THE DAILY EXAMINER

MARCH 9, 1899.

EX-CONSUL KEIM.

The Reading Times, a copy of which has been kindly handed us, contains a lengthy sketch of the life of the late Henry M. Keim, for several years United States Consul for Prince Edward Island. Mr. Keim, according to the Times, had been prominent in the social, political and business life of Reading for upwards of fifty years. He had many excellent qualities of head and heart which made him an agreeable and entertaining companion. The deceased was a son of Congressman Geo. M. Keim, and was a lawyer by profession but he preferred literary pursuits to the dry bones of law. Mr. Keim was also interested in military matters and saw service during the war for the union, holding the rank of lieutenant. He took a leading part in politics in the Democratic interests, and was chairman of the County Committee during the Tilden campaign. In 1875 he was the Democratic candidate for Mayor of Reading, but was defeated. He was also prominent in church circles, having been vestryman of Christ Episcopal Church for many years. By his death a good man and a useful citizen is lost to the community.

Chatham Planet: The sunny smile with which Sir Wilfrid illuminated the American capital has been succeeded by a low area of depression, which having moved northward, is now centered over the Ottawa valley.

Weekly Union: The continued fighting in the Philippines, and the consequent necessity of sending reinforcements to our troops at the antipodes, for an indefinite period, at a tremendous expense and an incalculable cost of life, is disgusting the whole American people with the policy of the administration, and there is sure to be a protest before long so emphatic that the authorities at Washington will not dare ignore it. Senator Sewell is one of a large number who, while voting for the treaty, were in reality strongly opposed to the permanent acquisition of these distant islands. Senator Mason, Wellington and Perkins are representatives of this class and there are others on the Republican side of the chamber who, while they have not the courage of Hoar or Hale, will refuse to stand much longer with the administration unless it declares that its purpose is not to annex the Philippines. The opinion of all sensible men is that we have become mixed up in a very dirty mess, and it is high time for us to wash our hands of it.

Although a very busy man, Dr. R. V. Pierce, of Buffalo, N. Y., has found time in which to write a great book of over a thousand pages entitled, *The People's Common Sense Medical Adviser*, in Plain English, or *Medicine Simplified*. Few books printed in the English language have reached so great a sale as has this popular work, over 600,000 have been sold at \$1.50 each. The profits on this enormous sale having repaid its author for the great amount of labor and money expended on its production he has now decided to give away, absolutely free, 500,000 copies of this valuable book, the recipient only being required to mail to the World's Dispensary Medical Association, Buffalo, N. Y., of which company he is president, 31 one cent stamps, to cover cost of mailing only, and the book will be sent postpaid. It is a veritable medical library, complete in one volume. It contains 1008 large pages, and over 300 illustrations, some of them in colors. The Free Edition is precisely the same as that sold at \$1.50 except only that the books are bound in strong manilla paper covers, instead of cloth. It is not often that our readers have an opportunity to obtain a valuable book on such generous terms, and we predict that few will miss availing themselves of the unusual and liberal offer to which we have called their attention.

Our Usual Weekly Budget from Various Sections.

Will The Governorship Come East?

SIR,—The people of this county say that it should as we have some good men here competent to fill the same. Where is the Hon. John G. Scrimgeour who has fought tooth and nail for the Liberal party from time immemorial. He would probably take it at less salary than Mr. West. His claim should not be ignored by any means. Again, John Smith, Esq., Grand River Road, who has been a Liberal since he was twenty-one. He would make a good and true man for the honorable position. King's County has a strong claim on the powers that be for this position. We hope that Sir Louis will see it and give King's County the respect which is due to it. All the wise men come from the East.

KING'S COUNTY ELECTOR.

March, 1899.

EASTERN NOTES.

La grippe which has been so prevalent for the past few months; is about over, but it has left its marks breaking the family-circle of many homes, leaving behind those who weep for the loved ones that have gone to their reward.

A lecture was given in the Kingsboro hall on the first of March, by Rev. Mr. Simpson. The lecturer showed the different stages of man from infancy until he stands at the brink of the grave.

The school of this section is progressing rapidly under the faithful management of its teacher, Angus McDonald, M. A., who deserves credit for his ability as an instructor.

We regret to hear that one of our residents, Charles Young, intends leaving for Montreal in the early part of the spring to study the many diseases of "man's faithful friend" the horse. Mr. Young is to make a special study for the cure of balky horses.

Miss Annie Lappiere, who is known throughout Canada for her vocal and musical talents, and who is visiting here, has started a singing and music school for the benefit of the young people. She is assisted by Jemima Stewart, Annie McLaren, Milton Young, and others equally as good.

Theodore Stewart, who some time ago built an addition to his store, is doing a rushing business for Prowse Brothers & Co., in whose employ he has been since they started in Souris.

THE EXAMINER is a welcome visitor here each Saturday.

DANDY JIM.

OBITUARY.

It is with feelings of regret that we record to-day the death of Patrick Dougherty, an old and highly respected resident of Emyvale, which took place at the residence of his son, Francis Dougherty. Deceased, who came of long-lived ancestors, his father, the late Owen Dougherty, having lived to be 101 years, was in the 93rd year of his age; and during the whole course of his earthly pilgrimage he scarcely knew what it was to be affected with sickness of any kind. But old age, under which we all must bow, had com-

\$5,000 Reward

"Will be given to any person who can prove that SUN-LIGHT or LIFE-BUOY SOAPS, manufactured by Lever Bros., Limited, Port Sunlight, England, contains any form of adulteration whatever or contains any injurious chemicals."

This guarantee of absolute purity accompanies every Twin-Bar of the above named world renowned brand.

Do you get any guarantee with any other brand?

mentioned to show its effects on the respected old gentleman, and on the evening of January 15th, after having been strengthened and comforted by the last rites of the Catholic Church, his spirit passed from this vale of tears to reap the reward promised by an all merciful creator, to a dutiful, sober, and honest citizen. Mr. Dougherty may be classed among the early pioneers of Canada. He emigrated from Ireland in 1840, and settled in West Montague, whence he removed to Emyvale, Lot 30. Emyvale and surrounding country at that time was almost an entire wilderness. There were no roads in many places except narrow crooked pathways, and very few bridges spanned the rivers and streams. Many indeed were the disadvantages experienced in those days. Beasts of burden were an exceptional article, so that people were obliged, in order to secure the necessities of life, to convert themselves, as it were, into articles of the like nature. The old church at Lot 65, which is now replaced by a magnificent structure, was in course of erection at that time, and Mr. Dougherty, it is said, can be credited with having carried on his back the most of the boards required in building from a sawmill over three miles distant. For courage, pluck and perseverance, he scarcely knew what were their opposites. When he came to Emyvale to settle he was obliged to stand out of the green bush a place on which to build his house, but after years of thrifty honest labor, he succeeded in securing a comfortable home for his family, which consists of ten, five of whom have gone before him and five more are left behind to cherish the memory of a kind, honest and industrious father.

Dromore Notes.

Our school is doing remarkably well under the careful management of Mr. W. O'Brien.

Our energetic furrier, John Grimes, has succeeded in catching several foxes this winter.

A very pleasant evening was passed at the residence of Mr. Neill Adams, lately. A large number of the young folk took advantage of it, and kept up dancing and music till early morn.

Among our horse trotters that deserve more than a passing notice are the following: Harry C., owned by Mr. F. Hughes, is a beautiful jet black horse and an animal which can show his speed under the skilful training of the owner, who is a noted horse jockey. Simon E., owned by Robert McGuirk, will yet make his mark. Flying M., owned by John Hughes, is an animal that is too well known to need any comment. Elmo, owned by Mr. James McCannel, is an animal that deserves more than praise and a passing notice, and is under the able training of Mr. Owen Wise, who knows if a horse can trot or not. We must congratulate Mr. McCannel upon being the owner of so fine a horse, and we expect yet to see him make his mark. D. C., owned by Mr. Michael Burns, is a beau y and is a horse that the owner ought to be proud of. Bowland, owned by the Messrs. Callaghan, is a horse whose career is too well known. Hunker S., owned by Mr. James Hand, is also a very fine animal, and its fame as a trotter needs no comment. Boys keep training. A good time is expected in the near future, as soon as the white sand is visible. Liberal prizes are offered. Due announcement later on.

SANTY.

The words of praise bestowed upon Hood's Sarsaparilla by those who have taken it prove the merit of the medicine.

Lecture at Murray Harbor North

On Thursday evening the 2nd inst., the people of Murray Harbor North were favored with a lecture on "Energy and Work," by Doctor Matheson, of Montague Bridge. Quite a large number of persons were present and they enjoyed an intellectual treat. The Doctor handled his subject well, and the lecture was replete with scientific and useful information, highly interesting to those present. The meeting closed with a hearty vote of thanks to the Doctor.

SURE CURE FOR NERVOUS HEADACHE.

Dodd's Dyspepsia Tablets
Cure by Removing the Cause.

They Make New, Rich Blood and Give Strength to the Nerves, and Vigor to the Entire System—Nature's Cure in Nature's Way.

Nervous Headache is, perhaps, the most prominent after-effect of the much dreaded "Grippe."

Words cannot describe the sufferings of the thousands of victims, nor is it needed that they should. Those who suffer need no description. Their experience is all-sufficient for them.

But tell them of something that will give them relief from their tortures, and you gain their attention in a moment.

It is for this reason that such a genuine, deep, and wide-spread interest has been aroused with reference to Dodd's Dyspepsia Tablets.

This remedy affords a simple and speedy cure for Nervous Headache, following the "Grippe."

It effects a cure by removing from the system the cause of the trouble.

"The Grippe" causes a severe strain on the nerves. Daily, hourly, they are weakened and shattered, until they reach the climax, and no longer fulfill their duties, though they still endeavor to do so.

They attempt to perform their duties, produces an effect something like laying a red hot rod of steel on raw, living flesh—is other words it causes Nervous Headache.

Dodd's Dyspepsia Tablets begin the cure, right at the root of the trouble. They (by assuring prompt and thorough digestion) provide a full supply of rich, fresh, nourishing blood. On this, the nerves are fed, and gain strength every second.

In a remarkably short period a wonderful change occurs. Restored to their natural strength, with all their powers of endurance regained, the nerves are able to withstand the attacks of disease, and to perform their duties as it was intended they should.

Then, good-bye to Nervous Headache. It is henceforth a thing impossible. If you don't believe it, try Dodd's Dyspepsia Tablets, and be convinced.
