SATURDAY will be CHILDREN'S DAY. Don't fail to see what we mean by this new "occasion." It means something good in the way of bargains. It means counters covered with goods at lower prices than you have seen for a long time; it means all this in addition to some sensational SATURDAY STAYS.

NEWS NOTES.

The famous Chinese giant, Chang, is dead. The strike of coal mines in the north of France is ended.

During the six months of the World's Fair 7,987,467 pieces of mail matter were despatched from Jackson Park and 7,121,916 pieces were received.

The "crank" craze has reached Indianapolis. Governor Matthews has been threatened, and then Adolph Olschewsky was arrested as he was about to start for Washington to murder President Cleveland.

Quite a heavy snowstorm has been reported in England. Residents in this climatically happy Canada can hardly appreciate the hardships and inconveniences to which dwellers in such northern latitudes are exposed.

The slaughter of cattle in Kansas City for 18 months ending October 31 amounted to something like three quarters of a million head. Exceeding the killing for the corresponding period of 1892 by almost one-fourth of a million.

The meaning of the word "bootler" was the subject of a lengthy disquisition by the Chief Justice in the Court of Review on Saturday. The decision of the tribunal was that in the sense the St. John's News used it, it meant the paper should pay Mr. Marchand \$500.

The Earl of Derby in his address last Tuesday evening to the Canadian Agricultural Association made enormous strides in the department of farming during the last five years owing to the technical training afforded by the model farms and boards of agriculture which he possessed. The Earl said he desired to see Lancashire possess similar institutions for the encouragement of agriculture. England taking the example of Canada is good.

An Iron Mountain train has been held up by seven bandits near Newport, Ark. The conductor was killed and the express safe and the passengers robbed. Pursued by a posse of citizens, three wounded robbers were caught after a sharp fusillade. There is evident reason to believe that the railway extending the area within which they despatch armed guards with their trains. The chances of survival after making a railroad haul are evidently too good yet to deter the enterprising rascal.

There are various ways of punishing contempt of court. This is the New Brunswick way, which Mr. Ellis' case has made somewhat famous. Then there is the Southern way, which, as illustrated, recently at Atlanta, the Georgia papers are talking about, wherein the judge descended from the bench, thrashed the offender, who happened to be a lawyer, and ejected him from the court. In any case, however, contempt seems to be a serious crime.

"How do you find sport, boys, lots of game?" asked a gentleman in California of two lads he met on a country road with guns on their shoulders. "Game? Now! Lots of Chinamen," was the disdainful answer as they passed on. From which it would appear that Chinamen in California do not rank as high as game. But still they furnish excellent sport for the gunners of that state, if all reports are to be credited. The prey is a little too docile to furnish an exciting hunt, not being able to run very fast, but still, all things considered, the shooting is good and fair bags are being made. Unless a close season is decreed, there will be no need of a Gerry Bill a few years hence.

The English coal famine still continues and is causing severe suffering as the weather becomes colder. The recent conference of masters and men, proved fruitless, but there is a gleam of hope that a settlement may be arrived at. The coal owners have moderated their demands, and the miners seem more inclined to be reasonable. Their leaders have apparently abandoned their unyielding attitude and are about to submit to the men a proposal for arbitration. The position, the miners originally took was that their wages were as low as they ought to be, and they would not submit to a reduction whatever the state of trade might be. Their acceptance would be a sign of weakness, for it is generally acknowledged that it would be like a victory to result in what the miners have all along strenuously resisted—a reduction in wages.

Honeyed Sweetness. It is said that when the great philosopher Plato was an infant a swarm of bees alighted on his lips, indicating the honeyed sweetness of the eloquence that flowed afterwards from them.

We have all heard of the honeyed sweetness of Harvard bronchial syrup, and the great love that the children have for it. We also know the great effectiveness of this cough remedy in the home. Wise and prudent mothers always have a bottle of it at hand for emergencies. Croup, hoarseness, whooping cough and colds cannot run riot when Harvard bronchial syrup is used a few times. The children never refuse to take it; the little ones look for it when they suffer, and will have no other. Physicians daily recommend Harvard bronchial syrup in their practice; they know its composition and are satisfied regarding its effects. Mothers will do well to provide themselves with a large twenty-five cent bottle for use at this season. A dose given at the right time may save some little life.

Headaches and fevers, to cleanse the system effectually, yet gently, when constive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use SANDER'S PINK PILLS.

For Over Fifty Years. AS OLD AS WELL TRIED REMEDY.—Mr. Winslow's Soothing Syrup, has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays the pain, cures the colic, and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.—m. w. f. w. kly—1 y

How Dollars Are Made!

By Stopping the Little Leaks And losses great fortunes are accumulated. A loss of a few dollars on a suit of clothing may seem a small thing to some men, but it is losses such as these that make many men poor. The man who, instead of dealing with us, goes elsewhere and gets poor, shabby goods and slipshod, careless work in the making-up of these goods, is likely to look poor and feel poor, too, before many years. Gentlemen, stop these little leaks by dealing only with our firm, and you will then be sure of having clothing that will look well, wear well and fit well.
