving the sidewalks in the village, intend holding a mammoth picnic on

SATURDAY, 18th Inst.

There will be a well stocked saloon, tea tables, dancing booths, swings, bowling alley and other amusements of a very attractive nature.

Nothing will be left undone to make this picnic the outing of the season. Everything will be provided to please the taste and fancy of an epicure.

The grounds selected for the occasion is but a stone's throw from the river, where the speckled beauties abound in profusion. So if picnics are not in your line, arm yourself with a fishing rod and spend a pleasant while angling in the placid waters of the Hillsboro.

Arrangements will be made for a special train or a steamer from Charlottetown on that day (of which due notice will be given) to place excursionists on the spot.

Be sure and make a note of the date, the 18th, as it will be a gala day at Mount Stewart.
