ADVERTISING RATES

For small advertisements which are ordered for only one or two weeks the charge is 5c cents per inch for the first insertion, and 2 cents for each continuation. Rate cards are furnished on application at the office. Special contract prices at a reduced rate are quoted for advertisements four inches in size or larger, which are to run for three months or longer.

No special notices inserted unless paid for at the rate of 10 cents per line, and under no circumstances will such paid notices appear in the local column.

Special discounts made on all advertisements connected with Church Fairs, Bazaars Picnics, etc. No notices will be inserted with the same unless the regular rate of 10 cents per line is paid.

That THE EXAMINER is considered by our Merchants and Manufacturers to be the leading newspaper in P. E. Island, and consequently the most valuable advertising medium through which to make their announcements public, is abundantly proved by the fact that in order to accommodate our advertisers we have been compelled to enlarge the paper to its present size.

THE DAILY EXAMINER is for sale by the following agents:—

LETTERS TO THE EDITOR.

MR. SHAW'S DEFENCE.

SIR,—Since last writing you, I am happy to say that the fence poles placed for railing on McLean's bridge have been removed and replaced by some pieces of railing. But there is still a lot to do, to carry out the terms and conditions of sale of that bridge which I contracted to build, giving the required sureties, and which contract, according to the statement of Supervisor Dickieson, was cancelled by the Leader of the Government and Attorney-General of the Province.

The Patriot has made a statement that I previously performed an unsatisfactory contract. I have no hesitation to state that I am in a position to show that the statement referred to is untruthful—and I again ask the Patriot to trot out his informant.

I will not now publish the correspondence in my possession, but I will briefly state that an attempt was made to cancel that contract, but it failed. The McKenzie bridge was built by skilful workmen who have built scores of bridges. It was built according to Dickieson's specification, and when finished it excited so much attention that C. P. W. McLean had to leave the onerous duties of his office to inspect the work, and Hon. Donald Farquharson had for the nonce to abandon his voluminous and terrible ledger to attend on the same mission. Honest Hector McMillan was there and expressed himself satisfied with the work, having on another occasion, with Mr. Beer, made a thorough examination of the arch and declared it strictly up to specification in the presence of several parties. On that day from the C. P. W. down to Supervisor Dickieson, no fault was pointed out in the work, nor was I requested to do anything further thereto. Supervisor Dickieson expressed himself satisfied, and on that very day he stated he gave the C. P. W. my certificate, which the latter would give me. Although I repeatedly called at the office, I did not receive either certificate or money. Meantime, Supervisor Dickieson called upon ex supervisor McCannel to inspect the bridge, he being a skilful mechanic and honest man. Mr. McCannell approved of the work. Yet this did not bring my money. Finally I notified the C. P. W. I would hand the matter to an attorney for collection. His answer was to look to Supervisor Dickieson, as he was the one who was responsible to me. I did so, and Supervisor Dickieson called at my house with the certificate dated on the very day that the C. P. W. and his army of officials, &c., visited the work and two months after the work was completed. Supervisor Dickieson on that occasion begged of me not to expose this and other matters in the press, as he might lose his office through it, and out of pure commiseration I complied—if I was not myself assailed. I challenge the Patriot to send any competent mechanic, even after the bridge has been in use for over two years, and I will hand him Dickieson's specification and dare him to point out a variation therefrom. The cancelling of the contaact for McLean's bridge was a mean and contemptible act, but meaner still was holding back my hard earned money for McKenzie's bridge for over two months. Let the C. P. W. and Engineer McMillan, and even D. Farquharson, M. P. P., now pay a visit of inspection to McLean's bridge and if they will not pronounce it a reproach to the Public Works Department. I will then take off my hat and bid them good night, for by the present feeling of the people they will have a sour morning to meet. At the present writing Supervisor Dickieson, and of course his son-in-law, are alternately lumbering and driving piles at West River Bridge without let or contract or supervision, this being the second time this season in which he and his son-in-law had a nice job at West River Bridge. It may be said that I am desirous of having Supervisor Dickieson dismissed from his postion. Not so. He is doing good work in one respect, his glaring jobbery and irregular proceedings before the eyes of the public are very convincing. But I am desirous that any Government in power, Liberal or Conservative, should do business in respect to contracts different from what is done in Lot 65, by by allowing free and fair competition of all contracts at sale or tender, and not to be cancilling contracts or reserving them for sons-in-law or others, which if done would affect a saving of 40 or 50 per cent. to the taxpayers of this country, and as an old supporter of the Government, who has now lost faith in them said the other day, the farmers will not put up with having their taxes squandered right and left in such jobbery. For the present I am, yours,

ALEX. C. SHAW.

Sept. 17, 1894.

VALLEYFIELD NOTES.

The people here are delighted with a new system of road making, which may yet come into lively competition with the celebrated road machine. One of the most intelligent as well as ardent supporters of the present Local Government has turned three of his most improved breed of pigs on the road, evidently with the intention of rounding off and otherwise levelling the road through this thriving section. The road machine was operated here during the first part of the summer, but through the incapacity of the operator or some other reason it was left in a very unsuitable condition for the traveller. It shows great enterprise and ingenuity on the part of this gentleman for the valuable service he is gratuitously rendering the public. Without very much training those animals proceed very methodically with their work. The largest of the three leads and performs the heaviest part of the work, and the two others follow, nicely smoothing the road off. Mr. Peters had better look after his laurels, for here we have a great competitor to his imported machine, and his inventive genius will now, no doubt, be stimulated in order to improve it, so that it will not be said that he was beaten by this unclean animal of the Mosaic law. But perhaps the shortest way out of the difficulty would be to lay an injunction on the pig, and it would relieve the Premier of too heavy a strain on his inventive genius.

NEWS NOTES.

Queen Victoria has an immense number of titles, but officially is commonly content with "Victoria of the United Kingdom of Great Britain."

In Italy the senate consists of princes of royal blood and an unlimited of members appointed by the king for life. In 1890 there were 355 members.

An English papers that a young woman of Girton College, England, recently advertised for a classical "coach," meaning, of course, a private tutor. After a time she received a letter from a local coach builder, who sent her a pressing invitation to inspect his stock, and offered even to build her one in the classical style, adding that he knew exactly the class of article she wanted.

Paine's Celery Compound Delivers Mrs. McKillop from the Terrors and Pains of Rheumatism.
The Disease Caused Terrible Agony.
Cords in the Palms of the Hands Drawn up in Knots.
Sufferings and Tortures Ended After the Great Medicine Was Used.
In the past thousands have publicly declared that Paine's Celery Compound delivered them from the terrors and pains of rheumatism and terrible sciatica.
The same work is being done to-day on a vastly more extended scale. Martyrs to rheumatism are throwing aside the deceptive and worthless medicines that have no merit, honesty or solid standing, and are demanding Paine's Celery Compound from their druggists and dealers.
They see the wonderful results that have come from the use of Paine's Celery Compound to friends, neighbors and relatives; they also are aware of the fact that every cure published for the encouragement of the sick and suffering comes from some responsible resident of Canada, who can be interviewed or written to.
To-day we give another strong and mighty proof of the never failing power of Paine's Celery Compound. The letter comes from Mrs. Mary McKillop, of Campbellford, Ont. She says:—
"After using your Paine's Celery Compound, I am of opinion that I should say something in its favor for the benefit of all who have not given it a trial.
"I was a sufferer from rheumatism for a long time, and endured great pain. The cords in the palms of my hands were drawn up in knots, and I despaired of getting relief. However, after using Paine's Celery Compound, I have banished all my pains and troubles, and find myself strengthened in every way.
"I think Paine's Celery Compound is the best medicine in the world for rheumatism and all nervous complaints, and I will always recommend it strongly. I particularly recommend your medicine to all weak and delicate women."

Cæsar was a lucky man. He could go around where he pleased and his wife never asked any annoying questions. She was above suspicion.
"Papa," said Jack, as he gazed at his ten cents—one week's allowance—"do you know what I would do if I was an awful rich king?"
"No, Jack. What?"
"I'd increase my allowance to a quarter a week."
Made it Manifest.—"Yes," said the eminent clergyman, "I nearly left the pulpit once to embark in a mercantile business, but the Lord wished me to continue His work."
"How do you know He did?"
"My congregation offered me $8,000 a year, and that was $2,000 more than I was offered in business."
"The Sins of the Father," etc.—Tommy (studying his lesson)—I say, pa, where does the Merrimac rise and into what sea does it empty?
Pa—I don't know, my son.
Tommy—You don't know? And to-morrow the teacher will lick me on account of your ignorance.
"Jennie," said Mr. Younghusband, "each of these clothes-bags has got a hole in the bottom of it."
"What clothes-bags? We haven't any clothes-bags."
"Why, what's this I've been putting my collars and cuffs in all this week?"
"Why, George! That's the sleeve of my ball-dress!"
"James, have you poured the American champagne into the imported bottles?"
"Ez sure ez me name is Moike, mum."
"Well, you can put the cobwebs on the bottles now, and then practise your English accent for the rest of the afternoon."
Now, said the physician, who is noted for his heavy charges, I must take your temperature. All right, responded the patient, in a tone of utter resignation. You've got about everything else I own. There's no reason why you shouldn't take that too.

Suppose You Try It?
You would have some difficulty in convincing Mr. James Thompson, of St. John N. B. that Hawker's nerve and stomach tonic is not a remarkable remedy, for three bottles of it cured him of a six months illness that nothing else seemed able to effect His symptoms were weakness, nervousness, sleeplessness, and loss of appetite. He was run down. Are you?

The official cholera report for St. Petersburg shows that from September 8 to 14 there were 82 cases of cholera in that city, and 50 deaths from the disease. In Warsaw, during the same time, there were 32 cases and 16 deaths. For the period from Sept. 2 to 8 the following figures are given for the Government's affected: Lomza, Poland, 823 new cases, 259 deaths; Koyno, Western Russia, 42 new cases, 20 deaths; Minsk, Western Russia, 100 new cases, 44 deaths; Podolia, Western Russia, 446 new cases, 175 deaths; Bessarabia, South Russia, 453 new cases, 158 deaths; Nijni Novgorod, Great Russia, 179 new cases, 76 deaths. From August 26th to September 1st, not counting the above provinces, there were 1,349 cases and 733 deaths. From August 12th to September 8th there were 910 new cases and 494 deaths in the Government of Plotsk, Poland. From August 27th to September 9th there were 535 new cases and 347 deaths in the town of Nijni Navgorod.
