

News of the World.

Money is now plentiful in London. A remarkable comet has been discovered by M. Tossandier, who is in Algeria. Heavy rains in Mississippi have flooded thousands of acres of corn and cotton. Jews continue to leave Russia in large numbers. At Hamburg 54,000 arrived last week. Severe storms have greatly injured crops in England, and the prices of wheat and flour are advancing daily. A case of yellow fever at Port au Prince has resulted fatally. Vigorous measures will be taken to prevent the spread of the disease. Various editors in the United States are loudly calling on the farmers to hold their wheat for higher prices. The market reports, however, indicate that the farmers are doing nothing of the kind, but are changing their wheat for currency just as fast as they can get it in. The population of Germany has increased by 4,286,781 since 1880. In the same period the population of France shows only a slight increase—about 500,000. The total population of the former country is now 49,520,842, and of the latter 38,218,903. France certainly cannot be advancing. The rural population is on a decline to such an extent that in the last decade the country has almost stood still, while Germany, which sends abroad a constant tide of emigration, still continues to gain.

Ice Water.—Doctors Disagree.

A celebrated physician says: "All ice-water drinking is bad," also that "a severe blow upon the body just over the solar plexus" (which in good United States language means an important portion of the nervous system located just back of the stomach.) "will cause almost instant death," and he further says "the sudden shock caused by a deluge of ice-water into the stomach has exactly the same effect upon the solar plexus as the blow, and may cause sudden death by its action upon it and through the heart." Another equally celebrated physician says, "Any diet which unqualifiedly say that cold drinks are bad and hot drinks are good must be absurd" and further "cold water stimulates gastric secretion; therefore do not smile at your friend before eating gives him a half-glass of ice-water before eating gives him an appetite and helps his digestion. In continuation we will say, drinking ice-water in copious draughts when over-heated is injurious, if not dangerous, that is undeniable. But that the free drinking of water in some form in hot weather must be avoided, is deniable, and is one of the greatest popular errors extant. When a person is perspiring freely, a vast amount of water is drawn from the body, which must be resupplied, or great injury is being done the physical health, and the foundation of some of the worst forms of kidney disease is being slowly but surely laid. Do not drink ice-cold water, but pure cool water; a little lemon-juice will improve its effectiveness. Plain soda water with a little acid is also excellent in hot weather. If from drinking too much ice-water you have stomach cramps, or are "water-logged" as it is called, or are attacked with cholera morbus, summer complaints, diarrhea, or dysentery, do not resort to alcoholic stimulating drinks, which irritate rather than allay the inflammation which has caused the trouble; but adopt the practice of taking daily just before retiring, during July and August, one tea-spoonful of Johnson's Anodyne Linctum in a little sweetened water, which will prevent all such attacks and all effects from ice-water. In fact a little pamphlet sent free to any one by I. S. Johnson & Co., Boston, Mass., contains a vast amount of information about treating those summer troubles with that good old household remedy. aug5 dy6i w1

Local Notices.

GREAT cheap sale of boys' and men's readymade clothing during the month of August, at J B Macdonald's. aug3, 6ins LOOK to your own interest, and do not be persuaded to buy men's and boys' clothing until you see the stock and bargains given at J B Macdonald's. aug3, 6ins BOOTS AND SHOES.—Nine years ago when the Dominion Boot and Shoe Store first opened, the people were paying long prices for boots and shoes. When we got into the field we so remedied that we claim the credit of saving the people many dollars, and we are still doing it. Always go to the Dominion Boot and Shoe Store if you want the best value. aug3, 6ins FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. mar23i eod & wky ltr
