

Stresses Importance Of Good Municipal Planning

That all villages and towns of the Province should go about laying out parks and playgrounds before all the open spaces are gone, was the suggestion advanced in the Legislature Saturday by Hon. Eugene Oullen, Minister of Industry and Natural Resources when he resumed his speech in the budget debate.

He noted that the original planners of this city showed great sense in this regard and he thought that the other towns and villages should make provision for future generations of children.

Mr. Oullen thought the first way to increase production here was to increase the income of the people to such a point that "outsiders" would be clamoring to get in "and we will have to take measures to keep them out."

He referred to the excellent work of the Government cold storage plant on Esplanade Street and particularly mentioned the great increase in sales of quahaugs, which he stated could not have been processed if the plant had not been available for the purpose. He said the plant provided facilities and encouraged fishermen to handle types of fish of which they otherwise could not take care.

Mr. Oullen also stated he hoped to see a plant in operation here to handle the loads of string beans which have been processed in Nova Scotia.

Farm Improvement

Dealing briefly with the Farm Improvement Service of his department he said that they had tried doing much of the work for schools on a free basis but soon learned that some of them wished to keep

the machinery all summer long. He said it was now being done on a basis of half price. He said the department did not wish to take its heavy equipment off the farms and for this reason the three dams built were done by private contractors.

The Minister spoke of the experiment carried on last year for blueberries in the Donaldson area and said it had been highly successful with an excellent growth of new plants showing. He said they planned on carrying on this work and also intended to plant more pine trees in various sections.

Indirect Returns

Mr. Oullen said there were many things indirectly returnable to the Government which "immeasurably strengthen its financial position". Among such items he mentioned loans to fishermen and expenses advanced to teachers.

He noted that at least 40 percent of the tourist business of the Province is done in his district, "Three Queens and that meant that the heaviest travelled roads on the Island were there. He stated that aside from crossing North River Bridge the only way to get to Charlottetown was through his district. Because of this situation he said he was asking particularly for paved roads to the North Shore. "Every traffic count", he stated, "shows that the Brackley Point Road is the heaviest travelled one we have".

Mr. Oullen also stated he wished to have a paved road on the south side of the Hillsborough River.

Mr. Oullen adjourned the debate on the budget and he will resume when the Legislature meets again at 11 o'clock this morning.

Daly, S.J., who is conducting the Lenten sermons at the Basilica titled his talk "Himalayan Horizons". Father Daly was a member of the first Canadian Jesuit team to work in the Missions in India. During his seven years in Darjeeling Province, in the shadow of Mt. Everest, he came to know and love India and her people. Father Daly's natural humour and his extensive knowledge of the subject lent his audience as only a rarely gifted speaker can. All who heard him came away with a deeper understanding of the problems of the Indian Missions.

Brother Brendan O'Grady moved the vote of thanks, which was seconded by Brother M. E. Campbell and enthusiastically endorsed by the members present.

Music was provided during the meal by Brothers Alf McKearney and Austin Connolly. The chairman was George Cheverie, Deputy Grand Knight.

Comments Achievement Of Balancing Budget

Final Sermon By Rev. Mr. Webster

In his final sermon at Zion Presbyterian Church last evening before a congregation which filled the church to capacity, Rev. G. Carlyle Webster warmly thanked the people of Zion and other churches here for the many acts of Christian fellowship shown during his ministry.

Rev. Mr. Webster spoke on the words "Lo! I am with you always", and in dealing with the text said that this great promise was made immediately following a great command, which is the basis of all Christian teaching: "Go ye into all the world and preach the gospel to all people."

"The Christ-given task," continued Mr. Webster, "was found from the earliest days, to be most difficult. From the time of the Apostles and their followers, down through the ages, there has always been a battle against sin, strife and even sometimes a battle to death; but in all times men have been inspired by an assurance of Christ's companionship. They have gained strength with Christ's presence as a Wise Counselor, Wise Benefactor, and ever-present help in time of trouble.

"Christ offers today," Mr. Webster continued, "the same unerring guidance that inspired his disciples of old. We should keep our eyes fixed on Him who is our Friend and Guide; the crucified and risen Christ who is ready to help and save us all. We shall gain the victory, for 'if God be for us, who can be against us?'"

In conclusion Rev. Mr. Webster exhorted the people to work together in unity so that the Church of Christ will go forward in greater power and in greater glory.

The choir under the direction of Mr. Frank Johnson, A.T.C.L., provided special music including a beautiful rendition of the anthem "God So Loved the World", by Stainer.

Rev. Mr. Webster leaves for Wallacetown, Ont., this morning to begin his ministry in that town.

The sick committee reported sending fruit, and a bill for \$1.80 for same was paid. The correspondence was read and discussed and \$5.00 each was voted for the Red Cross and the European disaster fund.

The next meeting is to be held at the home of Mrs. Vernon MacRae with Mrs. Hubert Outway and Mrs. Cliff Matheson to assist with the lunch. Roll call is to be answered with a joke.

Decrease Shown In Unemployment Insurance Claims

For the first time in more than a month the number of Unemployment Insurance claims paid weekly by the National Employment Office in Charlottetown dropped below the 1700 mark during the week ending Saturday, March 28th.

The total number of claims paid in the period was 1687 as compared to 1725 the previous week. A much sharper drop is expected at the end of the present week.

The first signs of the end of seasonal unemployment are beginning to appear with some employers preparing to re-engage men who were laid off last autumn. If the trend of mild weather holds, it is probable that many of the unemployed will be working before the end of April.

Many men who worked in Northern latitudes last year are being re-engaged and about twenty-five will leave the Charlottetown area in the next few days to resume jobs they held last year.

As revealed in these House of Commons reports on the unemployment problem across Canada to British Columbia, are working on important defense tasks. Some receive extra pay for working in isolated posts on the rim of the Arctic Circle. Every Province in Canada is contributing its quota of workers to these top-priority projects.

A "Back To Work Campaign" will be carried out by the Charlottetown Employment Office in mid-April. Its object will be to persuade employers whose activities are seasonal to re-engage workers at the earliest moment.

A similar campaign conducted last year met with considerable success, and was well supported by Charlottetown employers, who cooperated heartily in the effort.

Information obtained by the local Employment Office, from contractors, business firms and other sources points to much new construction this year and a large amount of renovating work. Some of the construction jobs to be undertaken have not been officially announced but it is known that they are assured.

Further Supplies For Holland Being Made Up Quickly

Members of the Red Cross Women's Work Committee are literally "covered with white lint" these days as they hurriedly cut white towelling into the proper lengths for towels and face cloths. Over 5,000 of these are being made up by different women's organizations as quickly as possible and the response from willing workers has been, as usual, very heartening.

Just as soon as the articles are completed they will be shipped to Holland to aid in the rehabilitation of the thousands of Dutch people who lost everything as the result of the recent floods.

Recent reports on the greatest needs of these victims in Holland and Britain reveal that there is a great demand for what they call "Canadian Quilts". The women of P. E. I. are noted for the quilts made here and undoubtedly there will be a good response to their request. During World War II no less than 10,000 quilts were made and donated by the women of this province for distribution overseas by the Red Cross.

Glance Bay Miners To Resume Work

NEW WATERFORD, N.S. (CP) — Nearly 3,000 Cape Breton coal miners prepared Sunday night to report for the midnight shift in three collieries, kept idle last week by a wildcat walkout which ended after a "work-or-else" order from union officials.

Locals of the United Mine Workers CCL at nos. 12, 16, and 18 mines decided at separate meetings Saturday to return to work. Earlier, Freeemen Jenkins of UMW district 26 had warned them to quit the "illegal" walkout or lose their charters—and with it their jobs.
