LECTURE.—The treat from Dr. Harper last week was up to if not beyond our anticipation. The house was a full one. The illustrations were of the highest quality and the lecture interesting to a degree.—The St. John News.

A BIRD BINDER.—We are informed that one day last week, while two ladies were driving over the North River Bridge, their horse went down in a hole, skinning both legs to the knees and breaking the buggy and harness.

THE POPULAR thing for gentlemen this season is the "Tyke" serge. Almost every tailor finds it in great demand, but before buying see that the Registered Trade Mark "Tyke" is stamped every 21 yards. None other is genuine.

WORKS OF ART.—On Monday last His Lordship Bishop McDonald erected the new "Statue of the Cross" in the church at St. Peter's Bay. Those stations which were executed at Rome by the celebrated artist Porta, one of the best known painters of Italy to-day, are exact copies of the world renowned paintings by Ovebeck. The frames, which are of oak, were made by Mark Wright & Co. and reflect much credit on that firm. The people of St. Peter's Bay are to be congratulated on the persistency with which they are striving to beautify their magnificent church.

SAD AND SUDDEN DEATH.—We greatly regret to learn, from a private telephone dispatch to Mr. J. C. Croft, of this city, that Edward McFadyen, son of Mr. A. J. McFadyen, of Tignish, died at his home this morning. He was ill only a few days of inflammation of the lungs. He was about nineteen years of age and last year was one of the principal prize winners at the Prince of Wales College, one of the foremost in its athletic circles, and a strong member of the football team. The funeral will take place on Friday. We deeply sympathize with his bereaved parents.

CRICKET.—In connection with the excursion to Charlottetown in the St. Olaf on the 23rd inst., a match game of cricket has been arranged between the Cabot Cricket Club eleven and an eleven from the Albion Mines Cricket Club of St. John's, under whose auspices the excursion is being held. The game will be played at Victoria Park, where the home team will also entertain the visiting team. The steamer leaves Pictou at 7 a. m. and on return at 6 p. m. About 150, it is expected, will take advantage of the trip accompanied by the Stellar ton Band. The Cabots, we hope, will give a good account of themselves on the 23rd.

A BREAKAWAY.—Yesterday afternoon while Mr. George Tweedy, of Point Pleasant, was driving home from town, accompanied by Mrs. Percival and a little child five years old, his horse ran away. When about a hundred yards from Mr. Tweedy's home the horse came to a bridge which was at the time undergoing repairs. During the gallop over this bad place the wagon was upset and the occupants thrown violently out. Mrs. Percival's leg was badly fractured above the ankle. Mr. Tweedy was badly shaken up, but not seriously injured, and the child escaped unhurt. Dr. J. T. Jenkins and Dr. S. S. Jenkins were called, and they attended to the injured people. Mrs. Percival, although at last accounts suffering severely, is doing as well as can be expected under the circumstances.

NEWS NOTES.—The apple crop in England is the largest for many years. Statistics show a considerable increase of trade between Canada and the United States. Wheat cutting is begun in Manitoba, with the almost certain prospect of a splendid yield. Half last week seriously damaged the growing crops in the vicinity of Indian Head, Assa. About 2,000 acres of wheat suffered. The Chicago wheat market went lower on Saturday on favorable crop news from the northwestern states, and closed at a decline of 5-8c from Friday, or at 68c for September.

It is reported that the Government of Newfoundland has created a new office, that of inspector of mines, and that the holder of this office will be paid a salary of \$1,000 annually, notwithstanding the promises of retrenchment. Mr. Cecil Rhodes' latest scheme is a telegraph line through Africa from Egypt to the Cape of Good Hope. Mr. Rhodes is an imperialist with a mighty faith that moves mountains. There are chances that he will see the telegraph line and a railroad started to follow it. Africa is a continent where success is the reward of the man who dares.

Mr. Morine, ex-colonial secretary and leader of the Opposition in Newfoundland, has instituted another libel suit against the Telegram, the Whitehaven organ; for comments upon a case before the Supreme Court a few days ago, in which Mr. Morine was defending counsel. He contends that the article is calculated to injure him in the practice of his profession, and that most lawyers in the city admit that the case is a serious one. This is Mr. Morine's second suit against the Telegram this week.

The New England Cotton Manufacturers' Association will probably accept the invitation of the Cotton States and International Exposition Company to visit Atlanta in October. The party will consist of several hundred, including the most prominent cotton mill men in New England. The recent movement of cotton mills south, and the building of large cotton mills both by local and New England capital, has stirred up great interest in New England concerning Southern cotton industries. They expect to see a great deal of special interest in the Georgia Manufacturers' Building, in which the best products of the cotton mills of Georgia will be exhibited.

INDIAN MISSION. Extract of Letter from Mr. Hilton Keith, Charlottetown.

Indian Agency, Saskatchewan, 3rd April, 1895.

The bale arrived in safety and I sent it on to the missionary in charge of Sturgeon Reserve, twenty-eight miles from Prince Albert, Mr. J. Dyke Parker, for contribution and I herewith enclose you a letter of thanks from Mrs. Parker.

The Parkers are hard working, deserving good people, and will, I am sure, meet with success. The Indians they are living with are very hard people to turn, but I am sure they will be reached yet.

Extract from Mrs. Parker's letter: "There are many needy Indians on this reserve and we shall find the clothes most useful, especially those for the men. One of the girls' ulsters has already rejoiced the heart of one of our pupils, as she had only a very old and threadbare jacket. The dear little red frocks will delight some of the mothers with small babies. Warm undershirts and gowns for the women would be very acceptable. It does not matter how faded and patched up they may be. I must not forget to mention the books, illustrated papers, scrap books, the pictures looked at with great interest by old and young. The novels we intend sending over to Mr. Keith as soon as we have read a few of them. They are quite a boon and help to pass away the time in these isolated regions. This bale was shipped from New York."

Persons willing to contribute to the present bale, now being completed may send an article for it to Mr. Harrison Carvell's residence until Monday the 26th of August.
