

Break Reported At S'side Centre

SUMMERSIDE — Candy and cigarettes valued at \$50 were stolen from the Knights of Columbus Youth Centre in Summerside Tuesday night.

Entry was made by breaking a basement window and crawling up through a trap door in the floor of the stage. A panel of a door was smashed to gain entry to the canteen.

An attempt is also said to have been made to gain entrance to the council chamber but was unsuccessful. It is believed the thieves hoped to find the proceeds of the Christmas bingo which had been held in the centre that night. No money was left in the building when it was closed for the night.

Montague High Classes Resume

MONTAGUE — Many of the students of the high school here returned to classes yesterday. Four church halls, the hospital nurses residence, the armories, town hall, Legion building and the residence of Gilbert Clements are being used to provide classrooms.

Montague High School was destroyed by fire Friday night. The return to class with a minimum of lost time was due in large measure to the efforts of the school board, headed by chairman John Ballum. Other members are George Nicholson, Cyrus Shaw, A. A. (Joey) Fraser, Gilbert Clements and secretary Les MacLeod. Citizens and organizations co-operated by offering their facilities.

Tuesday Malcolm MacKenzie, deputy minister of education, Charlottetown met with the school board to discuss tentative plans for a new school. Architects have been contacted. It is planned to call a general citizens meeting shortly.

S'side Man Wins Research Award

MONTREAL — Donald L. Simmons, son of Mr. and Mrs. Leslie F. Simmons 151 Belmont Street, Summerside, and a postgraduate student at the University of New Brunswick has been awarded his second CIL fellowship for advanced chemical research. It was announced Wednesday by Dr. J. W. Tomasco, educational relations manager of Canadian Industries Limited.

Following graduation with a B.Sc. in chemistry from Acadia University in 1955, Mr. Simmons received his first CIL fellowship in 1956-57 for studies leading to the M.Sc. degree at Dalhousie University. Now working towards a Ph.D. in chemistry, he is one of 17 students seeking advanced degrees under the CIL program during the present academic year.

Inaugurated by CIL in 1940, this program now offers 18 fellowships annually. The 16 awards for students proceeding to doctorate degrees are valued at \$2,400 each, \$400 of which is granted to the university.

Two awards for students seeking master's degrees are worth \$1,500 each, including \$300 for the institution. During the 18 years in which the program has been operating, the company has offered 219 of these fellowships, with a total value of well over a quarter of a million dollars.

Green Likes Council Work

By ALAN HARVEY
Canadian Press Staff Writer
PARIS (CP) — Canadian External Affairs Minister Green Tuesday attended his first Atlantic council meeting and emerged full of enthusiasm for the way the alliance works.

"It's a pretty good business," he said. "I think we have got something very worthwhile."

Green spoke to reporters after outlining Canada's position in a 15-minute speech and listening to contributions from 14 other delegates at the opening session of NATO's annual December meeting.

He said the deliberations brought home to him something he hadn't fully appreciated before—that NATO is "the only protection of the Western world" against aggression and is going to remain the only protection.

Green seemed greatly impressed by his first-hand glimpse of the way NATO operates.

"There was nothing but good feeling from start to finish," the minister said in minimizing reports of a "malaise" surrounding the council meeting. These reports arose out of Franco-American divergences which some are describing as a "NATO crisis."

The atmosphere of the NATO meeting was "completely different" from the atmosphere at the United Nations. There was more "community of interest" within the alliance.

EXPRESSED CONCERN

Councillor O'Neill said that the cottage dwellers and farmers in the York Point area were very concerned about the proposed He recalled that the department of health had forbidden swimming in the Bunbury area as a precautionary measure following the installation of the Parkdale outfall in the East River. The flow there was much greater than in the North River, Councillor O'Neill added.

Asked to comment by the Mayor, City Health Officer Dr. Wendell MacDonald said that the plan as amended now appeared satisfactory provided that the outfall was carried to deep water and the present line emptying off Brighton Road be connected thereto.

He said his department intended to keep a close check on the sanitation angle and if deteriorated, Mr. Crandall would have an answer for it.

Frederick A. Large QC said that the proposal to dump raw sewage into North River was considered with abhorrence by all residents affected. The possibility of an odor similar to that occurring periodically at the north end of the Hillsboro Bridge was foreseen by all, he added.

NO JURISDICTION
J. O. C. Campbell, QC maintained that the Water and Sewage committee of the council had no legal jurisdiction since investigation of sewers and suchlike was a matter for the Town Planning Board which itself was improperly constituted.

So far as he could ascertain, the proposal had not been cleared by the provincial committee, he said.

Councillor Gormley asked that the vote on the motion be delayed until a full council was present. Mayor Johnstone noted that this was seldom the case.
