THE WORLD'S FAIR PHOTOGRAPHS.

Arrival of Another Lot of Part 1 of the Magic City.

On Saturday we received another lot of part I of "The Magic City" World's Fair Photographs, and expect to be able to satisfy the demand for these splendid pictures.

Coupons should be sent in at once, as we will offer part II of the series in a few days time.

Remember each part of "The Magic City" contains 16 large photographs and has only to be seen in order to have its superiority to other portfolios recognized at once.

The coupon appears in to-day's issue.

THE DAILY EXAMINER.

JANUARY 30, 1894.

THE PROVINCE AND THE BANKS.

According to the latest bank statement, the amount of our Provincial Government's overdraft at the Merchants Bank of P. E. Island on the 31st December last, was $61,436.00. At the Merchants Bank of Halifax the amount under the heading of loans to Provincial Governments was at the same date $151,977.00. There is also a Provincial Government overdraft at the Bank of Nova Scotia of $60,479.00. But this amount is owing by the Government of Nova Scotia. P. E. Island's overdraft is at the Merchants Bank of Halifax.

It is to be noted that the Dominion Government has a credit balance with almost every bank in Canada, while the column, "Loans to the Government of Canada," is absolutely blank.

REPAIRS OF STREETS.

The Report of the Street Committee gives particulars concerning street repairs in 1893, some of which may be interesting. For the maintenance of streets there were appropriated $1,500; and $4,894.44 were expended. But timber, clay, old plank and manure were sold to the amount of $327,19 so that the estimate was really exceeded by only $67.25. Macadamizing the streets cost $4,204.72 or nearly $300 less than the estimate, while there is still stone on hand to the estimated value of $500. We heartily congratulate the Street Committee in respect to this latter item. The work done on Grafton Street was of a permanent character, and it did not cost too much. We hope to see the policy of making permanent sidewalks and streets, in short sections, continued from year to year.

In this connection, we note that $88.26 were expended for coal and kindling for the furnace in connection with the stone crusher. If a water motor were put in, and if it proved to be efficient, this amount would be saved, and citizens who need power for small machinery would have an object-lesson which might result in the addition of several thousands a year to the receipts of the Water Commissioners.

CONTINENTAL TRADE.

The government and people of Canada are sometimes twitted because their policy in respect to the tariff has been modified to meet conditions created by the United States. If this taunt be applicable to Canada, what shall we say of the great Republic, when its people and its Legislature are discussing the propriety of making exceptional and extraordinary trade arrangements in respect to this country. At a meeting of the National Board of Trade held in Washington, it was proposed that Congress be memorialized to "take such action in the enactment of the new tariff as will secure the largest possible extent of trade with this continent." In addition to this resolution, there was adopted a suggestion as an addition to the new Wilson tariff bill, providing that the new tariff act shall not become operative so far as Canada is concerned, except by proclamation of the President, issued only upon the following condition:

"When it is duly certified to the President of the United States that the Government of the Dominion of Canada has declared a decree to enter into such commercial arrangements with the United States as will result in a material reduction of the duties now existing against the admission into Canada of the products and manufactures of the United States, he shall appoint three commissioners to meet those designated to represent the Government of Canada to consider the most desirable manner in which to accomplish a larger exchange of the products and manufactures of the two countries. If the results of the deliberations of these commissioners should be an agreement and a report satisfactory to the Secretary of the Treasury that by a material reduction of duties or by the putting upon the free list of the Canadian tariff a list of manufactures and products of the United States which, in his opinion, would afford an equal advantage to the United States as the operation of this bill would afford to Canada, and he should so report to the President, and on being furnished with an undertaking by the Canadian Government that these recommendations will be recommended to the Parliament of Canada for enactment, the President shall issue his proclamation, making this act operative without any reservation in relation to Canadian importations. It shall be the further duty of the commissioners so appointed to ascertain upon what terms the entire freedom of commercial intercourse between the two countries can best be secured, and said commission shall report to the President, who shall lay his report before Congress."

That is to say, Canada shall not be allowed to participate with the rest of the world in the reduction of duties afforded by the Wilson Bill unless and until she shall make special concessions to the United States. It is evident that the influences of our Farrer and Cartwright & Co. are being exerted at Washington. But it is not possible that the representatives of a great people will be moved to make the exception proposed. If the people of the United States be really great their representatives in Congress will readjust their tariff to suit themselves and without reference to Canada. Then, if duties remain which in the mutual interests of the two adjacent countries had better be removed, negotiations may be entered into for their removal or for the freest and widest trade that is consistent with the respective positions, interests and honor of the two nationalities.

Syrup of Figs

Produced from the laxative and nutritious juice of California figs, combined with the medical virtues of plants known to be most beneficial to the human system, acts gently' on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

THE BANK STATEMENT.

The Bank statement for December is the best showing taken for all in all, that has yet been made for the commerce of Canada at the same season of the year. The notes in circulation in December amounted to $34,418,936.00. Canada keeps the even tenor of her onward way, notwithstanding the great depression of the United States, Great Britain, Australia and other countries. The average bank circulation of last year was greater than it ever has been in the history of Canada.

POLICE COURT STATISTICS.

The report of the Clerk of the City Police Court shows, convictions,—

	1893.	1892.
Assaults	33	23
Annoying persons in dwellings	2	4
Disorderly driving on streets	4	19
Drunkenness	198	222
Breach Liquor Regulation Act	10	16
Breach Lord's Day Act	2	45
Larceny	7	8
Malicious injuries to property	6	9
Vagrancy	3	6

Several other minor offences were recorded. The city seems to have been, upon the whole, quiet and orderly, as compared with previous years. The fines imposed last year amounted to $1,032.42 and the costs paid to $363.06.

NOTES AND COMMENTS.

—After paying out $9,722.91, in 1893, the Charlottetown School Board had an unexpended balance at the end of the year of $893.39.

—We are told the reconciliation of Bismarck and his Emperor has no political significance. But it is probable that the old pilot will have his hand upon the wheel in the event of rough weather next spring.

—The Bank of Nova Scotia is a financial institution whose business takes in all the Maritime Provinces, and which has branches in Ontario and Quebec. It is a matter of interest therefore, to know that the Bank has made profits during the past year amounting to eighteen per cent., on its paid up capital of $1,500,000. Eight per cent., or $120,000, was divided, and $150,000, or ten per cent., added to the rest, which was thus increased from $1,050,900 to $1,200,000. The profits for the year represent eleven per cent. on the working capital of the Bank, as made up of paid up capital and rest at the beginning of the year.

ST. JAMES' CHURCH.

The adjourned annual meeting of St. James congregation was held last evening in St. James' Hall, J. W. Morrison, Esq., in the chair. Reports were read from the different congregational societies, all of which showed steady progress. The attendance upon the prayer meeting services was the largest and most regular in the history of the congregation. The total receipts for the year were $4,564.68, made up as follows: Sabbath collections, $2,458.68; Ladies' Aid Society, $458; Helping Hand, $42; Organ Fund, $333; Missions, $827; other religious and benevolent objects, $446. We cordially congratulate Rev. Mr. Fullerton and the congregation of St. James' Church upon the very satisfactory results of his first year's pastorate.

STARTLING INFORMATION FROM THE QUEBEC CARNIVAL.

Characteristic with the enterprise of the Quebec Daily Telegraph, the promoter of the Mid-Winter Carnival, which is to be held in that city on the 29th instant, comes the startling information of the publication of a superb Carnival Souvenir number. In the words of Hon. Mr. Joly de Lotbimere, Mr. J. M. LeMoine, the well-known Canadian historian, Mr. G. M. Fairchild jr., another renowned writer, and many other prominent men who have seen and contributed to its formation: "It will eclipse anything in the way of Carnival literature ever produced." This Number will contain some 150 photogravures of Canadian sporting scenes in winter and summer, two magnificent colored supplements with handsome colored cover, and sporting and historical articles by our leading Canadian writers. This beautiful work of nearly forty pages is mailed to any address on receipt of 40 cents. Address, Daily Telegraph, Quebec, Canada.

BETTER THAN EVER FOR 1894.

Economy is the order of the day, and yet it is false economy to use anything except the very best, especially when it comes to a question of quality in seeds.

The most noted house in the Dominion is "The Steele, Briggs, Marcon Seed Co.," Toronto, and their handsome catalogue for the year is now to hand. It is brimful of all new and reliable varieties in Flowers, Fruits, Vegetables and Seed Grains, as well as Potatoes and all accessories for farm or garden, it contains 500 illustrations and is mailed free to all intending buyers, and we recommend you to send for a copy. The firm are reliable and their seeds grow.

PERSONAL.

Mr. Lewis Carvell, of Charlottetown, P. E. I., is at the Victoria.—St. John Telegraph.

A New York despatch says: Chas. Coghlan, the well-known actor, has been afflicted with a strange complaint. Early on Tuesday morning last he was seized with violent hiccoughs, which continued for nearly sixty hours, and the doctors feared he would die. He is now better, but it is feared it will be sometime before he is fully recovered.

Deafness Caused by Cattarrh.

Capt. S. F. Belyea, of Greenwich, King's Co., N. B., suffered from an aggravated form of catarrh which had in his case induced serious deafness, closed the nasal passages so that he could scarcely breath and caused him great pain and trouble. He tried many remedies, but all failed until he got Hawker's Cattarrh Cure, three 25 cent packages of which effected a cure. "I can honestly say" says capt. Belyea "that I am practically well, and I take great pleasure in recommending Hawker's Catarrh Cure to those who may be suffering from this very troublesome disease."

James H. Haldart, managing owner of the Canada-Australian steamship line, sailed a few days ago from England for Canada. The object of his visit is understood to be to discuss with the ministers the trade prospects between Canada and Australia. He thinks the government should do something in the way of appointing commercial agents in the principal cities of Australia. He also desires Canada to be officially represented at the Tasmania midwinter exhibition, which opens at Hobart in November next.

Have You Asthma?

Dr. R. Schiffman, of St. Paul, Minn., will mail a trial package of "Schiffman's Asthma Cure" free to any sufferer. He advertisss by giving it away. Never fails to give instant relief in worst cases and cures where others fail. Name this paper and send address for a free trial package.

USE SKODA'S DISCOVERY, the great Blood and Nerve Remedy.

It appears that an Irish gentleman named Mr. McCracken has arranged to establish a woolen factory at Mission, British Columbia.

CIVIC PROTECTION ASSOCIATION.

The anti-sewer meeting last night was the largest yet held. In view of the meeting to be held in the Market Hall on Wednesday, it was decided to postpone nominations of candidates until after that date. Mr. Richard Smith gave an excellent address, viewing civic matters from the standpoint of a comparative stranger and referred to the "one man" power controlling the city, and advised citizens to unite in placing the affairs of the corporation in the hands of men who can be depended on.

Several gentlemen addressed the meeting, referring to the "sewer men in disguise" who are endeavoring, in an underhand way, to steal a victory by declaring that sewerage is not an issue.

A resolution was adopted relating to advisable changes in the city constitution, and the meeting adjourned to meet at half-past seven to-morrow (Tuesday) evening.

One Who Was Present.

THE MAYORALTY.

Sir,—Some two years ago, Hon. T. H. Haviland and Mr. T. A. McLean were suggested for Mayor. At that time it was generally understood that if Mr. McLean withdrew in favor of the present Mayor, the friends of the latter would assist the candidature of Mr. McLean on a subsequent occasion. I am not aware that Mr. McLean has done anything in the meantime to forfeit the confidence of the citizens, and he should be tendered a nomination. The present Mayor has filled the position seven years, and is no doubt a very worthy gentleman. But the plebians claim some share in the emoluments as well as the honors of office, equal to the patricians; and a mechanic has as much right to the civic chair as a merchant or a lawyer.

Mechanic.

Ch'town, Jan. 30, 1894.

Funeral To-morrow.—The funeral of the late Dr. Beairsto will take place at Summerside to-morrow afternoon at two o'clock.

Olivette.—The practice of Olivette will take place this evening, as usual, at 7.30 o'clock, sharp, at Mr. Earle's Music Rooms. Full attendance, please, with books.

Mock Parliament.—The Leader of the Opposition requests the members of the Mock Parliament who are opposed to the measure of the Prohibition Bill to meet at the Y. M. C. A. at 7.30 to-night.

The Methodist Church basement was filled last evening to the doors. An after meeting was also held. To-night the service will be held in the same place at 7.30 — prayer meeting at 7. Everybody come.

Work for the Unemployed.—Legislative sanction has been granted allowing New York city to expend a million dollars for park improvements. The work is designed specially to afford relief for the unemployed.

Easier To-day.—Telephonic advices from Summerside this afternoon state that John McInnis, who was shot by Constable Allen on Sunday afternoon, is easier to-day, and hopes are entertained for his recovery. The bullet has not yet been extracted.

Pugilistic.—As Corbett was leaving Jacksonville he was presented with a handsome gold watch and globe charm. The watch bore the inscription, "James J. Corbett, Champion of the——." The charm supplied the missing word. Corbett will fight Jackson sometime between June 20th and 30th next, before the club offering the largest purse. The National Sporting Club, of London, and the San Francisco Club are already negotiating for the fight.

Races on the Ice.—The sum of $40 has been subscribed by the horse loving citizens of Ch'town for a race on the Hilsboro next Wednesday. Respectable prizes will be given in each class and the public are guarenteed a grand day's sport. Entries for the following classes will be received by D. O'M Reddin, jr., up to Wednesday at noon, Jan. 31st, races to start at 2 o'clock sharp. Below are the classes: 2.50 (open to trotters and pacers) Green Race (trotters and pacers); Entrance fee, $2 in 2.50 class, $1 in the Green Race.

The Storm.—A severe snow storm set in about half-past four o'clock this morning and continued until about twelve o'clock, when it changed to rain. The wind was at first from the east shifting to the southeast. The average velocity of the wind was from thirty to thirty-six miles an hour, and the average snow fall was about three and a half inches on the level. Along the line of railway the cuttings are filled, and all trains excepting the Souris train which came through to Mount Stewart, were cancelled this morning.

Just So.—An exchange says there are eight classes of people that do a town no good and who are of no earthly use: First, those opposing improvement. Second, Those who prefer a quiet town to one of push and business. Third, those who imagine they own the town. Fourth, Those who think that business can be done slyly without advertising. Fifth, those who deride public spirited men. Sixth, those who oppose every movement that did not originate with themselves. Seventh, those who oppose every public spirited enterprise that does not appear to benefit them. Eighth, those who seek to injure the credit of an individual.

Are They Islanders?—The Moncton Times says: During the last week or two a couple of strangers, who have been selling patent jack knives from house to house, have attracted some attention on the streets by reason of their always being together and having a kind of mysterious air about them. It appears that they are brothers and their name is Ramsay. They formerly lived in P. E. Island, leaving there about 12 years ago for the West. They say they have been engaged in farming in Dakota since leaving home, but times are so dull out there now that they decided to abandon the place. They contemplate paying a visit to their old home on the Island, after which they may go to the Canadian Northwest.

Other Cough Medicines have had their day, but Puttner's Emulsion has come to stay, because its so nice and so good.

DIED.

This morning, Jan. 30th, of brain fever, Sarah Lois, infant daughter of Angus and Theresa Munroe, aged eight months.

MARRIED.

In this city, on the 17th inst., by the Rev. T. B. Reagh, Rector of Milton, John Good, Esquire, of Winsloe Road, to Mary Matilda, daughter of Thomas Foster, Esq., of South Milton.

Mrs. L. E. Snow, Matron Infants' Home, Halifax, writes: "Puttner's Emulsion has proven valuable in all cases of pulmonary Complaints, for building up the system of our little ones. They often ask for it.

A line of kid gloves, worth up to $1.20, large and small sizes, for 45 cents.—Moore & McLeod.

USE SKODA'S DISCOVERY, the great blood and Nerve Remedy.

The most popular cloth of the season is our Cashmerette, in fancy colors. Thousands of yards to choose from. Only 7½ cents per yard, worth 15. Call early. Other dress goods from 4 cents up.—Jas. Paton & Co. jan30 wy

THE GREAT HEALTH

Strong Hope Instead of Blank Despair.

Light Beams Where Darkness Reigned.

Paine's Celery Compound and Its Work the Topic of Conversation Everywhere.

The great Healer! The wonderful life restorer! The marvelous banisher of disease! Such are the expressions that come from people in every city, town and village of Canada where Paine's Celery Compound has been used. No other known human agency has ever conferred such widespread and lasting blessings on suffering humanity, in this or any other land.

Paine's Celery Compound has opened up to millions on this continent, a short, safe and pleasant avenue to the coveted realm of health, which formerly was seldom reached by the sick and diseased. The great healer and the wonderful restorer has established strong and firm hope in hearts once filled with dismal despair; it caused a glorious light to beam where blackness and darkness formerly reigned.

What does all this imply? What are the results to men and women? It means infinitely more than can be expressed in one brief article; the results are so wonderful and marvelous that the best physicians are astonished and now convinced that there exists an agency which, in the future, they can use to advantage in their practice. Owing to the almost miraculous curative power of Paine's Celery Compound, we have daily proof of the grave being robbed of its prey; wives restored to husbands and children, husbands saved from death and made strong to provide for those dependent on them, the children raised from beds of suffering and given back to loving parents.

Is there in the history of our nation any record of work that will compare with what has been done with Paine's Celery Compound? Facts and experience prove that there never has existed any agency that has produced like benefits for our people. Notwithstanding all this, there are unprincipled men to be found in some parts of Canada who, for the sake of extra money profit, will recommend sufferers (when Paine's Celery Compound is asked for) to try something else they represent as being just as good.

Ah! sufferers, this is the fatal rock on which many valuable live are shipwrecked and lost. That false assertion, just as good, is never uttered from a sincere heart for your welfare. As the Sirens (mentioned in ancient mythology) lured men into their power by the charms of their entrancing and ravishing music, so, at the present hour, are scores of men and women lured by false representations and honeyed words into buying the something represented to be just as good.

Happily, all dealers are not alike; there are thousands in our midst who are in business and who work on true business principles. If a dealer tries to take advantage of you by asking you to take something else instead of Paine's Celery Compound, leave his store at once, and purchase from his neighbor and rival who will give you what you ask for.

Remember well that when you make up your mind to use Paine's Celery Compound your life depends upon it, and no other medicines can meet your condition. It is wisdom on your part to follow the example and advice of the thousands who have given their strong and clear testimony in favor of earth's best medicine.

Sore throat and lungs, chapped hands and face positively cured by Pond's extract! sold only in bottles, with buff wrappers, and trademark. .....

CITIZENS' MEETING.

Charlottetown, Jany. 26th, 1894.

To the Hon. T. H. Haviland, Mayor of Charlottetown:

We, the subscribers, desire you to call a public meeting of the citizens of Charlottetown, to be held in the Market Hall on Wednesday evening next, the 31st inst., at the hour of eight o'clock p. m., to discuss civic politics and matters relating to the coming civic election.

Can you Afford

to carry your own fire risk when a good strong stock Company will carry it for you for a merely nominal premium?

E. R. BROW

BROWN'S BLOCK, CH'TOWN.

TELEGRAPHIC.

Special Despatches to The Examiner

Vessel and all Hands Lost.

Gloucester, Jan. 30.

The schooner Robert J. Edward, which sailed from Newfoundland three weeks ago with frozen herring, has not since been heard from. She is supposed to have been lost in the gale of January 12th. The crew comprised Edward Bibber, master, who belonged to Portland; John Clarke and Edward O'Brien, Newfoundland; Atward Harding and Laurence Ring, of Nova Scotia, all single; and Isaac Farmer, of Booth Bay, who leaves a wife and five children.

Fighting the Battle Over Again.

Boston, Jan. 30.

Corbett appeared in "Gentleman Jack" at the Boston Theatre last night. He was received with great enthusiasm. The fifth act was a reproduction of the recent fight, John Donaldson assuming the part of "Kennick Wilson, Champion of England." This aroused great enthusiasm.

The Knife Again.

Terrebonne, Que., Jan. 30.

While two boys of St. Adele, F. Bigras, aged 16 years, and B. DesLauriers, aged 13 years, were playing cards last evening, a quarrel arose, and Bigras drew a pocket knife and stabbed his companion in the arm, cutting an artery and causing death almost immediately.

Candidates Nominated.

Digby, Jan. 30.

Warden W. R. Wescott and Louis Dugu Meleghan have been nominated Liberal-Conservative candidates for the local legislature for Digby County.

Grand Trunk Stocks.

Montreal, Jan. 30.

Grand Trunk stocks are on the ascendency in consequence of a suggestion that the Canadian duty on coal will be reduced.

Another Northeaster.

Halifax, Jan. 30.

A heavy gale and snowstorm came on here last night.

GENERAL TELEGRAPHIC NEWS.

Berlin, Jan. 26.—Bismarck and Emperor William have been formally reconciled. The Emperor received him at the castle this forenoon with marks of great distinction. The reconciliation is complete. There is great rejoicing, as it indicates a possibility of the Emperor's attitude being something more than mere show.

Guthrie, O. T., Jan. 26.—Reports are coming in of people who perished during the terrific blizzard on Tuesday night. One family of three was found frozen to death in Cheyenne county. A woman and two children named Morrison were frozen in Pawnee county. An unknown tramp was frozen on a Santa Fe train in the strip. There are undoubtedly other fatalities and suffering among the new settlers is terrible and many are sick from exposure.

London, Jan. 26.—Truth says that the Princess of Wales has decided to withdraw from Society. It adds that the Prince of Wales, in declining for the Princess an invitation to visit Belvoir Castle, the residence of the Duke of Rutland, at Graham, Lincolnshire, stated that the Princess would hereafter take no part in social events. Truth says that the Prince is suffering from his old complaint and is unable to take much exercise. He will abandon riding.

Washington, Jan. 26.—In the House to-day the following amendments to the Wilson bill were agreed to: In the paragraph regarding fish, insert the words "salt water" to read "herrings pickled, frozen or salted, and salt water fish frozen or pickled in ice, three-quarter cent per pound, In the free list clause reading—fish, fresh, amended by adding the words "frozen or packed in ice."

Buenos Ayres, Jan. 26.—Despatches from Rio to-day say that an incessant fire is kept up between the insurgents' warships and the government forts, and that much damage has been done to Conceicac Island. The insurgents are trying to cut off Rio's water supply. It is reported also that torpedoes have been placed around the fortress of Santa Cruz.

Montreal, Jan. 26.—At the convention following the annual meeting of the Quebec branch of the Dominion Alliance, the question of plebiscite on prohibition in Quebec Province will be discussed, and if decided in the affirmative the local government will be petitioned at once to take a vote of the people.

Hamilton, Jan. 26.—At the conclusion of the P. P. A. a convention of the Women's Protestant Association was organized to carry on an active propaganda among Catholics, especially the French Canadians of lower Canada.

Toronto, Jan. 26.—The Telegram's cable from London says: "From the Thames to the Fraser" was the title of a lecture delivered at the Imperial Institute to-night. Sir Charles Tupper was in the chair and explained to the audience that the author of the paper, Mr. Archer Baker, was unable to appear. Baker's companion on his trip read the paper. It expatiated upon the many natural gifts of Canada. The dominion was pictured as a storehouse crammed with the living bounties of nature. Her waters swarmed with fish, and game was everywhere abundant. Her sublime scenery and salubrious climate made Canada one of the most favored countries under the sun.
