

Eaton's Farm Credit Measures Appreciated

By J. LINCOLN DEWAR

The announcement by the Eaton's Farm Credit Association that a bill is to be introduced in Parliament providing for the extension of credit to groups of farmers will be welcomed. There has been a great deal of interest in this program since its inception and its development will enable groups of farmers to join together in providing themselves with certain items of equipment which can best be used on a permanent basis. The program in agriculture will be awaiting with interest the details of the new legislation.

NEW DAIRY

The opening last week at Marcell of the new Co-operative Creamery marks a milestone in the farm's development and provides Kings County with a new and modern plant for the manufacturing of butter and cheese. We would estimate that the cost of this plant is well over \$200,000. It is the first striking contrast to the cost of the first factory, built in New Perth in 1920 which cost slightly over \$20,000. With this new modern plant there should be encouragement to dairy producers in the area to improve and expand their production. To those who have been involved in organizing the new plant great credit is due on the score of their persistence and hard work.

DAIRY BOOTH

When Old Home Week gets underway the week of August 17th the dairy people of the province will be providing not only one but a number of booths in the province. A number of these booths will be providing not only the dairy products but also the relations nature and serving the entire industry. During Old Home Week these dairy people will be happy to serve the numerous visitors who recognize the goodness of dairy products.

SEVEN AND SEVEN

Including in one of the recent Century Farms applications was the information that a Holstein cow still living on the farm had a pregnancy exception during the past seven years produced seven sets of twins. We suspect that certainly constitutes a very unusual record. It is the only animal living that can lay claim in the bovine world to providing twins.

PEA HARVESTING

Now well underway in the province is the harvesting of the pea crop for processing. On a plant with 1,700 acres is producing 9,000 pounds of peas per acre. Yields of 3,000 pounds per acre are reported. This is a great deal for a pea crop.

FOOD FARE

It appears to have been recently notable back-peddling on the part of those who were once very sure that certain heart diseases definitely had their origin in certain foods. However, it is now quite apparent that the statements are not nearly so dogmatic as was the case in the past.

BETTER PROGRESS

While we have now passed the time of year for making dairy products, they are really top quality hay, nevertheless improved weather is making it possible to harvest

the crop in reasonably good condition. There is still a very large acreage of hay to be cut and should the weather continue hot and dry it will mature very rapidly. While early cut hay can stand rain and still retain much of its feeding value, the later cut hay if it goes through the wet wash loses a great deal of its worth.

FOTATO MATTERS

It now seems fairly evident that action with respect to Potato tubers and selling agencies is further well bogged down. It is likely there will be no further action on the part of the Government unless there is pressure exerted from industry itself. It has been suggested in some quarters that the Federation should press the Government for action, however the Federation has attempted to carry out the requests made at the meeting on March 30th, but has been unsuccessful in its efforts. It would not appear that if there is any further action that it will come about only if there is strong evidence of interest and demand on the part of potato growers. When or how this interest can or will become evident.

VISITORS

This time of the year the callers in the Federation office receive a very widely scattered picture of the country. North Borneo, California, Ontario, the West, Nova Scotia and many States in the Union. Some are doing research, others are holidaying farmers and persons interested in farm organization. Where information is requested it is provided if available and, in addition, whatever courses have not been indicated are not extended in keeping with the Island reputation for hospitality.

EATON'S Door Opening Specials Saturday

These Specials are on Sale at 9 a.m. for 1 hour or as long as quantities last—No phone or mail orders, please!

- Men's Short Sleeve Dress Shirts**
Made from light weight sanforized broadcloth, soft collar, sizes 15 to 16 1/2. Cool and comfortable for business. Special, each **2.59**
- Roll Baskets**
Wicker, many uses around the home, round style. Special, each **79c**
