

THE DAILY EXAMINER.

AUGUST 11, 1886.

Honorable Robert Mooney.

THE HONORABLE ROBERT MOONEY passed away on Thursday the 5th inst. He was, as the Patriot well says, "a Liberal of the old school"—a true Liberal. Possessed of an active mind and sympathetic heart, he—soon after he came from the home of his childhood in dear old Ireland—took a prominent part in the conflict then raging between landlords and tenants, as well as in the discussion of other great reform movements; and only fifteen years after his arrival, was selected as one of the Liberal standard bearers for Fort Augustus and West River, then united and known as the Second District of Queen's County. As a representative of the people he gave an able and unswerving support to the great measures of the period; Responsible Government, Free Franchise, Free Education. He also bore his part in those efforts to obtain Free Land, which were subsequently crowned with success. In 1854 he became a member of the Coles-Whelan administration, and for four years presided with credit over the office of Registrar of Deeds and Keeper of Plans. After twelve years effective service in the Legislature Mr. Mooney retired from public life. His declining years were made comfortable and happy at the residence of his son-in-law, Mr. Daniel Milligan—where he received the loving ministrations of his youngest daughter until he died at the advanced age of eighty-three.

Mc. Mooney's genial disposition and social qualities won for him a large circle of friends; and on the beautiful morning of Saturday last, at the early quiet hour of seven, over a hundred carriages—all well filled—followed his remains to their last resting place in the churchyard of St. Theresa; and the occupants paid to him the last sad tribute of love and respect.

The Parcel Post.

On the first day of this month—as already announced—the beginning was made of a parcel post across the Atlantic: It is explained that for the purposes of this parcel post, the Dominion is divided into four sections of about 1,000 miles each, from east to west, as the line from Halifax to Victoria. The charge for a parcel weighing a pound, or a fraction of a pound, is as under. And a parcel may be sent from any post office mentioned in the list of cities and principal towns in Canada to any place in Great Britain or Ireland at those rates:

Table with 3 columns: Scope, Rates per lb. A—Main Provinces and Quebec 30 cents. B—Ontario 35 " C—Manitoba and N. W. Ter. 40 " D—British Columbia 45 "

Parcels may be sent up to three pounds weight and measuring two feet in length by one foot in width or depth. Pre-payment by postage stamp is required. If by inadvertence a parcel mailed in Britain shall be inadequately prepaid, it will be sent to its destination and the deficiency collected, accompanied by a fine at the discretion of the Canadian authorities. It must be remembered that parcels can be sent to only certain post offices under this arrangement, i. e., points where Customs' officers are stationed. And senders from Canada are required to fill up a Customs' declaration of the contents and value of the parcels they mail.

Editorial Notes.

The suggestion of the Pioneer that subscriptions be obtained to cover, to some extent, the losses of those whose crops were destroyed by the hailstorm, is worthy of favorable consideration. If the storm had only been a little more extensive the crops of every farmer on the Island would have been destroyed. Those who escaped its ravages have much to be thankful for, and they could not express their thanks in a more practical or appropriate way than by contributing to make up the losses of those whose farms were unfortunately within its range.

The Monetary Times remarks:—"It is not too much to say that the postal service of Canada has grown of late years in a way surpassed by no other country in the world, considering population and the enormous territory to be covered. Within ten years the number of post offices in the Dominion has increased by one half, i. e., from 4,796 to 7,064; the number of miles of post route has grown from 33,087 to 50,461, and the number of letters and postal cards carried annually from 36,358,000 in 1875-6, to 82,200,000 in 1885-6."

Speaking for the new British Government, the London Telegraph says:

"There is no idea of rushing into coercion; but the Union will be maintained, order ensured, and the law vindicated. In all this Lord Hartington and Lord Salisbury are united, and the new Government of Ireland will be strong, because it will be resolute and calm."

"We can only hope, as traders, to hold our own and pay our way." So says the London Telegraph concerning the prospect of an improvement in the trade of Free Trade Great Britain.

The July fire record in the United States and Canada shows a loss of \$10,000,000 worth of property, an amount fifty per cent greater than the average fire loss in July during the last twenty years. There were 175 fires by which the loss was \$10,000 and upward. The sixteen largest fires caused a loss of \$4,000,000.

Archbishop Lynch's Visit.

Archbishop Lynch, the illustrious prelate, who, as being the oldest archbishop of Canada, as well as on account of his devoted and effective labors in the cause of religion, may be called the patriarch, not only of Ontario but of the Dominion, is now on a visit to New Brunswick and P. E. Island for needed repose and for the benefit of his health. Having performed the functions to which he was delegated by the Pope of conferring the red biretta on the new Cardinal at Quebec, and having, with the other bishops, assisted the Cardinal at the subsequent ceremonies of investing with the new pallium the two archbishops of Montreal and Ottawa, respectively, the Archbishop of Toronto came on in company with the bishops of Charlottetown and Chatham to spend a few days near the salt water in their respective dioceses, ere he returned to Toronto. His Grace first stayed off at Petit Rocher for a week, then paid a short visit to Newcastle and Chatham, in all of which places he was the guest of the pastors and kindly yielded to their invitations to preach in their respective churches. On Sunday, August 1st, he preached in French at the parish mass in the church at Petit Rocher. On the following Sunday, August 8th, he preached at mass at Newcastle and in the evening, after vespers, at Chatham to full congregations, who were delighted by his eloquent and instructive discourses in English. On Sunday evening, after his sermon at Chatham, a number of the congregation called to pay their respects to His Grace to whom they were presented by the Bishop, Dr. Rogers. This morning, Monday, the venerated Archbishop leaves Chatham via Moncton for P. E. Island, where he will be the welcome guest of Bishop McIntyre and his priests and people. His Grace bears with him from the diocese of Chatham the kind wishes of all, both young and old, pastors and flock, who had the honor of meeting him or of hearing his instructive eloquence.—St. John Globe, 9th.

[Archbishop Lynch arrived here last evening, and will remain for a few weeks. He is the guest of Owen Connolly, Esq., Dundas Esplanade.]

Terrible Storm of Hail.

About 2 p. m. on the 3rd inst., probably the worst hail storm ever recorded in P. E. I. history passed over Malpeque, part of Lot 14, and a small corner of Darnley. It was first noticed coming down Grand River and striking near Lot 14 Chapel, and damaging considerably some half dozen farms along its course. Passing over Richmond Bay and destroying whatever vegetation was on the small islands on its route, it passed over Lower Malpeque in a strip about three quarters of a mile wide, carrying almost complete destruction of crops in its wake. The storm lasted about ten minutes, its direction being from west to east, and what had been one of the most beautiful and blooming sections of the Dominion, was in a few minutes rendered a complete wreck, so far as vegetation was concerned. Where destruction was less complete, the grain is being cut for cattle feed during the winter; but in many instances stock were turned into fields shortly after the storm. The potato and turnip fields look almost like plowed ground, while the destruction of gardens, vegetables, was most complete. The farms that fared worse are those of John M. Montgomery, Arthur Owen, Duncan McGougan, Miss Janet Ellison, Chas. Taylor, Alex. McGougan, Sam. Crozier, James Crozier, Arch. Ellison, John Clark, Wm. McKay. The crops of Neil McGougan, P. Craig and S. Bernard, were injured to the extent of probably one half to one-third. In Darnley, the farms of D. S. Hunt, Jas. McNutt and Geo. Wiggins (old McNutt farm) were among the worst sufferers. Mr. Hunt is a large farmer and stockraiser and his loss is very heavy. From Darnley the storm passed out to sea. The damage to windows was also considerable, most of the glass having been broken in several of the houses.

We are told that some of the hail were 3/4 inch in diameter and looked like hard, clear ice, broken in pieces. The roaring noise during the storm is said to have been terrific, and was accompanied by heavy thunder and lightning. After it was over the section traversed by the storm is said to have presented quite a wintery appearance. The hail is said to have been thirty inches deep alongside some of the barns and continued that afternoon and all next day. We are told that fences and buildings are marked quite perceptibly by the hail. Cattle and horses ran wildly before the storm, bellowing as if mad, their backs next day bearing evident marks of the hail. Persons who were out got badly pelted before getting under cover; but the terrible appearance of the sky previous to the storm induced most persons to seek shelter. While our readers no doubt sympathize with those whose crops were ruined, we suggest that more material and tangible assistance be rendered. Barns and houses can be insured against fire but there is no insurance against such loss as we have described. We therefore call upon the public to extend their generosity to those who in a few minutes lost their year's crop, an aggregate loss of probably not less than ten thousand dollars.—Pioneer.

The Cyclopaedia of Canadian Biography.

We are pleased to know that Mr. Watson is receiving cheerful support in his endeavor to collect data relative to prominent persons who have lived or are still living in our Province. If the selections for the Cyclopaedia alluded to above are as carefully made in all the Provinces as is being done in Prince Edward Island, the work will unquestionably be of great value. We would again suggest to our friends on whom the representative of the Rose Publishing Company may call, the advisability of their assisting in the compilation of material to the fullest extent of their power.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain; and the little shrub awakes as "bright as a button." It is very pleasant to taste, soothes the child, softens the gums, allays all pain, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

LETTERS TO THE EDITOR.

Cruelty to Animals.

SIR,—Is there any law in this city for the prevention of cruelty to animals? If there is, I would respectfully call the attention of the proper authorities to the manner in which one of our city truckmen—a prominent member of the Salvation Army—treats his horse. The poor, jaded animal is subject to torture all day long by his owner continually jerking the reins from one side to the other, thereby keeping up a constant sawing, as it were, of the poor beast's mouth. If he keeps up this "cross-cut" business much longer he will soon have him split up to the ears. In no city in the Dominion, except Charlottetown, would such cruelty to an animal be tolerated.

Yours, &c., OATS.

Aug. 11, 1886.

Boston Markets.

BOSTON, Aug. 7.

POTATOES.—There has been a good supply the past few days, and the stock have ruled principally at \$2 00 to 2 1/2 per bbl. EGGS.—Trade has been quiet and prices are easier. Eastern extras are held at 17 1/2 to 18c., because the supply is light, but Northern and Provincial firsts are offering freely at 16c., and at the close it is hard to get over 15c. Canadian are slow at over 15 cents.

FISH.—The tone of the market is steadily improving, and new Mackerel are firmer. The fares of Mackerel arriving from the North Bay are selling fairly at \$4 75 to \$5 per bbl., fishermen's order. Lots from Prince Edward Island command \$5 to \$5.50 per bbl. The Shore catch continues small, and no sales are reported except a few Black Island large at \$20 per bbl. There is not much demand for old Mackerel, and holders find it difficult to get over \$5 to \$5.50 for round lots of 1885 catch. Codfish sales in moderate demand, with sales of pickle cured Bank at \$2 25 to \$2 50; dry Bank at \$2 75 to \$3; and Georges at \$2 50 and \$3 per qtl. Canned Mackerel command 95c. to \$1 per doz. cans.

Killed By His Wife.

SAD TERMINATION OF AN UNHAPPY MARRIAGE.

Three months ago Capt. Wallace W. Hall married Miss Annie Cox of Chicago. Early on the morning of the 7th, he was shot and instantly killed in his home on Washburn avenue. The fatal bullet was fired by his wife, who claimed that it was accidental, and occurred during a struggle for possession of the pistol between herself and her husband. Mrs. Hall is now in custody. Capt. Hall until recently stood very high as an officer in the secret service of the United States. His marriage was not a happy one and he became dissipated. This resulted in his resignation being called for. Finding himself out of employment he drank more deeply still, and frequent quarrels marred his domestic happiness. Mrs. Hall claims that he frequently threatened her life, and James M. C. Cox was compelled to reside with them. Several quarrels took place on the 6th, and a very bitter feeling was engendered between man and wife, which, Saturday morning, culminated in the tragedy. The sound of a terrible struggle in the Hall residence that morning, the crashing of furniture, a woman's piercing scream, and a pistol shot alarmed the neighbors, and the police were summoned. When they entered the house they were met on all sides by evidences of a life and death struggle. Mrs. Hall, clad in her night robes, was discovered pacing the floor excitedly. When questioned, she pointed to a rear room. Here the officers discovered the body of Capt. Hall lying face upward on the floor, with blood slowly trickling from a wound in the middle of his breast, above the heart. A few feet away lay a Smith & Wesson revolver of 32 calibre, with one empty chamber. The body was cold. In this room the furniture and bedclothes gave clear evidence of a hard struggle. Capt. Hall was attired only in a night shirt. The feet lay partly under the bed, with the head toward the centre of the room, and the blood, which ran from the wound in his breast, over the carpet, showed that he had died without changing the position in which he fell. Mrs. Hall was taken to the armory, and the corpse to the morgue. The woman's father corroborates her story of the affair.

Dynamiters Abroad.

Despatches from London say that the Home Office has been informed from New York that a number of dynamiters have left the United States for the purpose of making attacks on the English Government. The conspirators, report says, will go from New York to Paris, and there await a favorable opportunity for entering England. The Home Office has notified the French Government. Some of the Home Department officials declare that they believe the whole enterprise, as reported from New York, is merely a renewal of O'Donovan Rossa's demonstrations to raise money.

HOTEL ARRIVALS.

OSBORNE HOUSE. Aug. 10—Joseph H. Gaudet, Tignish; Sylvan Gallant, do; A. H. Lavers, P. E. I.; Richard Smith, Pownal; J. C. Cunningham, Miscouche; Augustus Cunningham, Somerville, Mass.; A. P.
