But we will remember no matter how long.

Always remembered by daughter, Mrs. Milford Batchilder and family.

MacINTOSH — In loving memory of Andy MacIntosh who died on October 22nd 1961.

He is gone, but not forgotten,
And, as dawns another year,
In our lonely hours of thinking
Thoughts of him are always near.
Days of sadness still come o'er us,
Friends may think the wound it healed,
But they little know the sorrow
That lies within the heart concealed.

Lovingly remembered by Mom and Dad, brothers and sisters.

As a wonderful friend we think of you,
In memories that are fond and true.
There wasn't a thing big or small
That you wouldn't try to do for us all.
It's sad but true, and we wonder why
The best are always the first to die.
Quickly and quietly came the call
Your sudden death surprised us all.
We have lost, but God has gained
The very best the world contained.
Always remembered by Ruth and Sally Webster.

CHEVERIE — In loving memory of our dear son and brother, Albin Cheverie who was killed on Oct. 22, 1961.

A beautiful memory, dearer than gold
Of a son whose worth can never be told.
Alive and unseen he stands by our side,
With him forever our love will abide.

Lovingly remembered by father, mother, brothers and sisters.

New Potato Variety Available

A new potato variety, the product of the potato breeding program of the Canada Department of Agriculture, is now available for limited distribution to commercial growers.

The new variety, known as Sable, was developed at the research station in Fredericton, N.B., the final cross in the breeding program being made in 1954 and the first field test in 1956.

As seedling F5653, it has been extensively tested in the Maritime Provinces and throughout Canada under the national system of trials. The trials indicated that Sable was particularly adapted to the Maritime region.

Sable is a high yielding, early, moderately scab resistant variety. Harvested 80 days after planting it has outyielded Warba (the standard first early in the Maritimes) and is much superior in tuber type. The tubers are white, shallow eyed, uniform, and attractive.

Interested Island growers may obtain order forms for Foundation seed of the Sable potato by applying to the Experimental Farm or the Seed Potato Certification office, Charlottetown. The selling price has been set at $2.50 per 75-pound bag.

POOL RESOURCES

Cornell University in the U.S. and Australia's University of Sydney are to pool more than $15,500,000 worth of space exploration equipment, and interchange staffs.
