TEMPERANCE COLUMN.

W. C. T. U. Work

In regard to the great work now being carried on by the Women's Christian Temperance Union, the following facts are given in a circular recently issued by Frances Willard, President, and Caroline Bush, Secretary.

The society represents over two hundred thousand earnest-hearted women who are devoted to works of philanthropy along lines that build up the temperance reform. That their view of this reform is very broad is proved from the fact that they have forty distinct departments of work, under the general heads of Preventive, Educational, Evangelistic, Social, Legal, and the Department of Organization. Through their influence scientific temperance instruction has been secured by law in all the territories, in all schools supported in whole or in part from the United States Treasury, viz., West Point, Annapolis, the Indian schools, army post schools, etc., and in twenty-seven States, the same laws are now in operation. They have special lines of work for soldiers, sailors, miners, and all classes who are in circumstances of special temptation so far as pure and wholesome habits life are concerned. They have a network of juvenile societies extending from Tampa Bay to Puget Sound. They have a systematic course for mothers, and mothers' meetings are a feature of the local auxiliaries. In these hereditary and hygienic are subjects especially considered. They have a publishing house in Chicago, which sends out about sixty millions of pages annually, and prints the *Union Signal*, which has sixty thousand subscribers, and is the chief paper ever edited and published by women. Their gospel work has permeated the nation, and was never more earnestly pursued than now. In the social realm they seek especially to enlist the influence of young women, and to hold up the standard of total abstinence for others' sake. The Department of the White Cross and the White Shield, which is one of the largest, has called especial attention to the securing of laws for the protection of women, and to the equalizing of the standard of an upright life, making it the same for men that it has always been for women. This society has about ten thousand local auxiliaries, and representatives from every State and Territory will be in attendance at the coming convention. Its motto, No sectarianism in religion, no sectarianism in politics, no sex in citizenship, but each and all of us for God and Home and Native Land.

Temperance Education.

BY JULIA COLMAN.

The time is past for supposing that the best work to be done for the young is to save them as individuals from becoming drunkards. In every department of temperance work, the cry is for workers! more workers! better workers!!! At the polls we want men who shall vote for temperance intelligently and effectively. In legislative halls we want men who can frame laws that will hold water, and not whiskey. As executive officers, we want men who will carry out such laws honestly, and to good purpose. And it is better in every way to educate these men while boys, than it is after they have been elected to place and power by whiskey votes. We also want ministers whose temperance utterances shall have no uncertain sound; men who can understand and explain the difference between fermented and unfermented wines, and who will refuse to place the latter upon the Lord's table; men who shall not only welcome temperance workers, but be temperance workers, and manage to enlist their congregations on the Lord's side in this matter. We want doctors who, instead of giving a prestige to alcoholic drinks by recommending them as medicines, shall make it their business to help the Temperance work by doing their best to discredit and discard alcoholic drinks in every shape, and especially by exposing their deceptiveness and warning the people of their disastrous effects. We want women everywhere for matrons of our homes who shall dispense with the social use of wine; girls who shall demand in their suitors the same high moral standard to which they themselves subscribe; boys who care more for a clear head, a calm eye, a steady hand, a pure life, and a clean record than they do for wild oats, low-bred sneers and drinking customs. We want men and women everywhere, intelligent, brave and earnest, to work wisely in all sorts of ways for Temperance. And how can we have them unless we educate them? When we see how weak and faithless and indifferent are many of the men and women to whom we appeal for help, and from whom we expected better things, our very hearts should be stirred within us to go to work, and out of the material that God has put into our hands, make men and women capable of better things!

The Shortest Route.

Sir,—In your issue of May 1st, I notice a letter from Mr. Alex. Strang, Cape Traverse, in which he says that "under present arrangements, passengers could leave Charlottetown, via the Capes route, connect at Paines Junction with the C. P. R. train from Halifax, and arrive in Montreal twenty-four hours ahead of passengers going by Summerside, and that is easily proven;" and further states: "I would ask 'Respondent' where the passenger going by Summerside would be when the C. P. R. train passed Paines Junction?" The passenger by the Summerside route would be riding on the C. P. R. train, on his way to Montreal, several hours ahead of the passenger via the Capes.

The exact distance from Charlottetown to Paines Junction is 95 miles, made up as follows:

Charlottetown to Summerside 49 miles
Summerside to Point du Chene 35 miles
Point du Chene to Paines Junction 11 miles
or 26 miles less than via the Capes.

Under the existing arrangements, passengers by the Summerside route reach Paines Junction at 11.30 a. m., and have to wait there 1 hour and 35 minutes for the C. P. R. train, which is not due at Paines until 1.05.

As Mr. Strang puts it, it is easily seen which is the quickest route.

ALL BURTON.

Dyspeptics Will Rejoice.

(From Weekly Telegraph)

The attention of our readers is called to the advertisement of "Dyspeptics," which appears for the first time in this paper to-day. Dyspeptics has been a household remedy in St. John for a number of years, and without any sort of advertising has become familiarly known throughout the maritime provinces; that it is so well known is due to its wonderful success in curing indigestion and chronic dyspepsia. Mr. Short has given close attention to every detail of arrangement in placing "Dyspeptics," the specific for dyspepsia, properly before the public. It can now be obtained by druggists and general dealers from the wholesale drug houses of St. John, Halifax and Montreal. The thorough manner in which it is being advertised has already (in three weeks time) resulted in a large demand from all sections of the Maritime Provinces. The pamphlet on Dyspepsia contains in its 12 pages the results in the fewest possible words of many years' careful investigation and the scientific dyspeptic cannot do better than send for one of these little books, which explains this positively new rational and welcome treatment of the most miserable of modern diseases.

Druggists and general dealers in P. E. Island can now obtain Dyspeptics from T. B. Barker & Sons and S. McDiarmid, St. John, and Brown & Webb and Simson Bros. & Co., Halifax.

For all Sufferers from Consumption.

Serofa and General Dribility will try Scott's Emulsion of Cod Liver Oil, with Hypophosphites, they will find immediate relief and permanent benefit. Dr. H. V. Mott, Brewster, Cal., writes: "I have used Scott's Emulsion with great advantage in cases of Pthisis, Serofa, and Wasting Diseases. It is very palatable." Sold by Druggists, at 50c. and \$1.00.

Everyone is delighted with the children's clothing at J. B. Macdonald's.

Ch'town, April 22—31 eod 21 wky

LETTERS TO THE EDITOR.

The Want of a License Law.

SIR,—In a few months the electors of this city will be called upon to again sustain or reject the Scott Act. If the electors should refuse to sustain it, what statute will then regulate the sale of liquor? It is a fore-gone conclusion that it will be defeated. In view of this probability it is the duty of the Legislature to re-enact the old License Law repealed by section 163 of "The City of Charlottetown Incorporation Act." The re-enacting of the old act would do for the present, and next year, if the Legislature deem it advisable, a more stringent one might be passed. In any case let us have a license law. CITIZEN.

The Title of "Honorable."

SIR,—It is all very well to be deferential, but it must strike most people that in the matter of the pretext "Hon." the business is being quite overdone at present. I notice that even you, Mr. Editor, apply the term indiscriminately to the "good bodies" that compose the Legislative Council, some of whom, at least, could not be so properly addressed in any other connection. At the time of Confederation the question of title came up and was definitely decided by the following letter, based upon an Order-in-Council from the late Duke of Buckingham and Chandos, then Secretary of State, addressed to the Governor-General:—

"In consequence of the Confederation of the British Provinces some revision of the former usage there about titles has become necessary, and I have the honor to inform you that Her Majesty has been pleased to approve of the adoption of the following regulations:

1. The Governor-General of Canada to be styled "His Excellency."
2. The Lieutenant-Governor of the Provinces to be styled "His Honor."
3. The Privy Councillors of Canada to be styled "Honorable," and for life.
4. Senators of Canada are to be styled "Honorable," but only during office, and the title not to be continued afterwards.
5. Executive Councillors of the Provinces to be styled "Honorable," but only when in office, and the title not to be continued afterwards.
6. Legislative Councillors in the Provinces not in future to have that title, but gentlemen who were Legislative Councillors at the time of the Union (1st July, 1871) to retain their title of "Honorable" for life.
7. The President of the Legislative Council in the Provinces to be styled "Honorable" during office.
8. The Speaker of the House of Assembly in the Provinces to be styled "Honorable" during office.

There are no members of the Legislative Council, as such, entitled to the title of "Honorable," except Mr. Thomas Dodd, (President), and such other members as were elected before we entered Confederation (1st July, 1871) and therefore it is a manifest abuse of the term to be applying it to Messrs. Scrimgeour, Murphy, McNutt, Kitcham, Rogers, or any of other members of the Chamber that I know of. DUNDAS.

The Shortest Route.

Sir,—In your issue of May 1st, I notice a letter from Mr. Alex. Strang, Cape Traverse, in which he says that "under present arrangements, passengers could leave Charlottetown, via the Capes route, connect at Paines Junction with the C. P. R. train from Halifax, and arrive in Montreal twenty-four hours ahead of passengers going by Summerside, and that is easily proven;" and further states: "I would ask 'Respondent' where the passenger going by Summerside would be when the C. P. R. train passed Paines Junction?" The passenger by the Summerside route would be riding on the C. P. R. train, on his way to Montreal, several hours ahead of the passenger via the Capes.

The exact distance from Charlottetown to Paines Junction is 95 miles, made up as follows:

Charlottetown to Summerside 49 miles
Summerside to Point du Chene 35 miles
Point du Chene to Paines Junction 11 miles
or 26 miles less than via the Capes.

Under the existing arrangements, passengers by the Summerside route reach Paines Junction at 11.30 a. m., and have to wait there 1 hour and 35 minutes for the C. P. R. train, which is not due at Paines until 1.05.

As Mr. Strang puts it, it is easily seen which is the quickest route.
