Settling Down To Routine Again At Summerside Hi

Here we are back to a routine of timetables and studies amid familiar surroundings. There are many new faces in the classes at Summerside High School and a lot of old ones missing—gone off to take up their various vocations.

Last year's staff of teachers is again the same and we have one new addition, but not really new, to many of the students. Charles Ballem is the new physical instructor for the boys and girls of grades 6, 7, 8, and 9, and the boys of grade 10.

Besides teaching these classes gymnastics there is an inter-school sport for everyone such as Badminton, which he plans to teach along with Volleyball and Basketball to his classes. After school these days he is helping those boys interested in football. S. A. M.

Mr. Ballem says the basic aim of physical training is to teach moral training through activity, and the real meaning of physical exercise can be explained by the definition S.A.M., that is—strength or satisfaction agility of mind and body or achievement, and mobility or motivation.

This is the true purpose of physical training; to mold a boy or girl to make decisions under emotional strain and not just to let them "let off steam."

TRIG ADDED
As an added course this year Trigonometry is being taught to fifteen pupils of grade 12 by Mr. MacNeill, who also teaches chemistry to grades 11 and 12, and also teaches physics to the 12's. This course is being taught to help those who will be taking Trigonometry next year in Universities.

As yet there have been no assembly programs but there will be a Thanksgiving program in October and after that the regular Thursday morning programmes will be resumed for the year.

Mr. Chaisson is getting a Glee Club organized again this year consisting of singers from grades 9, 10, and 12. This is a wonderful chance for students with singing ability to make the most of it and enjoy themselves at the same time. Practices will be held on Thursday mornings.

On Monday night "Beta" girls Hi-Y Club resumed its meetings and seven new girls besides the old members attended with the idea of joining. After the business meeting, conducted by the new president Marjorie Shanks, a singing and coffee and donuts session was held to the delight of all.

Now that the newness of teachers and books is over and lessons are being put out in fair numbers for students we must look ahead to October, with the coming examinations in mind let's prepare now by learning our lessons as they come along.
