

"IMITATION IS THE SINGEEREST FORM OF FLATTERY."

**MINARD'S LINIMENT**

The best proof that has extraordinary merits, and is in good repute with the public, is, that IT IS EXTENSIVELY IMITATED. The imitations resemble the genuine article in appearance only. They lack the general excellence of Genuine

This notice is necessary, as injurious and dangerous imitations, called WHITE LINIMENT, &c., liable to produce chronic inflammation of the skin, are often substituted for MINARD'S LINIMENT by Dealers, because they pay a larger profit.

They all Sell on the Merits and Advertising of MINARD'S.

One in particular claiming to be made by a former proprietor of MINARD'S LINIMENT, which simply is a lie.

**THE DAILY EXAMINER**

MARCH 14 1900

**TERMS OF PEACE.**

The South African Republics have cost the British Empire so much in blood and in money, they have caused so much trouble, first and last, and necessitated the transport of such a large army to bring them to reason, that it is not wonderful that Great Britain declines to settle with them except upon terms of absolute and unconditional surrender. After they have surrendered and laid down their arms, their case, will be taken into favorable consideration. Like Cronje they will be treated well. Of course they will have to pay, to the extent of their ability, the cost of the war. If they behave themselves, they may, in the course of a few years obtain all the rights and privileges accorded to their cousins in Natal and Cape Colony. More than that they cannot expect; more than that they ought not to wish.

**THE DAIRYMEN'S MEETING**

The late meeting of the dairymen in this city was a success, and in almost every way a pleasing event. Prosperity, in fact, always gives pleasure. There was, however, evident an objectionable symptom of subservience to the "Powers that be" which ill accords with the usual sturdy independence of the farmer. We hope the paltry sum donated by the local government to the Association, and the fear of losing it as a result of free and independent discussion—as he befel the Fruit Grower's Association—was not the cause of Mr. Irving's protest against Mr. Dewar's proposal to investigate the Government's management of the Stock Farm or Mr. Laird's strong objection to Mr. Bovyer's remarks regarding the Live Stock Transportation question. Each of these subjects is intimately connected with the dairy farmer's interest as much so, indeed, as the problem, what variety of grain he should sow or what style of horse he should breed, and so remote from party questions that we cannot understand the opposition of Messrs. Irving and Laird, except on the ground of fearing the displeasure of Farquharson & Company, and having the punishment meted out to the fruit-growers before their eyes.

As Messrs. Laird and Irving are leading

Liberals in their districts, and former candidates for Legislative honors, they may be supposed to understand the overbearing, despotic character of the Liberal government. But let them consider the present popular, strong and progressive condition of the Fruit Growers' Association, and they will pluck up courage and act and talk like men and not like tools of party or government.

It will be a sad day for our Province when a few dollars of government cash will be sufficient to muzzle such an association or control its resolutions.

**"HARD UP"**

UNDER this heading Le Journal, of Montreal, refers to that new and interesting development of P. E. Island politics, the barter and sale of members of the Legislature. It says:

"The Liberals are at bay, to some extent everywhere; but nowhere as much as in P. E. Island.

"The Liberal Government of the Island is in extremity; the Opposition awaits the vote. What then is to be done? They cannot face the Legislature; to appeal to the people is suicide.

"There is but one means of getting out of range of the Conservatives.

"For that reason Sir Louis Davies asks that Mr. Pineo, an Acadian recently elected in opposition to the Government, shall be named Canadian agent at the Paris Exhibition.

"So there will be one Conservative representative the less, and they may limp through the session.

"But will Mr. Pineo accept the position?

"We hope not.

"In any case, whether Mr. Pineo accept or refuse, the game of the government has been exposed, and it will, all the more, sicken the population of the independent Island."

**NOTES AND COMMENTS**

—It is stated that the Pretoria Government is paying its debts with bar gold, their English professional coiner having refused to work.

—The Queen's visit to Ireland seems to have been largely prompted by a desire to recognize the brilliant services of the Irish brigade in Natal, and to compliment the army.

—It is reported that Cecil Rhodes will visit German South-West Africa in April in connection with the development of the Otavi copper mines and the project to construct a railway from Tiger Bay to Rhodesia.

—Mrs. Kruger: "Rhodes has pulled through, Chamberlain has pulled through, Buller has pulled through. White has pulled through, Roberts is pulling through."

Mr. Kruger: "Yes, my dear—and if Leyds and the Boer—and Dr. Clark—pull through, we shall be all right even yet."

—The Province of P. E. Island is to pay the Dominion Government \$12,000 a year for the privilege of letting the local traffic between Charlottetown and the country south of the Hillsborough pass over their proposed railway and bridge. And will the Dominion Government place the bridge a mile from the middle of the town? They may do so. They may (we doubt it) save a few thousand dollars if they do so. But, in the interest of town and country alike, they ought not to do so.

—It is stated that, encouraged by the press, the Russian War Minister recently elaborated, for the occupation of Herat, a plan which was approved by the Military Council. In presenting the scheme to the Emperor, he remarked that if it were pleasing to his Imperial master to utilize the present moment, when England's hands are tied, to order the occupation of Herat, he (the War Minister) had adopted all needful measures, and the order would be carried out promptly and successfully. The Czar, it is reported, replied that it was contrary to his habits to profit by the difficulties of a friendly State, even though its rulers were wholly unrelated to his house, and concluded: "I intend to maintain the strictest neutrality throughout the war, notwithstanding the display of popular sympathies towards the Boers." The story seems to be as true as the other one—that Russia is making preparations for immediate war.

**MR. MCCREADY'S LECTURE.**

A large audience gathered at the Baptist Church last evening to hear Mr. J. E. B. McCready's lecture on the War in South Africa. Col. F. S. Moore, as chairman, introduced the speaker in a few well-chosen words. Needless to say Mr. McCready did full justice to his subject. He clearly and vividly traced, from the early history of the Boer settlement in South Africa, the causes of the present struggle, describing carefully the particulars of the different moves leading up to the final crisis. After making a lucid explanation of the movements of 1876 and 1881, culminating with the battle of Majuba hill, the learned lecturer gave, in a most interesting manner, a description of the present war from the beginning up to the triumph of Bloemfontein, now announced. At the close of the lecture a hearty vote of thanks, moved by Mr. J. K. Ross, seconded by Mr. A. W. Sterns and supported by Rev. W. H. Warren, was tendered the speaker. In closing the audience joined in singing the National Anthem.

NEARING PICOU.—At half-past two this afternoon the Minto was reported about two miles off Picout light.

**Wide Brim Golf Soft Hats**

Nobby styles in these popular Hats in black, pearl, and other colors values at \$1.50
