**TIMELY NOTES ON FUR FARMING**  
The following report of the Hudson's Bay Company sale in Montreal in late December will be encouraging to Maritime mink breeders. A collection of 30,000 raw Autumn Haze skins was 81 percent sold; prices were officially quoted as very firm. There was a good attendance, with the largest representation of European buyers this season. They were primarily interested in Diadem, Lutetians and Ceruleans.  
The Cerulean catalogue was 63 per cent disposed of; Autumn Haze types (regular males) brought \$35.50, and females \$17.50. Top Stewart (males \$38 and females \$17.25. Lutetias were 51 percent sold; top males sold at \$40 and females at \$20. Blue Iris was 73 percent sold; top males went for \$40 and females at \$17.  
Ceruleans were in great demand; top males were worth \$36 and females went at \$16.  
ON INCREASE  
A report of the National Board of Fur Farm Organizations of the U. S. A. states that imports and exports continue to rise. In 1957, mink imports reached 2.67 million pelts, compared with 1.86 million the year before. The mink export figure for 1957 was 663,000 skins, a rise from 422,000 in 1956.  
When 1958 figures are available, increases are anticipated in both instances.  
A report from Minneapolis, dated December 30, has the following on the New York Auction Company sale held there on that date: "The attendance was large, including quite a number of Canadian and European purchasers. Ninety-six percent of the 16,000 standard mink sold at unchanged prices; top male price was \$51, and top females went at \$27, both new record tops with the company here.  
"Males of good colors ranged from \$32 to \$38, while females sold between \$16 and \$19. Of the 8,000 silver blue and EMBA argenta types offered, 83 percent sold, with top males at \$17.50 for regular and \$18.25 for argenta. A top royal lot of Autumn Haze brought \$40 for males and \$19 for females. An offering of 5,000 topaz and EMBA desert gold types were 90 percent sold; top prices were \$36 for males and \$19 for females. Regular prices ranged from \$23 to \$27 for males, and \$11.50 to \$12.50 for females. Sixteen thousand sapphire and EMBA Cerulean sold at a 71 percent rate at unchanged prices, but very firm. Top male price was \$27.50, and female top was \$13.25.  
"Breath of Spring types brought \$36 for top males and \$15.50 for females. Sapphire males ranged from \$30 to \$33, and females from \$12 to \$12.75."  
CHINCHILLA  
"Women's Wear Daily," for December 29th, has a two-page review of 1958 fur happenings. These are a few extracts from it: "In March, Macy's New York store sold an estimated \$250,000 worth of furs during a five-day "caravan" type promotion. In April, reporting on chinchilla farming, "Man of the Year" in the fur industry stated that major chinchilla farming groups have joined together in cooperative marketing efforts, and he estimated that from 65,000 to 80,000 chinchilla pelts would be offered through 1958."  
We believe 'his figures were quite correct, and that chinchilla became an established fur with a sure future.  
**FOX IN DEMAND**  
In another article reviewing 1958, we find the following: "Silver Fox made the strongest comeback among the more unorthodox members of this long-hair family showing as a new favorite for early fall, especially in boar form."  
The above statement was correct regarding silver fox, which, when offered in good quality and attractive makeup, continued to find purchasers. The greater part of its success is due to Fromm Bros., Wisconsin, who had kept selections from their best foxes of years ago, and were ready with good quality skins when the market brightened. They also brought in a new mutation, which looks as if it will be a winner.

Hudson Bay Company fur sales in New York states that the attendance was good, with the largest representation from overseas noted during the season. A breakdown of colors shows that Cerulean types were 61 percent sold; argenta types were 51 percent sold; miscellaneous mutations 91 percent sold.

Ed Gold, writing in "Women's Wear Daily" is very optimistic concerning 1959 sales of mink. His opinion is worthwhile, as he has followed the auctions for many years, and is a very keen observer of types, and his predictions are usually accurate.

**Stock Activity**  
**Remains Strong**  
**On N.Y. Market**  
**NEW YORK (AP)** - The stock market's first full week of 1959 brought another record high and the heaviest trading in nearly three months.  
Wednesday brought the worst market shakeout since the major correction of Nov. 24. The Thursday recovery was dramatic, erasing the entire cash loss and bringing the market back again to its record level of Tuesday. Friday saw a bandwagon rush to get aboard the newest drive to a record.

The Associated Press 60-stock average scored a net gain of \$2.40 on the week, closing at \$218.20. The Dow Jones industrial average at the week's end stood at a record 592.72. Talk among some Wall Street analysts was that there is little prospect of a serious reversal in the uptrend until the Dow Jones industrials reach 600.

The crown jewels of ancient Polish kings, along with priceless scrolls and Chopin's original manuscripts, will be shipped back to Poland in a few weeks.  
Three Polish officials who negotiated for the return of the treasures, lodged in bank vaults at Ottawa for 12 years, were Professor Bogdan Markoni (left) and Marian Morelowski (centre) and Dr. Jerzy Szablowski, curator of the Warsaw Museum and leader of the delegation who will personally undertake return of the treasures. (CP Wirephoto)

invested by both large and small investors, made a net gain of 14% on the week, closing at 239.4, another high since 1950. Haveg Industries rose 1 1/2%, Kennecott 5% and Anaconda 4%.  
Zenith, despite the week with a net gain of only one point. Avco, the most active issue, rose 1/2 to 12% on 303,100 shares.  
The most active issue on the American Exchange was Eureka Corp., up 1/2 to 2% on 298,800 shares.

**Report 200 Jobs Open For Former Springhill Miners**  
**MONTREAL (CP)** - Officials of A.V. Roe (Canada) Ltd. and Dominion Steel and Coal Corporation report some 200 job vacancies, mostly for unskilled workers, are open to Springhill, N.S., miners.  
Miners of Springhill have been out of work since the mine disaster of last Oct. 23.  
The officials said Saturday all the jobs are outside the Springhill area.  
The Roe-Dosco staff, headed by John van Hemert of Montreal, has made a canvass of industries throughout the country seeking jobs for the miners.  
"These men have an aptitude for many types of unskilled and semi-skilled work," said Mr. van Hemert. "They would be particularly adaptable to work in heavy industry as helpers to such tradesmen as carpenters, plumbers, pipefitters and others."  
He said company officials, along with government agencies, have also been engaged in efforts to locate new industries in Springhill.  
"So far we have come up with nothing concrete in the way of a new industry, but our efforts will continue," he said.  
A. L. Fairley, Jr., executive vice-president of Dosco, said regarding the 200 job vacancies: "As reluctant as we are to see people leave Springhill - and I think this feeling is shared by Canadians everywhere - we sincerely recommend the men take advantage of these job offers made by truly public-spirited Canadians."

**Steel Continues Steady Recovery**  
**CLEVELAND (AP)** - The steel industry continued its steady recovery last week and mills turned out their biggest tonnage since October, 1957, Steel Magazine reported Sunday.  
Production was estimated at 2,109,000 tons of steel, or 74.5 per cent of 1959's rated capacity. That would be comparable to 78 per cent of 1958 capacity.  
Steel producers added 6,900,000 tons of capacity during the past year, boosting the total annual figure to a record 147,633,670 tons.  
The metalworking weekly said sheets continue to pace the steel market as automakers, appliance manufacturers and other big customers step up their consumption or replenish dwindling stocks.  
The magazine forecast a moderate pickup in pig iron production this year, adding that output will be below the 1957 peak of 78,375,378 net tons but ahead of the estimated 56,500,000 tons for the year just ended. The growth in consumer goods sales in sparking the improvement in outlook, steel said.

The magazine's price composite on prime grade steelmaking scrap held steady at \$39.66 a gross ton for the third straight week.

**Seized Liner Will Be Sold**  
**HAMILTON, Bermuda (CP)** - Chief Justice Sir Newham Worley of the Supreme Court of Bermuda Saturday ordered the passenger liner Arosa Star, now under arrest in St. Georges harbor for debt, to be put up for sale by auction.  
The Arosa Star is Swiss-owned and is registered in Panama.  
Writs for unpaid bills were posted on the ship's mast Dec. 7 when she arrived here on a Caribbean cruise. Creditors are Caltex A. G. of Switzerland, Esso Standard Oil of Switzerland and Caltex U.K. Limited.  
The court also ordered that \$3,000 be paid the skeleton crew of 35 men who have been kept aboard since Jan. 1. They had threatened to walk off the ship today unless they received back pay. The rest of the crew, about 125, was earlier returned to Germany by plane.  
The court directed that the auction not be held before Feb. 15, in order that the sale may be advertised.

**Court Will Rule On Tax Legality**  
**REGINA (CP)** - The validity of Saskatchewan's education and hospitalization tax - a three per cent sales tax - is to be decided by the Supreme Court of Canada.  
Dr. M. C. Shumatcher, counsel for Cairns Construction Company, said he will appeal a Saskatchewan Court of Appeal ruling, upholding the validity of the education and hospitalization tax act and ordering Cairns to pay \$6,688 tax on materials used to build houses. Earlier, Court of Queen's Bench had exempted the company from paying on the grounds that the tax did not apply to the building materials in question.

**Huge Bonus To Oil Industry May Be Presented This Year**  
By KEN KELLY  
**Canadian Press Staff Writer**  
**OTTAWA (CP)** - The Canadian oil industry may get a big cash bonus this year, perhaps ranging as high as \$60,000,000.  
The money has been piling up in the federal treasury during the past few years while the federal government and the industry's biggest operator, Imperial Oil Limited, fought out in the courts a question of interpretation of regulations under the Income Tax Act.  
The immediate issue in the case involves the amount Imperial could claim as a deduction from 1951 profits before taxes - the so-called one-third "depletion allowance." The oil company made two calculations - one setting the deduction at \$13,023,000 and the other at \$10,334,000. The government argued the proper deduction was \$790,067.  
**TOTALLED PROFITS**  
Imperial arrived at its first figure by totaling the profits from each of its oil and gas wells that produced at a profit, taking no account of wells that produced at a loss or wells that were drilled but capped without getting into production. One-third of this profit figure gave Imperial the \$13,023,000 figure.  
The second deduction figure was computed by Imperial as one-third of the profits from wells that produced at a profit less the losses from wells that brought a loss in that year.  
The federal government on the other hand contended Imperial was entitled only to one-third of \$2,370,202 which represented the profit from oil and gas production from all Imperial wells whether producing or not and whether producing or not.  
When the case was decided in the Exchequer Court of Canada, Mr. Justice J. T. Thorson, the court president, ruled that Imperial's second deduction figure was the correct one - the figure based on aggregate of profits from producing wells less aggregate of losses from wells that lost money.  
**RULED HAD RIGHT**  
He said Imperial had a perfect right under the income tax regulations to keep strict account of the profit and loss position of each well individually and use this as a basis of calculating the one-third depletion allowance parliament approved in the income tax act.  
Mr. Justice Thorson forecast an appeal to the Supreme Court on the question, noting that Imperial's claims alone for back taxes on this question total more than \$40,000,000.  
A number of other Canadian oil companies also have lodged appeals seeking tax refunds, all on the same issue. The tax money has been paid in to the treasury ever since 1957 by these firms and Imperial but the appeals have been held up until the courts decide finally on the Imperial Oil case.  
Federal legal experts still are studying the Thorson judgement and must decide before March whether to take it to the Supreme Court of Canada.

**Triplets Born To Young Mother**  
**SAN ANTONIO, Tex. (AP)** - A 15-year-old wife, Mrs. Frank Agueros, gave birth to triplets Friday with a midwife in attendance for two births and a policeman-minister helping with the third.  
The boys were born within 10 minutes at the home of Mrs. Agueros' parents, Mr. and Mrs. Santos Ramirez. They were two months premature.  
Hospital attendants said the three sons were doing well in an incubator. The mother remained at her parents' home.  
The father, 18, reported he is broke and jobless.  
"But I can do anything, now," he declared in a burst of pride. "My main worry is getting a job, especially with all this responsibility."  
A midwife helped deliver Frank Jr. and Ramon. Police detective Tom Chavez, who is also a Presbyterian minister, helped deliver the third, Fernando.

**Maritimer Dies In Peterborough**  
**PETERBOROUGH (CP)** - Samuel Seward Miller, former transportation commissioner of the Maritime board of trade, died Friday at the home of his daughter in nearby Lakefield.  
Born in Acadia, N.B., he attended Acadia University and taught school for a time. In 1897 he established the drug firm of Estey and Curtis Limited, and moved from Hartland, N.B., to Fredericton in 1935. He was also secretary-treasurer of the company which built the Hartland covered bridge in 1901.  
Mr. Miller's wife died in 1941. He leaves two daughters, Mrs. J. A. Miner of Lakefield, Mrs. Jean H. Nelson of Peterborough, and a son, Alexander Robert Miller, of Guelph, Ont.

**MOVES FEAST DAY**  
**VATICAN CITY (Reuters)** - Pope John has moved this year's Feast of the Immaculate Virgin of Lourdes from Feb. 11 to 12 because the former date is Ash Wednesday, a day of penitence and fasting, it was announced Friday.
