Ice Increases Mfr. Freight Rates Nov. 22

By DON MACLEOD
Guardian - Patriot Staff Writer
Effective Nov. 22, Maritime Central Airways will increase its freight rate by \$1.00 per hundred weight because of this province and Stephenville, Nfld. Minimum cargo weight will be increased to 5,000 pounds from 3,000.

Announcement of the changes was received yesterday by Marketing Director Reid Sanger from King Forde, cargo director for MCA, yesterday.

In a letter to Mr. Sanger, Mr. Forde said "the increase has been found necessary to offset continually rising costs of operation."

"We are pleased, however, to advise that, for the present, our rate structures to Goose Bay and St. John's are to remain unchanged."

Air freight rates, at present, between Charlottetown and Summerside and a Stephenville are \$3.00 per hundred weight. On a 5,000-pound shipment, the rate is \$240; after Nov. 22, it will be \$260.

Commenting on the proposed increase, Mr. Sanger said "we recognize MCA's position and fully understand that a rising cost of fuel will mean a rising cost of the cargo."

"I did feel that the new minimum load of 5,000 pounds was a fair compromise."

would affect shipments of certain island products because, so often, freight of this type is found in the weight categories of less than 5,000-pound lots.

"I was assured yesterday, however, by Carl Burke, managing director of MCA, that steady shippers who reach within a reasonable range of the 5,000-pound minimum will not be cut off and kept from moving shipments of a lesser amount."

WORD OF CAUTION
Mr. Burke cautioned that he didn't want the idea to exist that any shipper wishing to move small quantities could get this type of service.

Mr. Sanger said, that after checking past records, the airline has flown considerably less than the present 3,000-pound minimum from the province.

"MCA," he said, "has been most cooperative as a transporter of island goods and the Canadian Federated Association of Letter Carriers is officially endorsing the new program and we know this will continue to be their aim."

The marketing director continued by saying, "I am hopeful that the increased minimum will lead to a more concentrated effort on the part of shippers to raise quantity standards so that we can fit into the new program outlined by MCA officials."

S'ide Letter Carriers Form New Unit Of National Group

SMUMERSIDE — Summer-side letter carriers met last night with Daniel MacBride, Truro, national vice-president of the Canadian Federated Association of Letter Carriers to discuss the formation of a new unit with the national association.

The carriers began door to door mail delivery when the Summerside postal system was inaugurated Oct. 1. New president of the Summerside unit is Denis Dolan. Vice-president is Donald Harris and secretary-treasurer is Roy Crozier.

The Federated Association of Letter Carriers is affiliated with the Civil Service Federation of Canada.

Mr. MacBride said last night, with the installation of the new executive of the Summerside branch, that the national association has about 7,000 members, and is therefore relatively

small, but he said very strong and active.

"I want to make it absolutely clear," stated Mr. MacBride, "that we are definitely not a labor organization of any type."

He challenged the letter carriers to work hard because as he said "you are all potential national officers."
