

Just as we were going to press, on Wednesday morning last, a short paragraph was handed in to us for publication, and without paying much attention to it, as we were busy at the time, we passed it into the hands of a compositor, and thus it appeared in the HERALD of last week. It now appears that the paragraph in question, which related to the sudden and melancholy death of a man named Treanor, was not correct in point of fact. Treanor, we have since heard, was a sober man, who, by his industry, acquired a competence in California, and had returned but a short time since from that country, with the intention of settling in Charlottetown. On Tuesday night, when retiring to rest at Mrs. Eden's boarding house, he was seized with an apoplectic fit, and fell down a flight of stairs. He sustained such injuries that he expired almost immediately. These are the facts of the case as elicited at the Coroner's Inquest, and we regret exceedingly having thrown a doubt upon his character by publishing the paragraph in question. Having unintentionally committed an error, we hasten to make suitable reparation to the dead as well as to the living.

Mr. LePage has written a spirited piece headed "Nil Desperandum," which deals with Confederation in the right style. The concluding verse will find a response in the heart of every Islander:—

We want no Quebec piping here
To help our craft along;
If furious gales should split our sails,
Or rend our own ropes' ends we'll splice,
Let TILL and TURPIN R. I. F.
"Nil Desperandum" our device,
WE WONT GIVE UP THE SHIP.

A LESSON FOR P. E. ISLAND.

In reply to an Address from the Cork Farmers' Club, presented to him whilst he was in Dublin, Mr. Bright made a statement which conveys a useful lesson to the people of the Maritime Provinces. He said:—

"If you had a Parliament in College-green, clearly the tenantry of Ireland, with the present feeling in Ireland, would be able to force that Parliament into any measure of justice that you named; but as you have to deal with a Parliament sitting in London, all the clamour you may make, or the demands you may urge from this side of the Channel, comes with a very feeble effect in London, especially as it can only be represented by about one hundred members, and of these it unfortunately happened that a considerable number are not willing to support the demands that are made. You see, therefore, the great difficulty you have to contend with. You have to wrest your rights from a Parliament sitting in London, to which you send 105 members, of whom, perhaps, half are not in favor of your rights, and therefore, the fifty more, so to say, are lost in the 600 they find there, and the effort on the part of your members to do anything is one of the most disheartening things that any representative of the people can have to do. I have, since I have been in Parliament, which is now twenty-three years, heard one hundred times—nay, much oftener—blame attached to the Irish members for the little they do here. I think it is admitted in the House of Commons universally that the Irish Liberal members in this Parliament are not inferior, but are superior to the Irish Liberal members that sat in former Parliaments during the last 25 years; but, notwithstanding that, and though I think they have a corresponding increase of influence, yet it is one of the most difficult things in the world for 50 men sitting amongst 600 men, some hundreds of miles from those whom they represent, to work up any questions which may be against the prejudices and sympathies of the 600 amongst whom they are acting; and, therefore, Irish constituencies, whilst they should make no allowance in favor of any of those members who are not honest towards them, and do not do their duty, yet for those who are honest and do their duty they should make the allowance. They have difficulties in the Parliament in London, which are vastly greater than the difficulties of an English member, and that Irish members would find if their Parliament was sitting in this country."

If this is the case, with 105 Irish members in a House of 650, and that it is not to be doubted, what will be our position should the Quebec Scheme become our Constitution. We would then send not one-sixth of all the members to the general Parliament as Ireland does, but 5 in 194, less than one thirty-eighth, and these too would be divided on very important questions.

An inquest was held by Dr. Beer, one of the Coroners for this County, on Monday morning last, in the house of Mr. Hewitt, (a laboring man in the employ of Hon. J. C. Pope), upon the body of his wife, Mrs. Hewitt, who died suddenly on Sunday evening. After hearing the evidence of the case, the Jury returned a verdict that the deceased came to her death from inflammation of the bowels, brought on by the use of intoxicating liquors.

Tax inhabitants of Vancouver and British Columbia are openly agitating for annexation to the United States, and we doubt much if the British Government will offer any serious opposition to the gratification of their desire to become citizens of the Almighty Republic. "Coming events cast their shadows before."

We learn that Mr. ex-Secretary Pope has had issued, or is about to issue, from the Examiner's office, a pamphlet upon Confederation. A synopsis of the history of the Island is given, and the whole aim and object of the work is to belittle the Colony and to play into the hands of the Confederate delegates in England in the hope that we will be forced into Confederation against our will. We shall have more to say upon this disreputable project (disreputable and ungrateful, because proceeding from a man who has been fed and pampered by the country, and who received from it last year, in one way or another, £1,300) when we procure a copy of the pamphlet in question.

THE EDINBURGH REVIEW for October is more than usually interesting, as may be judged from the following table of contents:—1. Kaye's History of the Sepoy War; 2. Varieties of History and Art; 3. International Coinage; 4. Napoleon's Julius Caesar; 5. Felix Holt, the Radical; 6. Strauss, Roman; and "Ecce Homo"; 7. Frouder's Reign of Elizabeth; 8. Antique Gems; 9. The Military Growth of Prussia.

Some original matter prepared for to-day's paper is again laid over.

Tax navigation is still open, and as unrestricted by ice as in midsummer. The mail steamers continue running with the utmost regularity.

The latest rumor about the departure of H. M. Ship *Wolverine* from this port under sealed orders, is, that a telegram was sent here from the British authorities in New York, to the effect that Stephens had taken passage for England in the Cunard steamer that left here on Wednesday last. The *Wolverine* was to intercept the Cunard steamer, take Stephens prisoner, and proceed to England. This, we believe, is the latest.—H. Express.

La Minerve, of Montreal, says that Prince Dora and Duke Grafton, two of the noblest and wealthiest citizens of Rome, are now in Canada. On Friday His Worship the Mayor (Sturges) entertained them at a festive champagne at Caughnawaga, and on Friday evening they dined with Sir John Michel.

Private advices received at Washington from London, say that Secretary Seward's despatch to the British Minister at Washington, has awakened a bitter feeling among the Conservative party.

A Dublin correspondent of the New York Herald, who says that the Fenians are very quiet but very formidable, gives the following as the causes of the prevalent discontent:—

"No country on the face of the world can present a sadder picture than Ireland does at present. Land either waste or quickly being turned into vast pastures for rearing supplies of 'roast beef' for the English markets; tenant farmers either the slaves of their landlords, blindly following the dictates of his behest, or forced by enormous increase in the rate of rent to eke out existence on a minimum of profit; told to be thankful that they are not summarily ejected from house and home; driven as beggars from the spot where their fathers before them worked from the early morning of life till its very close, to create a home; the natural resources of the country neglected; harbors, some of which might compare with any others in the world, decaying for want of the expenditure of a comparatively small sum; fisheries, formerly the source of much wealth, wasting away for the want of a little government aid to sustain them; these, and other grievances, form the load that is bowing down the hearts of the Irish people, and make them the willing followers of any man who raises the standard of revolt."

The Canadian papers wasted much time in discussions, assertions, and contradictions about the rumored resignation of the Hon. Mr. McGe'e, who will never be caught tendering his resignation of \$5,000 a year and pickings, while he can possibly hold on to them. The Ottawa Post says:—

"We stated yesterday that there was no truth in the stories afloat as to the causes which had led to his alleged resignation; neither has he resigned. But there may be, and possibly are, some grounds for that dissatisfaction which is supposed to exist. It is quite possible that Mr. McGe'e did object to Mr. Galt's going home to support one side of the school question, while the other side was unrepresented; and it may be that Mr. McGe'e had reasons personal to himself, for preferring going to England while the St. Lawrence was open, to run the Fenian gauntlet at Portland, Boston, or New York."

The President's message, delivered on Monday, adheres pertinaciously to his policy of re-constitution and regrets that Congress shuts out loyal senators. He elaborates this point at great length. On foreign matters we have the following:—

He says, with Great Britain the progress toward the adjustment of the Alabama claims have been slow, owing in some degree to a change in the British Ministry, but matters in that regard look favorable.

He states that France has not complied with her agreement to take her troops out of Mexico, but intimated a postponement until Spring. Government has remonstrated, but the President says no reply has been received from the Emperor as to what he will do; but a satisfactory adjustment is hoped for. Gen. Sherman has merely gone to Mexico in an advisory capacity to Mr. Campbell. The message is silent on questions of Mexican Protection, treaty, etc., and makes no allusion to Maximilian whatever.

QUEBEC, Dec. 7.—Lord Monck and Sir Narcisse Belleau left last evening for Montreal. The harbor is still open.

PARIS, Dec. 9.—The French vessels of war have blockaded Corea. The French officers held their farewell interview with the Pope yesterday.

LONDON, Dec. 7.—The Post demands of the Government a rigid investigation into the Fenian organization in England. A rumor is circulating that the Czar of Russia has invited France and England to take some measures by which the three Governments may arrive at a mutual understanding in regard to the affairs of the island of Candia.

DUBLIN, Dec. 7.—Purposes and proceedings of the Fenians in Ireland monopolize the attention of the Irish Government. The Grand Lodge of Orangemen have held a meeting and issued an earnest call for all members of the order to support the Government in their endeavors to keep the peace.

LIVERPOOL, Dec. 7.—All the depots of arms in this city have been placed under armed guards. The excited state of feeling among the Irish population render these precautions necessary.

CORK, Dec. 8.—At a large meeting of the citizens of Cork, the magistrates were requested to memorialize the Government to enroll the loyal people, increase the number of troops, and arrest all suspicious persons.

Holloway's Ointment and Pills.—These direct curatives act on the human body as mighty purifiers and healers, which slowly, gradually, and safely work a change for the better throughout the whole system. The Ointment has almost miraculous power in cleansing and healing old sores and ulcers, which had defied the highest surgical skill; but perseverance is necessary to attain this end, as it would be unreasonable to expect that any ulcer or skin disease which had been firmly rooted in the body for years could be cured in a few days. It cannot be too much to ask a trial of these noble remedies in any chronic ulceration or other foul wound; in a short time they will prove their virtues.

Thirty Years' Experience of an old nurse.—Mrs. Winslow's Soothing Syrup is the prescription of one of the best female nurses in the United States, and has been used for thirty years with never-failing safety, and has been by millions of mothers for their children. It relieves the child from pain, cures dysentery and diarrhea, griping in the bowels, and wind colic. By giving health to the child it rests the mother.

An article of true merit.—Brown's Bronchial Troches are the most popular article in this country or Europe for Throat Diseases and Coughs; and this popularity is based upon real merit, which cannot be said of many other preparations in the market which are really but weak imitations of the genuine Troches.

CHILDREN'S WHOOPING COUGHS Require immediate attention, as neglect of the trouble often causes prolonged sickness. Brown's "Vermifuge Comfits" are a simple remedy, and will destroy worms without injury to the child.

Perry Davis' Vegetable Pain Killer, As an internal remedy, has no equal in cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, Asthma, it cures in one night, by taking it internally, and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to bad sores, burns, scalds, and sprains. For the sick headache and toothache, don't fail to try it. In short, it is a Pain Killer.

PERRY DAVIS' PAIN KILLER.—This medicine has become an article of commerce, a thing no medicine ever became before. Pain Killer is as much an item in every bale of goods sent to country merchants as tea, coffee, or sugar. This speaks volumes in its favor.—GLENN FALLS MESSENGER.

The Hon. James McLaren died after a short illness, at New Perth, on Monday, the 12th inst. Mr. McLaren was elected a Member of the Legislative Council, at the General Election in 1861, and appointed a member of the Executive Council the same year. By the death of this highly respected gentleman the Second District of King's County is unrepresented in the Legislative Council. Mr. McLaren was 62 years of age. His remains were followed to their last resting place on Thursday, the 6th inst. by a large number of his neighbors and friends, who deeply lament his loss.

To the Electors of the First Legislative Council District of Queen's County.

GENTLEMEN,— HAVING been nominated at two very influential Meetings, the one held at De Salle, on the 1st December, inst., and the other at South Shore, on the 3rd inst., for the purpose of selecting a Candidate to represent you in the Legislative Council, in Room of the Hon. K. Henderson, whose term has expired, and who has been solicited to represent a District in the Lower Branch of the Legislature, it is with much diffidence that I accede to the request so cordially expressed at those meetings, fearing that my humble abilities are inadequate to the great responsibility of the trust there proposed to honor me with.—Should I, however, become the object of your choice, my most earnest desire will be to discharge that trust in a manner faithful to yourselves and to the great public interests of the Colony. I quite accord with the opinion you have so generally expressed on the subject of the contemplated Union of the British North American Provinces.

With the present constitution of this Colony the people appear satisfied. The change proposed by the Quebec Scheme of Confederation, I shall steadfastly oppose, and should any other be brought before the Legislature, I would not support it before it was submitted to the people at a general election.

I have the honor to be, Gentlemen, Your most obedient servant, DONALD W. PALMER. Recess, Craignud, Dec. 3d, 1866. 1st Pat

Ayer's Cherry Pectoral. FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

SO wide is the field of its usefulness and so numerous are its cures, that almost every section of country are persons publicly known, who have been restored by it from alarming and even desperate diseases of the lungs. When once tried, its superiority over every other expectorant is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten. We can assure the public, that its quality is carefully kept up to the best it ever has been, and that it may be relied on to do for their relief all that it has ever done. Great numbers of Clergymen, Physicians, Statesmen, and other eminent persons, have lent their names to certify the unparalleled usefulness of our remedies, but space here will not permit the insertion of them. The ALMANAC in which they are given; with also full descriptions of the complaints our remedies cure. Those who require an alterative medicine to purify the blood, will find AYER'S COMP. EXT. SARSAPARILLA the one to use. Try it once, and you will concede its value. Prepared by DR. J. C. AYER & CO., Lowell, Mass., and sold by Druggists and dealers in medicine everywhere.

CHILDREN TEETHING

MRS. WINSLOW, An experienced Nurse and Female Physician, presents to the attention of mothers, her

Soothing Syrup, For Children Teething.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and spasmodic action, and is SURE TO REGULATE THE BOWELS.

Dependent on it, mothers, it will give rest to yourself, and RELIEF AND HEALTH TO YOUR INFANTS. We have put up and sold this article for over thirty years, and can say with confidence and truth of it, which we have never been able to say of any other medicine—never has it failed, in a single instance, to effect a cure, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "what we do know," after thirty years' experience, and pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most experienced and skillful nurses in New England, and has been used with never failing success in THOUSANDS OF CASES.

It not only relieves the child from pain but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC and over come convulsions, which, if not speedily remedied end in death. We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhea in children, when they arise from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others, stand before your suffering child and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & BERTKINS, New York, is on the outside wrapper.

Sold by druggists throughout the world. Principal Office, No. 43 Dey Street, New York. Price, only 35 cents per Bottle. Oct. 6, 1866. 1y
