Worse Than Death Valley.

Dreadful as Death valley is, its north-western arm, known as Mesquite valley, is worse. All the waters upon its surface are poison, and down through the canyon a hot, suffocating wind blows with terrible velocity. During its course through the desert it frequently gathers clouds of white sand that have blinded many a horse and rider, and at frequent intervals it whirls down the canyon like a cyclone of sharp crystals. Under the glistening beds of salt and borax are concealed streams of salt water which flow sluggishly toward some unknown outlet or may be lapped up by the parched winds.

One of the strangest phenomena of this extraordinary place is what frontiersmen, for want of a better name, have called "raising earth." By the action of the sun a crust composed of minerals and clay has been formed on the surface, and by some curious pressure of nature has been lifted from the earth in irregular curves like pie crust in the oven. The cavity between this crust and the solid earth varies from one to ten feet, and the depth frequently changes after heavy windstorms by the displacement of the air beneath. The man or the animal that steps upon this crust is gone forever. It is absolutely impossible for any one to extricate himself when plunging about in the "raising earth."—Chicago Record.

Took Her Cousin's Place.

One day a young Swede, a student at the University of Berlin, received a letter from his uncle saying that his daughter, the young man's cousin, would stop in Berlin for a few days on her way to Ems and would he kindly meet her and show her the city. The mail coach arrived and with it the young lady, who found a fine looking young fellow with a vivid countenance awaiting her arrival. He accompanied her to the hotel. The following morning he called and took her driving in an elegant brougham. These attentions continued during the three days of her visit. The lady appeared overjoyed at the gallantry of this cousin, whom she had never met before.

On the day of her departure, while assisting her into the mail coach, the young man said, "I cannot let you depart without making a confession." The lady blushed and dropped her eyes. "I must tell you that I am not your cousin. Your cousin is a friend of mine. He had no time to accompany you, having to cram for his examinations, so he bade me take his place."

"In heaven's name, who are you, then?" cried the lady.
The young man handed her his card. The postillon blew his trumpet, the mail coach rolled away, as the young lady read this name on the card: "Otto von Bismarck."—Current Literature.

A CHOSEN FRIEND

Harvard Bronchial Syrup is the chosen friend of our best singers and most noted public speakers. No other cough remedy has such a widespread reputation. It quickly stops the worse cough, banishes hoarseness and clears the throat and bronchial tubes. Druggists and dealers recommend Harvard Bronchial Syrup.

Babies Have Croup.

No disease comes so suddenly and treacherously upon its victim as Croup. Happy is the mother who has at hand Dr. Chase's Syrup of Turpentine when the dear ones awake in the night coughing and struggling for breath. This famous remedy is the stand by in the homes of this continent as a prompt and certain cure for croup, bronchitis, coughs, colds, asthma and throat irritation. 25 cents a bottle. Family size 60 cents.

Soldiers of Fortune.

"It is embarrassing to meet former cotillon partners as elevator boys and waiters," said a European lady now visiting New York. "It has been my fate to undergo and inflict this unhappiness several times."

"I went to a fashionable hotel on my arrival. Wearing his hotel livery with the same grace as he had borne his officer's uniform when I last saw him and danced with him at a state ball in a foreign capital, was a man I had known. He colored to the eyes as he saw me, but made no sign, nor did I."

"The same thing has happened since at restaurants, at other hotels, in riding academies and in carriages. Some day M. le Baron de Trois Etoiles and Graf von Truemmer-Schloss will appear in European society with new éclat and full purses. Will I ever say that I know where they made their money? Why, of course not. It is a far cry from America to Europe, and in their own country these gentlemen have an irreproachable social position. I have really already forgotten the names of those I have seen, I assure you."—New York Mail and Express.

IT'S TOO RISKY

To undergo an operation for itching. Piles when Dr. A. W. Chase's Ointment is a surer, cheaper, easier way to cure.

Cruel, barbarous methods belong to the dark ages of the past. There was a time when a surgical operation was considered the only possible cure for piles. Not so now. Occasionally there is still found a physician who adheres to this dangerous and expensive method, but to every one who still believes in using the knife, ninety and nine recommend the use of Dr. Chase's Ointment.

Dr. C. M. Harlan, writing in The American Journal of Health, said:

"We know that 'Dr. Chase's Ointment' meets all the requisitions of the highest standard of worth, that it will be held in high esteem wherever it is used, and consequently we endorse it to every reader."

By force of merit alone Dr. Chase's Ointment has won its way into this wide world, until it has made the name of Dr. Chase familiar in almost every home, and won for the venerable discoverer the title of "America's Greatest Physician."

Dr. Chase's Ointment has never been known to fail as a cure for piles. It matters not whether blind, itching, bleeding or protruding, Dr. Chase's Ointment is an absolute and perfect cure.

Dr. A. W. Chase's Ointment is the discovery of the author of Dr. Chase's Recipe Book, whose portrait and signature is on every box of the genuine. It is sold by all dealers, or Edman, Bates & Co., Toronto.
