Conducted Business For
Over Quarter-Century

HEATH MacLEAN

WILLIAM MacLEAN

A family business, founded some 26 years ago, MacLean's Grocery, Winsloe, today marks another milestone on the road to progress and assumes an ever-increasing prominence in the commercial life of this Province, particularly the community which it serves.

A new store has been constructed where for over a quarter of a century the late Mr. George MacLean conducted business. He carefully established goodwill and confidence in his dealings with the public. Since his passing his family has carried on and an expanding business has resulted in this forward step—a beautiful store, modernly equipped.

The new building is 30 by 60 feet and is finished on the outside with Insulux siding with the lower front portion completed with plywood. There are two large show windows in which goods may be attractively displayed.

The second storey contains two modern apartments. Located at the rear of the store is the Post Office and warehouse.

The store space which is 30 by 30 feet is beautifully finished and painted white with blue trimmings. Fluorescent lighting adds much to the appearance. The floor is covered with tile in red and grey colors. The store offers many interesting features to the daily shopper. The wall shelves and display counters enable the customer to spot at a glance any article desired.

Besides the regular grocery counters there will be a meat display counter, pastry table, an ice cream and soft drink cooler. The store also carries feeds, hardware, work shirts, overalls, etc. In brief it is a modern general store which will appeal to every shopper.

The construction work was done by Mr. Borden Myers, the electrical installations by Good Electric, plumbing and heating by Douglas Bros. and Jones Ltd., flooring by J. & M. Murphy, and the refrigeration by Storey Electric.

Mrs. MacLean and her two sons, William and Heath, are deserving of congratulations on their initiative and enterprise and will have the best wishes of the community at large for a successful future.
