

Dr. S. P. Townsend's
COMPOUND EXTRACT OF
SARSAPARILLA.
The Great Blood Renovator.

M. W. Skinner,
AGENT FOR P. E. ISLAND,
MEDICAL WAREHOUSE, QUEEN ST.

THIS EXTRACT IS PUT UP IN QUART BOTTLES; IT IS SIX TIMES CHEAPER, PLEASANTER, AND WARRANTED SUPERIOR TO ANY SOLD. IT CURES WITHOUT VOMITING, PURGING, SICKENING OR DEBILITATING THE PATIENT.

The great beauty of the superiority of this Sarsaparilla over all other Medicines is that while it eradicates the Disease, it invigorates the Body. It is one of the very best SPRING AND SUMMER MEDICINES ever known. It not only Purifies the Whole System and Strengthens the Person, but CREATES NEW, PURE AND RICH BLOOD! a power possessed by no other Medicine. And in this lies the grand secret of its wonderful success. It has performed within the last three years more than 150,000 cures of severe cases of Diseases; at least 20,000 were considered incurable. It has saved the lives of more than 15,000 Children during the three past seasons.

To the Public.

THE public are hereby notified, that the preparation extensively known as **DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA**, is now manufactured under my direction and supervision, from the original recipe obtained from DR. S. P. TOWNSEND; and I certify that it is composed of ingredients PURELY VEGETABLE and WITHOUT MERCURY—and also that the ingredients are judiciously compounded, so as to obtain from them their greatest medical effect.

JAMES R. CHILTON, M. D.,
Chemist.

Justice to All.

The gross and malignant FALSEHOODS that have been put in circulation to DECEIVE the Public declaring that I have "Abandoned the Field," that "old" Jacob Townsend is my father; that the RECIPE by which my Extract of Sarsaparilla is prepared was obtained from him; that we are in partnership; with numerous other SLANDERS of like import, induce me to make the following AFFIDAVIT, sworn to before the MAYOR of the CITY of NEW YORK.

I, SAMUEL P. TOWNSEND, of the City of New York, do make affidavit that

"I am no relative of old Jacob Townsend—am not, nor have I ever been, in any way connected with him in business. I have known him only as a *Street Pedlar of Maps and Cheap Publications*, until about two years since, when he was hired by some unprincipled men to lend the fraudulent use of his name to confuse and distract the public mind, that they might pirate the property which I possessed in the *Reputation of Townsend's Sarsaparilla*, which had cost me thousands and tens of thousands of dollars.

"In a suit which I brought against this Jacob Townsend and Thompson, Skilman & Co., the firm by which he was employed, the so styled old Doctor recently made affidavit that he had no interest whatever in the Sarsaparilla to which his name is affixed, and asks the court to let him off on that ground.

"Furthermore, I am the sole author and discoverer and the original proprietor of the medicine known as 'Dr Townsend's Sarsaparilla.' I have never offered old Jacob Townsend a penny for his recipe, but was engaged in manufacturing the Compound Extract of Sarsaparilla for nearly eight years before he or any one else, taking advantage of the great popularity of this medicine, undertook to counterfeit either the article or the name."

S. P. TOWNSEND.

Sworn to this 16th day of April, 1850, before me,

C. S. WOODHULL,
Mayor of the City of New York.

Cures in P. E. Island.

M. W. SKINNER, Agent for the above Medicine, recommends to the public the following certificate in testimony of its efficacy in the cure of diseases. This is only one of the many instances, on this Island, wherein cures have been effected by the use of S. P. Townsend's Compound Extract of Sarsaparilla.

CHARLOTTETOWN, P. E. I., April 27, 1850.—This is to certify that my wife was for the space of twenty five years suffering under a Complaint got through a severe cold, which brought on a general debility of the System, and from the use of one Bottle of Dr. S. P. Townsend's COMPOUND EXTRACT OF SARSAPARILLA, was entirely restored to good health, which was purchased from Mr. M. W. SKINNER, General Agent at Charlottetown for the above Medicine.

FINLAY M'KINNON.
Sworn to before me, Geo Dalrymple, J. P.

Hope for the Afflicted!

HALIFAX, N. S., May 13.

MR. SAMUEL STORY, 3rd,
Agent for S. P. Townsend's Sarsaparilla.

SIR,—Having been afflicted for the last 12 months, with an affection on the Lungs, which prevented me attending to my work as well as I could wish, during which time I was under three Doctors' hands, and must say I derived no benefit whatever, and began to despair of ever getting better. I was induced to try S. P. Townsend's Sarsaparilla, that you are agent for, by seeing it advertised, and after using two bottles found immediate relief, and am now able to attend to my work as usual, I sincerely believe it has been the means of restoring me. I have also been afflicted with the Piles for the last seven years, and when I began using your valuable Sarsaparilla to my astonishment I was cured.

JOHN BRENNAN, Cooper,
No. 81 Albermarle-street, Halifax, N. S.
Sworn to at Halifax, before me, this 13th day of May, 1850. A. KERR, J. P.

It is with much pleasure that the Agent for P. E. Island, thus again makes known the wonderful qualities of Townsend's Sarsaparilla, as exemplified in the above cure. This Medicine must now be acknowledged by all to be one of the greatest blessings of the age.

Pictou, July 4, 1850.

NOTICE.

ALL Persons indebted to the subscriber are hereby notified that he will take in payment Cows in Calf, if delivered on or before the 20th inst.

GEORGE COLES.

Patent Artificial Slate,
AND UNCHANGEABLE METALLIC
PAINTS;

Proof against Fire & Water.

MANUFACTURED BY THE PATENTEE, IN COLCHESTER, NOVA SCOTIA.

THE ARTIFICIAL SLATE is the product of a mixture of mineral substances known to be the best non-conductors of heat as well as the most indestructible; the Chemical affinity of which, converts the surfaces of materials covered into a *Coating of Actual Slate*—Proof against FIRE and WATER. Thus the laws of nature are made to accomplish results, as surprising as they are useful, by rendering wooden fabricks as durable as Brick or Stone, and less impervious to moisture, and consequently preventing decay and destruction from corroding influences hitherto supposed unattainable.

The principal ingredients are Alumina, Silica and the Oxides of Iron. The adhesive quality of the latter, not only binds but attracts the particles together, but the substance covered also. The longer exposed to the weather the more powerful the attraction, and consequently the harder the Slate. As various shades of colour are obtained, Brick Buildings may be made impervious to moisture and the fashionable colours of either *Free Stone* or *Granite*. The oil must be evaporated by the action of the weather before it is Fire proof, which will take from nine to twelve months.

THE METALLIC PAINTS, Purple and Red, are offered as *Weather and Water proof* solely. Their base being Iron, secures them from Galvanic action, so fatal to lead and other Paints on Iron work—and their chemical combination makes it impossible that any change should take place from atmospheric influence or the action of Salt Water and Sulphurated hydrogen, so prevalent in Sea Ports and tidal Harbours. They surpass all Paints yet discovered in *Cheapness and Durability*, which render them preeminently adapted to the covering of all kinds of Iron-work, such as Shipping, Mills, Bridges, Steam Machinery, Railway Cars, and Iron Railing. The Metallic Paints have been analysed by Professor Hays, of Boston.

The following is an extract from his certificate:—

"As a permanent pigment, this mineral must rank with the most indestructible and unchangeable bases.

For covering Metallic Ware, its composition shews that it is eminently fitted.

"Signed,
"AUGT. A. HAYS, State Assayer."

DIRECTIONS.—*Artificial Slate*: Mix the powder with pure Boiled Lined Oil and a little Spirits of Turpentine, to the consistency of very thick Paint, and applying with a common Brush, being careful to keep the mixture well stirred while putting it on. One pound will cover ten square feet with two coats.

The Metallic Paints are mixed and put on like an ordinary Paint.

JOHN ROSS, Patentee.

The above new and really valuable Compounds will on trial, be found to sustain the characters given of them; large sales of each have been, and are being made, in the United States of America, as also in New Brunswick where paints are extensively used for coating Ships generally; and are acknowledged as being particularly well adapted to covering the bottoms of sea-going vessels.

The extreme cheapness and unequalled qualities of these indisputably valuable materials, commend them to individual interest and general adoption. They are for Sale at Longworth's Buildings, Water Street, by

ANDREW MITCHELL,
Agent at Charlottetown, for the Patentee.
July 20. 6w.
