Athena RHS Has First Graduation Ceremony

SUMMERSIDE — Provincial Research Director Hartwell Daley addressed the first graduating class of Athena Regional High School during commencement exercises held last evening at Civic Auditorium which was packed with parents, friends and pupils. Chairman of the school board, Earl G. Cannon presided.

Mr. Cannon said, "it makes us feel good as a board and I am sure it makes the teachers feel good to see such a large turnout". It is only through the interest shown by parents and teachers that these schools will progress in the right direction, Mr. Cannon said.

The principal, Thomas Hall said the first year of operation had been a most varied, unpredictable and interesting one, and related that last August only sufficient space for half the student body had been obtained. However he said that when opening day rolled around they had space for all the students but in various buildings around the town. Mr. Hall thanked the organizations who provided space.

He told of the extra-curricular activities by the student body including sports even though facilities at the time were limited. He reported that 250 students from Ellerslie to Emerald attend Athena Regional High School and are transported by buses each day. He extended congratulations and best wishes to the 38 graduates.

The presentation of diplomas, certificates and prizes was made by Mr. Cannon.

The valedictorian was Miss Marilyn MacLean of Central Lot 16 who delivered a challenging address and presented a prize to Lynden Ellis, president of the student council for his leadership throughout the year.

Mr. Daley, who was introduced by the vice-principal, Carl Smith, said he had very little advice to give the graduates, but did have a few observations to make.

TRAGIC PERIOD

He said the older generation had lived through one of the most tragic periods in history and also a period of the greatest scientific achievement in history. "We found a changing world, a whole new scene, a whole new language. The task of keeping up today is a tremendous one".

He said he would make three rather frightening observations; there is a tendency to be an average person—not too good, not too bad but just average. The guest speaker said that when people set this as their goal "it is frightening; we are in danger," and told the graduates "if the average is what you shoot at do not be disappointed if the results are not what you like".

Mr. Daley said there is a tendency to avoid responsibility and challenged the graduates to make some contribution to some form of government and the nation as "the country demands that you should take some responsibility".

Mr. Daley said the whole free world is in peril because people refuse to accept responsibility. Lastly, he said all along the Atlantic region men and women have become wary of their economic future.

"I want to tell you that I don't think I've ever seen an area that has more opportunities than this one", Mr. Daley continued. He said that for people with imagination, the willingness to create and to work there is no finer area in North America than right here".

The guest speaker was thanked by Mr. Cannon.

Foul Forces Willie Mays Out Of Game

SAN FRANCISCO (AP)—Willie Mays was struck on his left foot by a foul ball in the sixth inning Tuesday night.

Ice packs relieved the pain and the San Francisco Giants' centrefielder was ready for Wednesday's game with Los Angeles Dodgers.

In Tuesday night's game, won by the Giants 9-3, Mays swung at southpaw Dick Scott's changeup pitch. The ball hit Mays' left instep and he fell in intense pain.

Mays did not want to leave the game. But, with the Giants ahead, manager Alvin Dark did not take any chances and sent Matty Alou to centre field.

Trainer Frank Bowman applied ice packs in the clubhouse.

"Mays' foot was not swollen and Willie will be all right, barring a little soreness," Bowman said.

Mays, Mantle May Not Make All-Star Tilt

NEW YORK (AP)—Imagine an all-star game without Willie Mays and Mickey Mantle?

It was conceivable Wednesday, a week before the players' selection of the squads for the all-star game in Cleveland, July 9, that last October's World Series participants, the Yankees and Giants, may not have a single representative in the starting lineup.

Mantle, of course, is on the disabled list with a broken foot and almost certainly won't be ready for the game, even if chosen. Mays may possibly be selected for the centre field post although he currently is being outhit by Cincinnati's Vada Pinson and St. Louis' Curt Flood, both exceptional fielders.

The starting line-ups will be announced Saturday, June 29. The pitchers and remainder of the teams will be announced the following week.

Function Held By Lebanese Association

The newly formed Canadian Lebanese Association of Prince Edward Island held its first function at the Charlottetown Hotel last evening.

Rev. Louis Elias opened the fellowship with prayer and an address. He pointed out that the Lebanese heritage has no equal and reminded the group that Lebanon was part of the cradle of civilization and contributed to the world such things as the present system of mathematics, medicine, philosophy, architecture and music.

Mr. Elias emphasized that while all the rest of Europe was worshipping pagan gods, the Lebanese were already called Christians. He felt that they could contribute a great deal as Canadin from the point of view of culture.

Paul Kays, the chairman gave a short outline of events leading to the formation of the association. He voiced the hope that eventually permanent club rooms would be made available to the membership—not only for the purpose of fellowship but for the teaching and continuing of the Lebanese language, folk dances, and customs among its people.

To close the evening a dance of both Lebanese and modern music took place followed by a buffet lunch.

Chief Praises Motorists, Raps Owners Of Dogs

SUMMERSIDE — Police Chief Donald A. Wannamaker had praise for the motoring public but felt that dog owners in this area were not looking after their animals in the proper manner as he reviewed the month from the police department stand point yesterday.

Chief Wanaamaker said that the one-sided parking rule on many Summerside streets had been well received and he was very pleased with the result.

Turning to the dog situation in Summerside he said that owners had been unnecessarily slow in getting licenses for their animals and few owners were taking any steps to keep their dogs from running at large.

Four breaks took place over the past month at Summerside businesses Chief Wannamaker noted, all were believed to be work of juveniles.

A total of $703.60 was received from fines imposed in police court while parking meter collections totaled $778.60 and $331 was paid by offenders for parking violations.
