The Morning Guardian.

APRIL 16, 1891.

Timely Comments.

An English paper says:—Australia has begun to send us eggs which must be at least six weeks old before they are put on the English market. Up till now, however, the quantity has been inconsiderable. From Russia we had nearly 7,000,000 eggs last year. France and Germany between them sent us over 714,000,000, Belgium over 200,000,000, and we have over 2,000,000 from Portugal. We drew similar quantities from Norway and Sweden, the Channel Islands, Morocco, Malta, Egypt and Turkey.

The letters from Canadian Mayors, now being published in THE GUARDIAN, relative to the abolition of the Ward system, should have the effect of convincing all who have hitherto been opposed to such a course, that it is the only satisfactory solution of the difficulty. Everywhere the petty divisons of the Ward system have worked confusion, bad management and dissatisfaction. Everywhere those who have municipal interests at heart are striving for the adoption of collective voting. Will Charlottetown fall into line?

A rather interesting question came up Tuesday before the Halifax Presbytery. The students of the Theological hall sustain a missionary in Labrador. They presented a paper to the Presbytery asking that, in view of the spiritually destitute circumstances of the people, the man sent out who is a student at the college, be given power to dispense the sacraments, and perform the marriage ceremony. The matter gave rise to considerable discussion, the more conservative members holding that it could not be legally done, while others were of the opinion that the power might safely be granted. A resolution was adopted expressing regret that the request could not be acceeded to, but that in view of the peculiar circumstances a petition be transmitted to the General Assembly that power be given the Presbytery to bestow ordination to meet this particular case.

Diphtheria has slain its thousands, but if la grippe keeps on as it is doing it will soon claim its tens of thousands. There are a good many cases here in Charlottetown, but fortunately they are mild. The latest report is that this new and dread disease has reappeared in the North of England where it first broke out in England in 1889. There are grave apprehensions of a serious epidemic. The disease is prevalent throughout Yorkshire and has reappeared suddenly at Hull, where the death rate has doubled during the last fortnight. In Duffield district, 20 miles from Hull, nearly everybody is affected more or less and work is practically suspended everywhere. There have been many deaths in the district from the disease. At Birmingham the outbreak is of milder character and has not spread so widely, nevertheless a number of people are suffering from the malady in and about Birmingham. In Lincolnshire reports show a general renewal of the influenza epidemic and several other counties make similar reports In London there are many cases, but it cannot be said to have reached the epidemic stage in that city.

Premier Fielding has introduced the following resolution of sympathy with Newfoundland in the Nova Scotia Legislature:

Whereas, a large number of the people of Nova Scotia are interested in the prosecution of the bank fisheries; and

Whereas, the prosecution of such fisheries is facilitated by the privilege of procuring fresh bait on the coast of Newfoundland;

Resolved, that the House has learned with deep regret that this privilege is now being refused to our fishermen by the Government of Newfoundland and that serious inconvenience and loss are being occasioned thereby;

Resolved, that this House warmly sympathizes with the desire of the people of Newfoundland to secure better trade relations with the United States and to obtain relief from the difficulties connected with the French shore question, and trusts that means may be devised at an early day to bring about these resuls in a manner satifactory alike to the Imperial Government and the colony of Newfoundland.

Resolved, that, pending a settlement of these important questions, this House express its earnest hope that the Government of Newfoundland may be willing to relax its present regulations and permit the procuring of bait by the fishermen of this country on fair and reasonable terms.

IMMEDIATE CLEARANCE OF CARPETS.—Having decided to close out our Carpet department, we are offering the balance of our stock at ... below cost. D. B.

THE QUEEN CITY

Toronto Abolishes Its Wards.

TEN THOUSAND FOR, THREE THOUSAND AGAINST.

The next letter we have to place before the public on the question of Municipal Reform is from His Worship Mayor Clarke, of Toronto. The citizens of Ontario's capital have recently decided to abolish their thirteen wards, and divide their great city into six districts. Mayor Clarke writes as follows:—

B. D. HIGGS, ESQ.,
Editor MORNING GUARDIAN,
Charlottetown, P. E. I.

DEAR SIR,—The question of making some reform in the administration of the affairs of the City of Toronto is one which came very prominently before the City Council of last year. A Special Committee was appointed to consider the matter, and a copy of their report, which was adopted by the Council, I hereby enclose.

A draft by-lay embodying the recommendations of the committee was submitted to and approved of by the ratepayers at the last Municipal Elections by a vote of 10,356 as against 3,461, and the city is now seeking legislation for power to carry the by-law into effect.

Faithfully yours,
E. F. CLARKE.

April 11th, 1891.

REPORT OF THE SPECIAL COMMITTEE RE THE BETTER ADMINISTRATION OF THE AFFAIRS OF THE CITY.

Your Committee to whom was referred the notice of motion of Mr. Ald. McDugall asking, "that application be made at the coming session of the Ontario Legislature authorizing the Council to pass a By-law for the better administration of the affairs of the city of Toronto as follows," beg to report the notice back to Council with several amendments which they recommend be adopted along with the Bill.

Alderman Macdougall gives notive that he will on to-morrow move that application be made at the coming session of the Ontario Legislature for legislation authorizing the Council to pass a By-law for the better administration of the affairs of the city of Toronto, as follows:

REVISION OF THE CITY, REDUCTION IN SIZE OF COUNCIL.

I. From the coming into force of this By-law the present division of the city into Wards shall be abolished, and the Municipal Council of the said city shall consist of a Mayor (to be elected annually as at present) and twenty-four Aldermen, four of whom shall be elected in the manner at present provided by law by the Municipal electors entitled to vote in each of the six districts into which the city is to be hereafter divided and which are to run from the water front to the northern city limit, and the said aldermen shall hold office for a term of two years.

II. The two candidates receiving the higher number of votes at the first election shall serve for two years; the two receiving the lower number of votes shall serve for one year, and thereafter annually two aldermen shall be elected for each district in the city and shall serve for a period of two years.

III. In the case of a tie at such election, the City Clerk shall have a casting vote as at present.

STANDING COMMITTEES.

IV. There shall be annually appointed at the first meeting of each newly elected Council the following Committees which shall comprise the Standing Committees of the Council:

1. Finance and Assessment Committee.
2. Committee on Streets and Public Works.
2. The Property Committee.
4. The Fire, Light and Water Committee.

V. At such first or before the next subsequent meeting of the Council the Mayor shall nominate from among the members of each respective Committee a member as Chairman of such Committee, and such nomination shall be submitted to the Council for confirmation; and in the event of the Council's refusal to confirm such nomination of Chairman, the Mayor shall have the privilege of nominating other members of the Committee until some one of his nominees receives the confirmation of the Council.

VI. The Mayor may in his discretion leave the nomination and appointment of the Chairman of any Committee to the members thereof.

VII. The Mayor and the said Chairman shall form a board of Control for the year.

VII. Except during the months of July and August, the Council shall meet fortnightly, and the Board of Control at least tri-weekly; and during the interval between meetings of the Council the Board of control may exercise all the powers delegated to them by the Council not involving an expenditure or appropriation of money or a reduction of civic revenue exceeding $1,000; but any act, order or resolution of the Board of Control may be reversed or varied by a majority of the members of the whole Council within six weeks thereafter.

IX. No appointment to office shall be made except from among persons to be nominated by the Board of Control, and no recommendation of any Committee involving an expenditure or appropriation of money or reduction of revenue exceeding two hundred dollars shall be submitted to the Council until it has first been submitted to the Board of Control, and if not approved by the said Board of Control the same shall not be passed except by a two-thirds vote of the whole Council.

SUBMISSION TO ELECTORS.

XII. This By-law shall be submitted to the Municipal Electors of the City of Toronto for approval at the next municipal election.

The ballot papers shall be in the following form:

BY-LAW FOR THE BETTER ADMINISTRATION OF CIVIC AFFAIRS.

1. For the By-law.
2. Against the By-law.

XIII. The said By-law, so far as approved by the said municipal electors and authorized by legislation to be obtained during the coming session, shall be passed by the Council within one month after the same has been so authorized, and shall come into force at the first meeting of the Municipal Council of 1892, except clauses I, II and III, which shall come into force at the date of the municipal elections of 1892.

XIV. The existing provisions of law and the By-laws of the City of Toronto shall remain in force so far as not inconsistent herewith.

Respectfully submitted.
E. A. MACDONALD,
Wholesale Agent for Prince Edward Island.

Gold that goes into Molars.

A dentist in good practice uses over $1,000 worth of gold in a year in filling teeth. Some prepared their own gold, getting it from a United States mint, and then making it chemically pure. Others get it from the gold-beaters, but the greater part obtain it from dental supply firms. This gold is put up in eight-ounce packages, packed in small glass vials, each containing a fraction of an ounce. The cylindrical pieces of gold in it are gold foil, of a very soft and spongy kind. When hammered into a hollow tooth, one of these cylinders will not take up one-twentieth of the space it occupied in the vial. There are several dental supply factories in the country. The largest is in Staten Island, and turns out $500,000 in gold for dental purposes every year.—Boston Herald.

Trifling Oversight.

"Aha!" exclaimed Mr. Billus, triumphantly, "Remember that little magnifiying glass I gave a dollar for the other day? You said it was a clear waste of money. It has more than paid for itself already madam."

"How so?" inquired Mrs. Billus.

"Detected one of those new counterfeit $2 silver certificates in this roll of bills. They're so well executed that even the experts can hardly tell them from the genuine."

"Who passed it on you?"

Mr. Billus' jaw fell.

"By George!" he said, "I don't remember."—Chicago Tribune.

Liquor Sellers in Open Revolt

BURLINGTON, Ia., April 13.—An open revolt against the prohibitory law occurred here to-day. Constable Greene, with three deputies, began to search the place of one Hirsohberg. Before he finished reading the warrant he was surrounded by forty liquor dealers, who gave him a terrible beating. Greene's skull was fractured, his nose broken and one eye destroyed. His deputies deserted him and escaped.

The Canadian Mails.

LONDON, April 14.—The post office authorities announce that the contract with the Allan steamship company, for carrying the Canadian mails, has expired. Henceforth the Canadian mails will go to New York via Queenstown instead of via Londonderry.

U. S. Relations with Canada.

TORONTO, April 14.—A special from Detroit says Senator Hoar's committee on relations with Canada will begin work in that city on May 1st. A number of Canadians from Windsor and adjacent towns have been invited to attend and give evidence.

Newfoundland Bait Law.

OTTAWA, April 14.—A member of the Dominion cabinet says that the imperial parliament will be asked to enact legislation rendering the Newfoundland bait act inoperative as against Canadian fishing vessels.

Sweet Rest UNDER THE DAISIES. | Domestic Revolution —IN— CH'TOWN.

SPRING CLEANING

has set in with vigor. Down come the stove-pipes and two baisins of soot strike Jones between the eyes. Upcome the carpets, down come the curtains. The good house-wife is seen through a cloud of dust with a handkerchief tied on her head and determination in her eye. The furs and big coats are laid away. The furniture has not a moments peace. There are dust pans and a rushing here and there and the melody of the carpet-beater is heard in the back yard. There are cold dinners and paper hangers. The slippers are gone and the loose tacks are upside down and the heart of the male creature sinks within him and he almost wishes he was laid awoy in peace under the daisies and daffodils. Then—Every atom of washing material every piece of linen, every curtain, and the poor man's summer suit is bundled up and sent to the.

Charlottetown Steam Laundry.

When that washing gets back and every article is put in its proper place you see an evolution from chaos to order and that home will be just a model of sweetness and arrangement. Send every thing to the popular and efficient Steam Laundry where beauty and perfection are guaranteed.

You can have your curtains creamed. The rush is beginning, send parcels at once mens suits cleaned and pressed second to none.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing
