

MARIAN HALL HOCKEY

Though Marian Hall is off to a slow 1 and 1 start, Head Coach Donald Gunning Sather said after an interview yesterday, that he is not worried. He informed us

that Marian has yet to ice its best team since there are still cuts to be made.

In their first game Marian just nipped the soccer team 6-

5 after a pretty goal off the stick of Jag "Kordic" Pinkson who managed to play the whole game this time. Bert "The fish" Ronahan played his first game. Though Marian won the game, Head Coach Gunning Sather was not impressed because the soccer team, who played and excellent game, only had five players and a goalie.

Despite some awesome body-checks by Scotty "Crazy legs"

Gallant and a goal by Greg "The fly" Flynn, Marian lost their second game to Blanchard II by a score of 2-1. The whole team played well but couldn't put the puck in the net. Teams this week should look out because, after a "no pucks" practice on Sunday morning at 6 am, Gunning said, "the boys will be ready to play this week."

Last Saturday (Nov.19), the annual residence Co-ed was held

at the Inn on the Hill attendance was high and a good time was had by all. Marian would like to thank Atlantic Oxygen, Doug MacDonald, the girls from Bernardine and Blanchard, the two little CPs, and especially the Inn on the Hill for all their time and effort.

*Note we would like to congratulate Donald Wainwright for remembering his dates name, Mary Ann, for the whole night.

Chemmies Bulldoze Bios

by Randy MacKinnon

Pandemonium broke out last Sunday evening at the Alumni Gym as the chemistry society defeated the biology club in two straight volleyball games. The Chemmies, certainly underrated entering the contest, came up with strong performances from Stephen Hughes, Gerri MacEachern, James Connolly, and of course, Ronnie 'the rocket launcher' MacAuley, to soundly defeat the bios by scores of 28-10 and 28-14.

The games were close at times, but the Chemmies managed to take advantage of the bios lack lustre defense and score several key points in a row. The bios had some capable team players including Margo Chase, Grant Gillis, Christine MacWilliams, Ricki Sahajpal,

and Peter MacKenzie, but given many glorious chances to score, they lacked the desire to convert such opportunities into points.

The Chemmies were delighted to see second year student Spencer MacPhee come up with several key serves. His addition to the chemistry squad along with Dawna Stevenson, Mark P. Walker, Paul Gallant, and Liz McNally (moral support) created a winning combination.

This was our only scheduled game against the bios in the league, and the outcome definitely determined the superior club within the science faculty. Better Luck in the years to come, Bios!

Our next scheduled game is in the new year and we extend a welcome to all those majoring in chemistry to participate.

SHOULD ASPIRING ACCOUNTANTS SELECT A PROFESSIONAL PROGRAM THAT INTEGRATES MICROCOMPUTERS?

(Should aspiring airline pilots take ground school and flying lessons?)

Certified General Accountants are the first professional accountants in Canada to introduce computer-integrated learning into their program of studies. Extensive research into the needs of employers in the 1990s and beyond clearly pointed the way.

By choosing CGA and completing the program of studies you will graduate as a professional accountant and be trained and equipped to "take off" on a much wider role in management. It's the only course of action -- and as a professional, the sky is the limit.

Send for the CGA information package today.
