OUT OUR WAY

By J. R. Williams

THE EASTERN GUARDIAN

AGENTS:—MONTAGUE: Harold F. Landry, Mrs. Byron Stewart, Mrs. Bruce MacPhee, Miss Joyce Wigginton, Miss McKinnon.
GEORGETOWN: Waldon Lavers.

The Guardian may be bought at the following places in Montague: Blue Dem Restaurant, and Guardian Office; in Georgetown: The Post Office; in Souris: The Snack Bar and H. Richards & Son.

"SHUR-GAIN AMATEUR CAVALCADE will be held Wednesday, Feb. 27 at Yeo's Theatre, Montague. See and hear your favorite amateurs from Southern King's.

"POWER OFF — Montague and vicinity was without electric power for several hours yesterday morning. The cause was a fire at Southport Corner, near Charlottetown, which damaged the transmission line.

"STREETS OPENED — Side streets in Montague on which the snow plow was unable to operate were plowed out yesterday by a bulldozer to provide for operation of fire equipment in the event of a fire. Arnold Irving and Austin Fraser began work in the early morning with a machine owned by a local construction company and continued throughout the day. After the streets had been widened the bulldozer was employed in front of several stores moving snow to provide for larger parking spaces. "Traffic in the town was light and it was noted that for the first time since Tuesday several rural residents were able to make their way into the town over snow-blocked roads.

FARM PRICES

Continued from page 7

jobbing at 71c. Creamery butter stocks, in storage in Canada, were 10 million pounds greater on February 1, 1952, than on the same date last year. This increased amount of stock includes the butter imported from the European Continent and New Zealand. It is interesting to note that 2-2 million more lbs. of butter will be imported from New Zealand, bringing to 17 million lbs. the quantity of imports during the past few months.

Grain

No. 1 seed oats is particularly difficult to secure in the Province of Prince Edward Island. This is due to the fact of coloring and in some cases mustiness. No. 2 seed, however, should not be difficult to secure. There are large quantities of oats on Prince Edward Island that are discoloured, free from mustiness and injury, but, if cleaned, will make good seed. It is suggested that each farmer investigate his own supply and provide at the earliest opportunity for the cleaning of his seed to be in readiness for the Spring sowing. Seedsmen from Upper Canada are quoting stiff prices at the present moment. The same will be true of barley.

Timothy seed is in fairly good supply and will be around the same price as last year. The same is true of Red Clover with a price level perhaps a little less than last year. Alsike and Alfalfa, however, will be up in the clouds as a great deal of the crop in Western Canada is under the snow. There is very little demand for hay and the price is not attractive. The Newfoundland market has been supplied from Quebec and there is little outlet in that direction. \$16.00 and \$17.00 per ton for pressed hay is simply, under present day costs, out of the question.

The feed market continues quite firm, but prices have eased considerably from the high levels of a month or so ago. The following is the detail on carlots, bulk: Oats, up a bit from last week with No. 1 feed at \$2.96 per cwt. No. 2 feed barley \$3.02, Bran \$57.00. Shorts \$58.00. Provisions unavailable at any price. Shipments are very slow, at least two weeks or more from Montreal. We are having some demand for mixed grains and would be glad to have the names of parties offering supplies. One local mill complains somewhat about the freight rates and states that the L.C.L. rate on concentrates from Kensington to Winsloe is now 25c per 100 pounds as against a rate of 17c in 1950. This indicates the extra costs that go into the cost of farm commodities.

"PANTRY SALE at store of T.M. Llewellyn, Ltd., Saturday, Feb. 23, at 3 P.M. Presbyterian Ladies Aid.

"MONTAGUE UNITED BAPTIST CHURCH Service Sunday, Feb. 24, Sunday School 10 A.M.; Regular service 11 A.M. W.D. Johnston, Minister.

"USES PLANE — One commercial traveller, stranded in Montague because of the snow storm, became impatient yesterday and hired a plane in an effort to get back on schedule. He was Mr. Jack MacEachern, who travels for a Charlottetown firm. He boarded a small plane flown by Elton Woodsie, known as the "Flying Farmer" in mid-afternoon. The plane landed on the farm of the late Fred McIntyre.

"DIES IN CITY — The death occurred at the Sacred Heart Home in Charlottetown on Tuesday, Feb. 19, of Miss Catherine MacDonald in her 82nd year, after a lengthy illness. The late Miss MacDonald was born in Lorne Valley where she spent her life, until she moved 10 years ago to Charlottetown. She was unmarried and an only child. The funeral will take place today from the Frank Hennessey Funeral Home in Charlottetown to St. Dunstan's Basilica. Interment will be in the Roman Catholic Cemetery at Charlottetown.

ACTIVE YEAR

(Continued from Page 1)

undertaken during the past year, especially the installation of the new refrigeration and ventilating plants, and also spoke of the painting of the interior which had added so much to the appearance of the hospital. Mr. Lively also presented the financial report.

The excellent work of the women in aid of the hospital was commended by all speakers while the appreciation of the members of the clergy for the splendid co-operation received from the hospital board was expressed by Rev. T. H. B. Somers. Just before the end of the meeting those present expressed their thanks to Messrs. McLean and Lively for the excellent work they have done in the past. Rev. Mr. Somers closed the meeting by pronouncing benediction.

Chairman's Report

Following is the report submitted by Board Chairman Neil MacLean: "I have the honor to present to you the 60th annual report of the Trustees of the Prince Edward Island Hospital. This completes for me three years as Chairman of your Board. It is by no means an empty honor—the position requires a great deal of thought and expenditure of time.

"Casual visitors to this hospital may go away with the impression that it is a well-oiled piece of machinery whose gears all run smoothly. This is the way it should look. But how frequently it looks like the facts is best known to the Superintendent and her assistants. For them each day produces new problems—no sooner is one solved than another presents itself, and at many times there seems to be no end to problems.

"The chairman of the trustees is naturally the first liaison officer between the Superintendent and the Trustees. This enables me to speak feelingly of the very difficult task that is hers, and as those problems concern each and every department, I am able to speak with some authority about the loyal, conscientious and hard work of the heads of the departments. "The reports will read smoothly; they will indicate that the machine has been well-oiled and is working smoothly. The tribulations that were conquered will be well hidden except to the heads of the departments and those in the Auxiliary Aids who succeeded in overcoming the many trials.

Staff Changes
"There have been several changes in the staff during the year. On May 1st Dr. Prowse resigned as

Road Report From Montague Last Night

Snow plows in Southern King's County were making slow progress yesterday in opening roads blocked by drifts as deep as 14 feet.

On the road to Charlottetown the plow was still in Rosemeath, at 11 o'clock. It had taken from 10 o'clock in the morning to travel only a few hundred yards west from Poole's Garage. However, once the heavy drifts here were conquered there would be easy travelling until New Perth Hill is reached.

It was being predicted in Montague that from the progress being made it would be Saturday before the road to Charlottetown was opened.

Equally difficult conditions were being encountered on other roads.

At Annandale a plow travelled only about a mile during the day. A crew of some 15 men was employed shovelling ahead of the plow most of the day. Drifts up to 14 feet were being encountered.

At 9 o'clock last night a plow had reached the Whim Road from Murray River. Heavy drifts were reported.

anæsthetic to enter private practice, and Miss Anna J. Mair, Reg. N., tendered her resignation as Superintendent to take effect December 31st, 1951.

"For over twenty-five years Miss Mair has faithfully fulfilled the onerous responsibilities of Superintendent of this Hospital, and in that time has watched the hospital grow from a 65 bed hospital to one with over 200 beds, and with greatly increased and improved facilities. That Miss Mair was completely devoted to her work goes without saying. The Trustees wish for Miss Mair many years of health to enjoy her retirement after the many busy years she has put in as our Superintendent.—Mrs. Lois MacDonald has been appointed Superintendent in place of Miss Mair.

"Other staff positions in the hospital have been filled as vacancies occurred.

"Graduation exercises were held in Prince of Wales College Auditorium in May. "On July 5th, 1951, we had an inspection visit from Dr. A.G. Brunet, of the American College of Surgeons. As a result of this visit I am sorry to say we lost our full approval by the American College of Surgeons and were granted Provincial approval. This was partly due to medical staff organization and partly to medical records which were not being kept properly. Both causes were due to misunderstanding of what was supposed to be done, and I am very happy to say that the medical staff co-operated splendidly and have re-organized on the proper lines.

"In the fall we added to the staff a medical record clerk, and that department is now functioning very well. The doctors are co-operating with the clerk and keeping all records up-to-date. Every other department rated very well, and with those two departments being properly organized I am sure that we will again receive our full approval.

"Our main project, completed

FOUR PROVINCIAL

(Continued from Page 1)

met, he took with him the other Progressive Conservative ministers in the coalition.

Collapse of the coalition means an end to the arrangement whereby the Progressive Conservatives did not run candidates against Liberals and vice versa. Liberals, Progressive Conservative and C.C.F. candidates are expected to contest most constituencies. The Social Credit Party may also put a large number of candidates in the field.

There are reports that the Social Credit government of Alberta, re-elected Aug. 18, 1948, will call a general election for mid-August. The C.C.F. government of Saskatchewan, re-elected June 24, 1948, is said to be considering dates in

late June, early July and late fall. In Quebec, where the Union Nationale Government of Premier Duplessis was re-elected July 28, 1948, another July election is being forecast. Some observers have picked July 23 as a likely date. The Liberals, overwhelmingly defeated under the leadership of Adélard Godbout in the last election, have a new leader, George LaFrampe of Joliette, Que., a 45-year-old lawyer, resigned from the Commons about two years ago to head the Liberal Party in this province. He has been campaigning ever since. The Liberal Government of New Brunswick, returned to power June 28, 1948, is expected to pick a midsummer date for another election. It mainly will be a fight between Liberal and Progressive Conservative candidates.

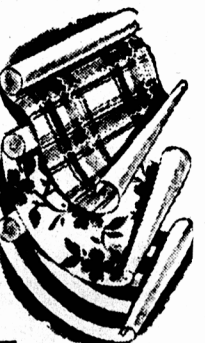

Color Harmony

FOR YOUR HOME WITH COORDINATED PAINTS AND WALLPAPERS

Fresh, exciting 1952 patterns of SUNTESTED WALLPAPER. Wide range of papers in every price bracket. On display for your approval. Have you used SPRED SATIN—the new wonder paint? This famous paint is becoming more popular daily. The Glidden Paint Company, who manufacture SPRED SATIN, offer you FREE the services of their color studio.
