TWO MEN INJURED—A bad accident occurred at Victoria Park yesterday evening when two young men, Messrs. John Berrigan and George McCallum of Dunstaffnage were pitched out of a wagon and received each a fractured leg. Mr. McCallum's injury being of a particularly painful character. They were driving at the time along the new automobile road running past the band stand and in turning past the end of the road the horse turned so sharply, upsetting and wrecking the wagon and pitching the occupants upon the ground. Other people driving by gave them assistance they could. Dr. Ross was summoned and attended to both men, taking one to each of the hospitals where they are now being cared for.

EARLY MORNING FIRE—About 3 o'clock this morning the firemen were called out for a blaze in the Central Hotel, Grafton Street, opposite the Prince Edward Theatre. Miss MacLaren, daughter of the proprietor was awakened by a crackling sound, and she found the house full of smoke. One of the boarders rushed to the phone to give the alarm, but on account of the smoke and heat could not do so, and ran to the fire station. The fire evidently started in the electric switch in the kitchen near the stove. It burnt its way up to the bedrooms above. In these two rooms fortunately no one was sleeping, but four beds seven mattresses, springs, bed clothes and furniture stored there were considerably damaged. There were nine persons in the house including boarders at the time. The fire was starting to burn the stairway when it was extinguished. Had this stairway been destroyed it might have been difficult for those in the upper flight to have escaped. The blaze was extinguished by four hand chemicals and the large chemical engine. The firemen are to be commended on their excellent work.

RESEARCH DEVELOPS NEW USE FOR CANADIAN WOOD.

Many people when passing a shop where automobile spare batteries are sold must have noticed in the window one or two batteries cut open to show the interior construction. These sections show the edges of the lead plates used in the battery and between the plates very thin corrugated sheets of wood. These sheets are known as separators and while perhaps appearing relatively unimportant, have in fact been subject of extensive research.

Wood for battery separators must possess special chemical and physical properties and until very recently the wooden separators used in Canada were made almost exclusively of imported woods. The Forest Products Laboratories of the Forestry Branch, Department of the Interior recently undertook research to determine whether any Canadian wood was suitable for separator work, as a result found a most excellent material in the yellow cypress of British Columbia. This wood was found to possess the requisite properties to a high degree and is now in regular commercial use for the manufacture of separators.

McLaren-Notting Nuptials

A pretty June wedding took place yesterday morning at the home of Mr. and Mrs. J. A. McLaren, when their only daughter, Helen Catherine McLaren, became the wife of Dr. Errol Spencer Notting of Dartmouth, N.S., of the Health of Animals Branch, Dominion De- partment of Agriculture, Charlotte- town.

The ceremony was performed by the Rev. George C. Taylor, pastor of Zion church, in the presence of immediate relatives and a few in- timate friends of the bride and groom. Mrs. J. A. Bayer played the Wedding March.

The couple were unattended. The bride wore a travelling suit of lawn tricotinae with hat to match and a neck-piece of white ermine. There were numerous wedding presents from friends and relatives at home and abroad. The bride and groom entered a linen show- er by her girl friends at "Bluebird Cabin," Southport. She also received a case of silver knives and forks from the boys and girls of Patons Ltd., cheques for substan- tial amounts, and various other tan- gible remembrances.

The groom received a sectional book case from his fellow boarders at the Russ Hotel. The groom's gift to the bride was a bar-pin of white gold set with diamonds.

Miss MacLaren is a charming and cultured young lady and a former student at Halifax Ladies Col- lege, while the groom is one of the most popular young professions- al men of this city.

After the ceremony Mr. and Mrs. Notting left on the afternoon ex- press for Borden on a honeymoon trip through the Maritime Provin- ces. The Guardian joins in hap- piest congratulations.

Commander W. G. Lewin leaves this morning on short visit to Montreal and New York. While in Montreal he will attend the Canadian Navy League confer- ence.

ONE CAUSE OF FOREST FIRES.

Practical experience is what counts in all walks of life, and in the case of forest fires with regard to fire prevention. "A burnt child dreads the fire" is as true today as it was in olden times, but the average citizen has not been burnt and it is to make him realize his responsibility not only to himself but to his family, his neighbour, and the community at large that our efforts should be directed—Deputy Fire Marshal, G. F. Lewis, Ontario.

FOREST FIRES AND FURS.

The question of forest fires has just been approached from a new angle. The trapper is the latest individual to add his testimony to the damage forest fires do to the great fur industry. The fact is forest fires injure every Canadian in- terest and benefit no one. Such being the case, and as 90 per cent of all forest fires are started by human agency, it is not foolish and criminal that we allow fires to

SERIOUS LOSS—On Thursday, June 1st, Mr. Cleophas Blanchard, of Hope River had the misfortune to lose his valuable home by fire. The fire started about noon, it is thought from a spark from the flue, and before it could be got under control had completely burned the entire building, nothing being saved except the stove. Mr. Blanchard, unfortunately had no insur- ance, but is not daunted, and is starting at once to rebuild.

Islander's Memorial In Algiers, Africa

Mr. C. H. Black has received a letter from Mr. James Paton of this city, now travelling abroad, in which he states that while in Algiers, North Africa, he visited the Anglican Church, in which a tablet was erected some years ago to the memory of Robert Alder McLeod, maternal uncle of Mr. Black. The tablet bears an inscription in Latin of which the following is a free translation by a Bishop, who was one of Mr. Paton's fellow travellers: "In memory of Robert Alder McLeod, who while yet a youth be- came of most exhausting warfare, came to the end of life before his time, a life wearied by the most un- remitting zeal. His Harvard fel- low students have placed this me- morial. Born 1843, died 1878."

The subject of the above memo- rial was born in Bedouie, this province, a son of the late Rev. Dr. A. W. McLeod. Some years later, after a Methodist pastorate in the Maritime provinces Dr. McLeod and family removed to Bal- timore, Maryland, U.S.A., where the former edited a Church paper. The son, Robert Alder, accepted a position as drug clerk in New Orleans, a position which he held at the outbreak of the civil war. Being a resident of the South his sympa- thies naturally went with the Southern cause and he enlisted as a private in the Confederate Army. He fought through the whole cam- paign losing an arm and having en- dured all the hardships suffered by that unfortunate army, including imprisonment under inconceivably hard conditions. During the fall of Fort Sumpter, he was the last man to hold out the Confederate flag, which was shot out of his hand. Af- ter the close of the war and recov- ery from both wounds and hard- ships he came to Boston to continue his studies in Harvard. It may be remarked here that he was pas- sionately fond of study and even while in the trenches he kept up his studies, learning Caesar's commen- taries by heart from cover to cover. He supplemented his small means with tutoring and finished his course with remarkable success, at Har- vard he had the table erected to his memory as evidence of the esteem in which he was held by them.

When Mr. and Mrs. Paton were going abroad and informed Mr. Black of their proposed itinerary and their intention to call at Al- giers, he told them of the exist- ence of this tablet. Mr. Paton kindly promised to look it up and letter above referred to tells of his success in locating it and procuring

Extended Report Of Baseball Game Last Saturday

On Saturday afternoon at the Abegweit Grounds the first game of baseball of a series of seven games between the Abegweits and Beavers was staged to a very small attendance of fans, owing no doubt to the disagreeable con- ditions of the weather, neverthe- less the boys of both teams lined up on the diamond at ten minutes past four, and gave a very good account of themselves. They being handicapped considerably by lack of practice and wet ground which made it difficult for the batters of either team to do effective work, an the fielders were at a disadvantage, as the ball travelled very slowly on the wet ground.

These teams are very evenly matched and no doubt will furnish a good brand of ball to the fans before the season is over.

It would be well for the umpire to adopt a certain signal in the case of strikes on the batter up. This would enliven the interest and give the fans a better oppor- tunity of following the game, es- pecially when the fans are making so much noise that it makes it impossible for the spectators to catch the umpire's decision. An- other little matter that would make the game less like a practice match is to have each team decked out with uniforms of their own color, which would give the fans a proper way of distinguishing the base runner from the man guarding the sack.

Also a reminder to players that there is an umpire and base judge in charge of the game and their decisions should hold. When the players all congregate around the umpire and every man starts talk- ing the spectators wonder if they are to see a baseball game or just merely a lecture. An instance of this was displayed in Saturday's game when Diamond on his first time to bat, hit a home run, putting the ball over the fence. There were three men on bases at the time and all in- cluding Diamond reached the home plate safely. After some argument, the fans wonder when the Abbeys were retired and took the field no decision being given and the spectators were left to draw their own conclusions, but it appears Diamond did not touch second base in making the circuit, so only two runs resulted from the long drive, of course this was no fault of any person in particular, but the fact that the spectators did not know just how many runs were allowed lost interest in the game, and in order to keep the game popular, the fans as well as the players must be entertained.

The Abbeys came to bat first, Phil McQuaid up, who flied out to Cronin, McEachern flied to McQuaid, Cronin flied to Ross, Ryan out to Arsenault and Francis stole second, while Whacky reached third, Garrick fans, Corrigan hit grounder, between first and second and scores. Whacky, Francis crosses home plate on wild throw by pitcher, the next two batters Kinsman and Zalb fans.

Beavers, Cronin flied to McQuaid who fumbled, Ross gets free pass to first, A. Arsenault out on line drive to Corrigan, Lefty McQuaid struck out, Pur- die flied to McQuaid, who re- deemed himself and pulled down a nice one.

Abbeys, McQuaid out at first, McQuaid fanned Whacky fanned, Beavers, Cronin flied to McQuaid, Cronin flied to Zalb who muffs it and Arsenault reached home, Cron in fanned.

Abbeys, Francis flied to first, Ryan flied, Campbell muffs and Francis goes to third, Garrick free base, Cronin flied to Kinsman, Cronin flied to Kinsman, Cronin flied to first on over- throw to first by Francis, Ross free pass, Cronin going to second, E. Arsenault hits a two bagger scoring Cronin and Ross. The next two, Ruthledge and Purcell fanned.

Abbeys, Ryan to first, Garrick free pass, Corrigan hits, Ryan goes to third and Garrick second, Kinsman hit safe scoring Ryan and Garrick. S. Diamond out at first, McQuaid walks, McQuaid out at first.

Big League Teams In Stirring Race

Both New York Clubs Leading But Others Fighting Hard To Dis- lodge Them—Ruth Hits Homer, Bringing Two Men In Ahead of Him.

NEW YORK, June 4—With nearly a third of the major league season in the background and the teams primed for the mid-season cam- paign, the prediction that the 1922 races would rank among the most stirring on record is bearing fruit. The New York clubs, despite an indifferent showing last week, have retained narrow margins in the lead, but in the National three other outfits, Pittsburg, St. Louis and Brooklyn, are close on the heels of the Giants, and incidentally showing no signs of weakening. St. Louis in the American continues to battle neck and neck with the Yankees.

Today's victory for the Giants over Brooklyn strengthened the lead of the leaders, but left the slim margin of only three games between the teams in first and fourth positions, with Pittsburg and St. Louis in second and third. The Yankees defeated Philadelphia to- day but the Browns kept pace with them by winning from Chicago.

Relief From Rheumatic Pains

Rheumatism is a constitutional disease. It causes local aches and pains, inflamed joints and stiff muscles; but cannot be permanent- ly relieved by local or external applications. It must have constitu- tional treatment.

Take the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends, and gives permanent relief. It combines the most effective agents in the trans-

WHAT ALBERTA MAN SAYS OF DODD'S KIDNEY PILLS

States he found sure Relief for Neuralgia, Backache, and Rheu- matism in Dodd's Kidney Pills

Red Water, Alta., June 5. (Speci- al)—"I cannot be without Dodd's Kidney Pills at home. I have found them a sure relief for neuralgia, backache and rheumatism."

This is the statement of Mr. M. Tkachuk, a well known resident here. No stronger recommendation of a standard remedy was ever penned or spoken.

Recommendations of Dodd's Kid- ney Pills come from the heart. They are the voluntary statements of men and women who have suf- fered and found relief in Dodd's Kidney Pills.

"That Mr. Tkachuk found relief from his neuralgia, backache and rheumatism in Dodd's Kidney Pills is only natural. All of them are caused by poison in the blood that defective kidneys have failed to strain out.

Ask your neighbors if Dodd's Kidney Pills do not make strong healthy kidneys.
