EMMANUEL

... and they shall call his name Emmanuel, which being interpreted is, God with us." Matthew 1: 23.

Christmas is not something out of Dickens. It is not the aroma of a steaming pudding, nor the tinkle of bells nor even Tim Tyme. It is not a festoon to be draped over a few days or strings of colored lights to be darkened at the end of December, nor is it a bright toy in a child's stocking.

These things are all good and give our hearts a warm "Christmas" feeling. But Christmas is a piece of good news, and this good news is found in one word, "Emmanuel" (God with us).

In this space age when most of the world's inhabitants are poor, illiterate, hungry or sick... in an age when the human race lives under the threat of weapons capable of wiping it out... we are reminded of the good news that God had something different in mind for his children and Christmas is proof.

That God is with us and that sin, disease and poverty can be wiped out. It is this good news as found in the Scriptures, which the Bible Societies of the world have undertaken to give to every man in his own tongue, regardless of race, color or creed.

We help as we contribute through our island branches and we also share when the purchase at The Bible House in Charlotteville, the profits of which are used to spread the "good news."

When You've Seen Something Unusually Smart on A Friend, Have You Noticed How Often He's Said "I Found It at H and C"?

Headerson & Cadmore Men's Wear

You wouldn't believe you could build so well for so little... but we can prove it

Now you can get a distinctive modern building for less than a good traditional building of equal quality because we use the Butler Building System—the lowest cost way to build well.

We will engineer and style your supermarket, showroom, factory, auditorium, church or office building around Butler's rigid-frame-and-lifetime metal roof system. This basic Butler structure is so perfectly engineered and manufactured that it can be erected in days. You save time and money on preliminary engineering, custom fabrication and construction.

This basic structure carries the building load—permits broad, exciting architectural treatment... and at important savings. Slim, easy-to-erect curtain walls replace bulky, costly, load-bearing walls. Interiors are post-free, easy to partition with low-cost curtain walls. Ask to see our sound-slide films, when you call us for facts and figures.
