

Ice Water--Doctors Disagree.

A celebrated physician says: "All ice-water drinking is bad," also that "a severe blow upon the body just over the solar plexus," (which in good United States language means an important portion of the nervous system located just back of the stomach.) "will cause almost instant death," and he further says "the sudden shock caused by a deluge of ice-water into the stomach has exactly the same effect upon the solar plexus as the blow, and may cause sudden death by its action upon it and through the heart."

FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button."

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
