## Tennessee Evangelist Is Speaker

KENSINGTON — Dr. Harry Denman, a Tennessee evangelist, was the speaker at a public meeting held in the Kensington High School Auditorium on Wednesday evening. The speaker took as the topic for his address, "The Samaritan Woman at the Well."

Dr. Denman was introduced by Allison MacKinnon. A massed choir led the singing with Rev. L.M. Murray at the piano and Gordon Murray at the electric organ. During the evening Bob Schurman sang two solos "He Lifted Me" and "Turn Your Eyes upon Jesus", and led in a hymn singing.

The service was under the auspices of the P.E.I. Presbytery, and "Everette" Dora I'd thanked Lowell Huestis for the use of the electric organ and also the following for services rendered: Allison MacKinnon, Rev. L.M. Murray, Gordon Murray and Bob Schurman.

Rev. Murray pronounced the benediction.

vineyard and geyser resort town with 2,500 inhabitants, nestled in a saucer, rimmed by wooded ridges. Quick action stopped the blaze and saved a county maintenance yard.

Then at midday, fire broke out west of Mount Saint Helena on Foreport Hill.

**FINES EXPLODED:** "Giant pines exploded: It sounded like two railway trains colliding head-on," was Deputy Sheriff Al Lindhome's description of the fire's first invasion.

Grindaxle deputies had sped around the town at 1 a.m. and urged everybody to leave. Hundreds did.

# Harvest Tobacco

ALBERTON — For the first time in three years of operation the entire tobacco crop has been harvested at Leigh O'Brien's farm in Alberton.

Twenty-seven acres were planted this year and the crop has now been picked and placed in drying kilns without loss by frost which has occurred in previous years.

Mr. O'Brien has his own greenhouses where plants are grown for transplanting. The tobacco business is operated by Mr. O'Brien and Frank J. Shea of St. Louis.

## S'ide Mink Rancher Heads Association

Lowell Hancock of Summerside a long time figure in Island and Canadian fur breeding circles was elected president of the Canadian Mink Breeders Association at their annual meeting held recently in Quebec City.

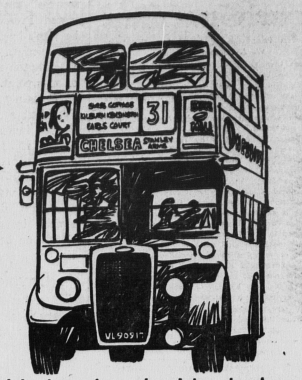

Mr. Hancock has been president of the P.E.I. Fur Breeders Association for two terms and was president of the Canadian National Silver Fox Breeders Association. He formerly was vice president of the CMB before being elected president.

## Moss Plant Site Named

The site for the newly announced Irish Moss plant to be built in Minganash parish will be on land owned by Peter Murphy, adjacent to the bridge which crosses Minganash run.

He said this location will permit the department of public works to build a wharf to provide landing facilities for those engaged in raking the moss which will be processed at the plant.

The plant itself is being built with a \$100,000 grant from the Atlantic Development Board. It is expected to be in operation by next spring.

## BAR TO INDUSTRY Council Seeks Reduction of Current Water Rates

SUMMERSIDE BUREAU OF THE GUARDIAN

A resolution strongly recommending that the town submit immediately to the Public Utilities Commission an urgent request for a reconsideration of the commercial meter rate for water was passed at the regular meeting of the town council here last night.

The resolution proposed by Councillor D. Alex MacDonald and seconded by George Key, Jr., also advocated that the citizens of the town and the Board of Trade be requested to assist in the presentation of a strong representation as possible in an effort to obtain approval of the new rate submission.

"After six months operation of the water and sewerage utility under the new rates as ordered by the Public Utilities Commission," the resolution read, "the water and sewerage utility has shown an operating profit in excess of amount budgeted and," it continued "considerable hardship is being experienced by heavy metered water users of these rates."

Research showed that the town's present water rates are in excess of other communities on P.E.I., with whom this community must compete in the attraction of new industry and other communities in the Maritimes.

**COMPARES RATES** In reference to this research Councillor Key quoted the rates in other centres compared to the rates here.

In Moncton, he said, the rates were \$15 for the 40,000 gallons and 26 cents per thousand there after. The rate in Halifax is \$43.80 for the first 35,000 gallons, 40 cents per thousand over the amount and 12 cents per thousand over the 100,000 mark.

Charlottetown, on the other hand, charges 40 cents per thousand for the first 75,000 gallons and from there on, 30 cents per thousand. At the 750,000 gallon mark the rate goes down to 20 cents per thousand.

The rate in Summerside is 40 cents per thousand up to 100,000 and anything over this mark lowers only 4 cents to 36 cents per thousand.

In conclusion Councillor Key felt that if the resolution was passed that the council should move immediately to arrange a

meeting with the public utilities commission.

Mayor W.E. Jenkins expressed his approval of the resolution and said "I think the two important things for a small industry are electricity and water."

The council dwelt lengthily on the merit of the present crosswalks in the town.

**CROSSWALKS** Councillor MacDonald said he was of the opinion that these crosswalks should be eliminated until proper signs were put up.

Councillor Key answered that one of the things the town has been endeavouring to do, at considerable expense, is to cut down on the cluttering overhead and was of the opinion that no additional wires or signs should be put up.

Councillor MacDonald wanted to know how the crosswalks would be seen when winter, snow and snow covered the streets.

Mention was also made of the new traffic lights which have been erected at the intersection of Water and Summer Streets. The lights, not yet in operation, are on a six-month trial basis.

In the financial statement an operating surplus in both the electric and water utilities was indicated along with an operating deficit in the stadium and an excess of revenue over ex-

penditure to date in the general department.

The statement showed 1964 tax collectors to Sept 18 representing \$47,069.83 and representing 83.4 per cent of the year's tax roll total of \$56,364.52.

A resolution was passed that taxpayers be allowed to pay their 1965 taxes in installments.

## Fires Pose New Threat In Calif.

CALISTOGA, Calif. (AP)—Circling forest fires posed new threats Monday to this wine country town in Northern California after racing down a wooded mountainside in the pre-dawn darkness and scorching hundreds of persons fleeing to their lives.

After wiping out 50 homes, the flames swung west at mid-day to pine-bristling Porcupine Hill, engulfed ranch homes and moved toward heavy timber on the town's border.

Leaving from tree to tree, the fire was whipped by 70-mile-an-hour gusts of wind down 2,300-foot Mount Saint Helena into the town from the north at about midnight Sunday night.

Before that invasion was contained, 30 homes were burned. More than 400 townspeople left by school bus, truck and car, and 600 men built backfires.

By mid-morning Monday, the fire had circled and moved in from the south of Calistoga, a

vineyard and geyser resort town with 2,500 inhabitants, nestled in a saucer, rimmed by wooded ridges. Quick action stopped the blaze and saved a county maintenance yard.

Then at midday, fire broke out west of Mount Saint Helena on Foreport Hill.

**FINES EXPLODED:** "Giant pines exploded: It sounded like two railway trains colliding head-on," was Deputy Sheriff Al Lindhome's description of the fire's first invasion.

Grindaxle deputies had sped around the town at 1 a.m. and urged everybody to leave. Hundreds did.

**HALIFAX (CP)** — The weather office says only a few clouds were reported over the district late Monday evening as a strong high pressure area near Sable Island moved south-eastward.

As the high moves away today, the cloud weather will come in an end as extensive cloud moves into the southern parts late in day.

This cloud will be associated with hurricane Gladys which was located about 300 miles southeast of Cape Hatteras, South Carolina late this evening and moving northward at 19 m.p.h.

This motion would bring it about 500 miles south of Yarmouth by this (Tuesday) evening and would bring rain and strong winds to much of the district Wednesday.

Regional forecasts: Prince Edward Island, East-ern N.B. Comoxie, Lower St. John River Valley: Sunny; not much change in temperature; light to moderate breeze; clearing to southeast 15. Low-high Charlottetown 45 and 65, Moncton 55 and 70, Fredericton 38 and 68, Saint John 38 and 68.
