

History Society

Since the beginning of the semester only one society on our campus has risen to prominence at an astounding rate. Do you know which one? Give up? Yes, that's correct — none other than the History Society! That group of so-called deadbeats who bury themselves in the past only took two months to become second best... how long do you think it will take us to become # one? We are already making HISTORY. Needless to say all this rhetoric and vanity has paid off for us.

Thanks to all five (5) English Society members who materialized on Sunday for the volley (folly) ball game. Needless to say, we massacred our competition. We look forward to playing you (ha-ha) again!

made us reflect upon what freedoms we daily enjoy and daily take for granted. Lest we forget about our sacrifices made on our behalf and may we ever prove worthy of all the freedoms we have inherited.

See you at the next meeting!

DAVID SUZUKI, famed geneticist, and broadcaster spoke briefly in The Pit on Tuesday. Suzuki came as part of a Canada-wide tour promoting his latest book. He spoke about man's uncontrolled destruction of natural resources and desire for growth and how it must be stopped. It was Suzuki's first visit to UPEI since he was granted an honorary degree here in 1974.
