Lobster fishermen may encounter ice difficulties when the season opens on May 1 according to reports from Chief Officer Angus Brown who yesterday completed another of his daily ice surveys for the Department of Transport.

A south east wind during the past several days has done little but move the heavy pack of ice on the north side of the island 20 miles from the shore. This has left a track along the shore which would be quickly re-filled by a north wind.

In order that the waters may be ready for the lobster men, Chief Officer Brown estimated that a north west wind would be required every day this week.

The south wind has also moved the ice along the mainland shore of the Northumberland Strait to the island side. Charlottetown harbour was blocked yesterday and Summerside harbour was 60 per cent ice.

The steamer track was reported to be in good condition with heavy traffic proceeding through to Montreal and Quebec City. Louisburg harbour was closed up by the semi-ice breaker Edward Cornwallis was directing traffic in and out. The Strait of Canso was open yesterday.

The sudden death of Mr. John E. Campbell occurred at his home in Summerside yesterday morning at the age of 77 years. The late Mr. Campbell was one of Summerside's most prominent citizens and news of his passing came as a distinct shock to the citizens of the Town. Although he had suffered a heart attack on Monday, his condition was not considered as serious. Up to that time his health had been good and he had been active at his usual occupations.

Born in Summerside, he played a prominent part throughout his life, in the development of the Town. The Council have asked Mr. Rankin to visit Charlottetown around May 1 to consult with the Board and the Council. They agreed last night to pay his stated charges and expenses of \$300.00. The Council has been corresponding with the Montreal Company about the re-assessment problem for the past couple of months.

OTTAWA, April 24—(Special)—Sole representative of the Maritime Provinces to sign the Trans-Canada Highway agreement, Prince Edward Island Premier Walter Jones today added his name to the representatives of Ontario and the Western Provinces as a signatory to the highway pact.

Unlike Highway Ministers from New Brunswick, Nova Scotia and Newfoundland, Mr. Jones did not indulge in round-table bargaining with Resources and Development Minister Winters.

After affixing his signature to the agreement Mr. Jones voiced support of the new Atlantic to Pacific road. He thanked Mr. Winters for his lucid explanation of points in dispute and said that as far as his Province is concerned he feels the new highway will add to the prosperity and progress of Canada.

A disastrous fire, reportedly originating from a bonfire, completely destroyed a large barn at Kinkora yesterday afternoon, owned by Mr. John Farmer.

The blaze was discovered about two o'clock and residents of the community hurried to the scene and with the aid of former A.R.P. pumps endeavored to control the fire. It had, however, gained too much headway and within a short time the building was a mass of flames.

Twenty-two head of cattle were in the barn at the time and all were saved except one calf. Several pieces of farm machinery however were destroyed, including a tractor, plow, cultivator and hay mower, as well as a large quantity of hay and grain.

The barn was on the old homestead property of Michael Farmer and the house is rented and occupied by Mrs. A. McMahon.

Only a light wind was blowing at the time and away from the residence and St. Malachy's Church, which was only one hundred yards away. Had the wind been stronger and in the opposite direction, residents say that the Church would have been doomed.

It could not be learned last evening what the estimated loss would be but it is understood that it was fairly well covered by insurance.

During the late afternoon and evening the residents of the community gathered at the still burning ruins and with horses and tractors dragged away the smouldering sills to protect the nearby house and church from danger. A crew of men remained on watch all night to prevent a further outbreak.
