Mr. Edzar VanDerstine and son Carter, Peters Road, recently visited in Murray Harbor North, guests of Mr. and Mrs. Lowell Johnston.

Inter-Provincial

(Continued from Page 1)

Federal Agricultural officials said that although the situation appeared to be shaping up into a "national emergency" it would be "foolish" for Canadians to panic. The quarantine, American and provincial embargoes did not mean "calamity".

The cabinet, in an all-day session today, touched on the foot-and-mouth disease and its economic implications, but there was no announcement on possible cabinet measures.

Clarifying Order

The United States clarifying embargo order followed a report from the border-crossing point at Rouses Point, N. Y., where Dr. L. E. Bruncher, local U. S. Animal Industry Bureau representative, embargoed not only livestock and meats but also Canadian grains, hay, straw and even some vegetables.

The U. S. Agriculture Department issued a formal order, defining the embargo to cover livestock and meats as well as hay, straw, and animal by-products, such as hides, skins and bone meal.

Canada shipped about \$130,000,000 worth of livestock and meats to the U. S. last year and about \$10,000,000 in hides and hay and straw.

Officials here believed that the U. S. ban does not cover certain types of preserved or canned meats, and Canada might turn to this kind of processing for export if the American ban continued long.

Agriculture Minister Gardiner, as he left Victoria to return to Ottawa from a western speaking and vacation trip, said:

"The main thing now is to keep our heads and not to panic buyers in the Canadian Provinces, the U. S. Britain and other parts of the world into slamming the door against us."

Mr. Gardiner is expected to arrive back Wednesday night.

Beef prices began to fluctuate sharply as the south Saskatchewan market against the movement of animals, grain and meat out of the infected municipalities took effect.

They rose in Montreal and Halifax. Cattle prices declined in Toronto and Winnipeg.

At Leithbridge, George G. Ross of Aden, Alta., president of the Western Stock Growers' Association, urged stock men to avoid dumping cattle on the market and thereby breaking it.

"It is going to take the co-operation of everyone to prevent a national calamity," he said. "If there is a rush of selling, it will break the market."

"DELIBERATELY PLANTED?" OKANAGAN, Wash., Feb. 25.—(AP)—A federal veterinarian said here today that foot-and-mouth disease may have been "deliberately planted" in Canadian cattle herds.

The veterinarian, Dr. Hal D. ...

Georgetown Scores 4-3 Win Over Montague In Playdown Series Opener

With ten seconds to go in the final period S. MacNeill, forward of the Georgetown Eagles, scored the winning goal to defeat the Montague Meteors 4-3 in the first game of the King's County Intermediate playdowns at Montague last night.

A thrilling crowd pleaser for three periods, the game was the best seen in Montague for some time with both teams playing fast close checking hockey.

Roughing was kept at a minimum under the sharp eyes of referee Jackie Kane. The Meteors were slow to get under way in the first period and Georgetown held almost complete control making constant attacks on the Meteor goal.

During the last period the Meteors controlled most of the play, but were unable to find the net for the winning score.

Those that did land were quickly smothered by Sullivan who gave a fine performance. The Meteors continued the five man attack which provided the set up for a three man breakaway for the Eagles, and MacNeill, giving Fraser no chance, scored the winning goal from close in with only ten seconds to go.

The Meteors then put on five forwards to press the attack but were unable to score in the dying seconds.

The large crowd of fans were well pleased with the hockey displayed by the two teams. With anyone's game and the picture may well be reversed Thursday night when the two teams meet again at Georgetown.

Georgetown, Goal, Sullivan; defense, W. MacLean, H. MacLean, S. Johnson; forwards, Landry, MacDonald, Murphy, Stevens, Publicover, Martel, McConnell, MacNeill.

Montague, Goal, P. Fraser; defense, George, P. Fraser, L. Fraser, Beck, Reynolds; forwards, Nelson, Power, Cudmore, Mullins, MacLean, A. Clements, K. Clements.

Officials referee in chief, Jackie Kane.

Teachers In

(Continued from Page 1)

Education Minister Hicks, at a meeting of teachers and municipal officials yesterday, said he was sympathetic to the idea of a commission salaries but could not guarantee cabinet approval.

The province has repeatedly stated it is carrying the larger share of education costs—55 per cent this year.

Salaries range greatly under \$1,200 in Montreal but asked for \$1,717 for all full-time teachers last year.

Souris and Vicinity

The sympathy of the community is being extended to Mrs. Joseph Walsh on the death of her husband which occurred on Thursday, Feb. 21st.

The highway to the town on Saturday, Feb. 23rd, was completely blocked in all directions by huge drifts of snow.

The snow plow, working from Rollo Bay to Souris, had only advanced 1-4 of a mile from Thursday, Feb. 21st, till Saturday, 23rd.

Upwards of fifty men were employed shovelling snow on the railroad Wednesday and Thursday of last week due to the heavy storm. The train which left Souris on Wednesday morning, Feb. 20th, did not arrive back till midnight on Thursday, Feb. 21st.

Cheverie's cutting, which was levelled with 20 feet of snow, was the first hold-up, and after fighting through this cutting with a damaged plow, the train encountered considerable difficulty in the Rock Cutting which was also filled with snow. It took three miles to travel a distance of about three miles.

Traveler snow shovellers claim the snow was equal to anything they had ever seen here in the past.

City Council

(Continued from page 1)

and radio releases should be prepared with this in mind.

Sinking Fund

On a question of the city Sinking Fund losing \$65,000 instead of the planned \$33,000, City Clerk Fullerton explained that this was done because the bond market was in such a precarious condition last year that it would not have been financially advisable to issue bonds for the balance of the amount and the city actually saved money by using the sinking fund account instead of refunding as has been the practice in past years.

Before the Council finished discussing the tax situation it was stated that in future the Finance Committee would assume the responsibility for all tax collections.

There was considerable talk at the meeting of the idea of employing a city manager as has been done in some other places. Councilor Johnstone made the original recommendation but there was some opposition although a majority of the Councilors agreed that City Clerk Fullerton has more work to do than should be expected.

At the same time there was also a feeling that perhaps the duties of the various city employees were not clearly enough defined. Mayor Stewart appointed Coun. Johnstone, chairman of the Finance Committee, and Coun. Storey, chairman of the Streets Committee, to get together and work out some system of particular duties for the various employees.

Street Work Details Coun. Farmer suggested that the City Clerk should not have to direct all details of the street work and thought the City Engineer should be named chief foreman to handle the work of that department.

Mayor Stewart suggested that the local asphalt plant would be more efficient if it were possible to bring in liquid asphalt in large tanks instead of the solid type now imported in small drums. He stated that he could obtain a storage tank of 8,000 gallons capacity for approximately \$1,200 in Montreal but asked authority of the Council to have it inspected by competent engineers in that city before it was purchased.

The Mayor also said that there were many services of the Provincial Department of Health being lost to the city because of lack of a proper agency of the city. He named Councilors Johnstone and Storey to operate as a committee with City Recorder K. M. Martin to arrange a meeting with provincial authorities to enable the city to take better advantage of what may be offered.

The Council passed a resolution extending to Mr. John Butler, a city employee, and his family, sincere regret on the death recently of his mother. The late Mrs. T. A. Butler was the widow of former City Councillor A. A. Butler.

Another resolution authorized the expenditure of \$235 as the share of the city for a proposed children's section in the Charlottetown Library. The section will be built on the main floor of the building.

Churchill's majority was a 33-26 vote edge compared to the Conservatives' nominal over-all majority of 14 votes.

Liberals and splinter parties have supported the Prime Minister in previous tests of strength.

Mr. Lowell Beck, who has been employed in Toronto for the past two years, arrived on Saturday, and is spending his holidays with his parents, Mr. and Mrs. John Beck, Alliston.

Mrs. Andrew Graham, Cambridge, is spending several days at Murray River, guest of her son, Mr. Raoulston Graham and Mrs. Graham.

Mr. and Mrs. Lowell Johnston, had as their guests on Sunday Mr. Edzar VanDerstine and son Carter, Miss Elaine VanDerstine, Peter Road, and Miss Joan MacLean, Charlottetown.

Mr. and Mrs. John Beck and young grandson of Alliston, and Mr. Lowell Beck, Toronto, were visitors to Murray Harbor North on Sunday, guests of Mr. and Mrs. Elmer Millar.

Given Voto

(Continued from page 1)

back at pacifist elements in the Labor Party. He claimed the former Labor Government itself had been ready as far back as last May to join in taking action "not confined to Korea" in the event of heavy air attacks on United Nations forces from bases in China.

Aneurin Bevan—who has led the anti-American policy group in the Labor Party—led a howl of protest and demanded that Churchill produce proof on the statement.

The Labor censure motion that precipitated the debate charged that Churchill misled the U. S. Congress in his declaration Jan. 17 that Britain would take "prompt, resolute and effective" action alongside the U. S. if a Korean truce, once reached, was broken.

Churchill's disclosure of the atom bomb, gave point to a British announcement 10 days ago that, later this year, Britain will test an atomic weapon in Australia.

The former announcement did not specify that the weapon was an atom bomb but there was speculation that an improved type of small bomb for support of ground troops might be the British product.

It was made known at the time that Britain considered it had detonating factor improved over the American A-bomb exploding device.

Churchill's majority was a 33-26 vote edge compared to the Conservatives' nominal over-all majority of 14 votes.

Liberals and splinter parties have supported the Prime Minister in previous tests of strength.

Mr. Lowell Beck, who has been employed in Toronto for the past two years, arrived on Saturday, and is spending his holidays with his parents, Mr. and Mrs. John Beck, Alliston.

Favor Increase In Salaries Of Teachers

The annual meeting of the Montague Home and School Association was held at the Montague High School last evening with the president, Dr. G. S. A. Inman, presiding. The minutes of the previous meeting were read and approved. Mrs. J. D. MacLeod gave a report on the visit with the Murray River group. Mr. C. Boehner reported on the progress made in preparation for the Amateur Cavalcade. Mrs. E. Stewart reported for the Education Committee. Thursday, March 16th was set aside for parents day at the school. It was moved and seconded that the Association renew membership in the Musical Festival Association.

It was moved by Mrs. E. Stewart and seconded by Mr. C. Boehner that the Home and School Association favor a suggestion regarding a raise in the teachers salaries. A resolution was brought forward and adopted: Whereas the Montague Home and School Association has studied the teachers salary situation in P. E. I., and whereas this Association is satisfied that the remuneration is not commensurate in proportion to the services given, therefore be it resolved that this Association do its utmost as favoring a salary increase for teachers sufficient to provide a reasonable standard of living for their profession.

A meeting will be held this week in the school with Mr. V. MacLean as guest speaker. After the meeting refreshments were served by the ladies and a social hour was enjoyed.
