N. Y. Stocks

NEW YORK (AP)—Stocks made a good advance Wednesday in a more active market.

It was the fourth straight rise for the market, and it now stands comfortably above the lows of last week reached in the great break that started Sept. 26 on announcement of President Eisenhower's illness.

The Associated Press average of 60 stocks was up $1.20 at $168.30. Volume was 1,760,000 shares.

Curtiss-Wright was the most active issue, up ⅞ at 24¼. The company's subsidiaries got air force contracts of nearly $15,000,000.

It was followed by U.S. steel up ⅜ at 54⅞, Budd Co. up ¾ at 21½, Westinghouse Electric up ⅜ at 56½, and Sperry Rand up ⅛ at 22¼.

Canadian issues were higher. McIntyre added 1½, International Nickel gained 1⅛, Dome Mines advanced ⅛, Canadian Pacific was up ⅜ and Distillers Seagram ¼. Hiram Walker remained unchanged.

On the American stock exchange Lake Shore, Giant Yellowknife and Royalite Oil all remained unchanged.

Consumer Credit

OTTAWA, (CP)—The amount of money owing by Canadian consumers on the things they bought on time rose to a record $2,098,000,000 at the end of the first half of 1955.

This was an increase of $189,000,000 during the three months of April-June and a rise of $208,000,000 from the $1,890,000,000 outstanding on June 30 last year, the Bank of Canada reported Wednesday.

The major rise was in cash loans by banks and other lending institutions and in loans by finance companies financing mostly sales of automobiles and television sets.

Toronto Stocks

TORONTO (CP)—The stock market finished on a moderately higher note Wednesday after a spurt of buying near the close. Volume was 4,814,000 shares, much of it directed to some low-priced mining issues.

Among industrials, refining oils showed the most consistent strength. In most other industrial groups gains showed a thin majority over losses but financial institutions were mostly easier.

Brunston was a strong mining feature, jumping 19 to 41 cents on 508,000 following completion of financing arrangements for its uranium development program in the Beaverlodge area. A few other uraniums scored small advances.

Hudson Bay led senior base metals ahead with a $1.25 gain. Eureka was strong among the juniors, adding 20 to $2.65.

Golds showed litle trend. McIntyre firmed a point. Anglo-Rouyn bounced up 28 to $1.58. Pato, at $6.00, lost 30 cents and Giant Yellowknife dipped 20 to $5.65.

Demand for western oils in closing transactions sent the group's index up almost two points.

Index gains: Industrials 1.44 to 421.77, golds .24 to 84.26, base metals 1.64 to 200.84 and western oils 2.44 to 110.40.

Canada Flattered, Teased By British Chancellar

By ALAN HARVEY
Canadian Press Staff Writer

LONDON (CP) — Canada was alternately flattered and teased Wednesday by the British chancellor of the exchequer, R. A. Butler.

Addressing an overflow audience of Canadian businessmen, the chancellor spoke in highly flattering terms of the "oldest Dominion," sprinkled his speech with knowledgeable references to latest developments, but disappointed those who hoped for immediate freer entry of Canadian goods into the United Kingdom market.

"Frankly the time has come to put on the brakes," he said, referring to the measures he is going to announce in the House of Commons next Wednesday when he presents a special budget. These moves, still secret, will be aimed at reducing what is admitted to be Britain's inflationary situation.

These internal difficulties, he said, make it hard for Britain to move any faster in the external field toward the unrestricted trade Canada would like. Butler was addressing the Canadian Chamber of Commerce in Great Britain, an organization formed originally by Canadian companies operating in the United Kingdom.

NO CRISIS

The chancellor, who decries that Britain's present economic strains can be classified as constituting a crisis, was introduced by Leslie Sutcliffe, president of the chamber. Sutcliffe, with rather harsher candor than is usual in the presence of a distinguished guest of honor, said the chamber is "perturbed" by the fact that Britain's exports to Canada have not increased in proportion to the expansion of activity in Canada. He added:

"We feel that the faster controls are dropped on goods from North America the faster the United Kingdom will be able to make up the ground which has been lost in the growth of world export trade."

As television cameras cranked, Butler then rose and pleased his listeners with some glowing remarks. Canada, he said, now is "really becoming the centre of the modern civilized world." Canada was a "subject which warms the heart" and the oldest Dominion was the "staunchest of friends in peace and war."

"No country is in closer partnership with us today in our aims and policies in world affairs than Canada," he said.
