### ADDRESS AND PRESENTATION.

At the close of the term the pupils of Covehead school surprised their teacher, F. Hedley Auld, by presenting him with a handsomely bound volume of Byrons' Poetical works, in a neat case, accompanied by the following address:

DEAR TEACHER—With feelings of sincere regret we learn that you are about to leave us. Ere you go we beg you to accept the accompanying volume, not for its intrinsic worth but as a slight token of our appreciation of your faithful and conscientious work among us. No doubt you have often found us trying on your patience, but your kind and gentle manner of dealing with us, and your Christian character have endeared you to us, and they will endear you to all with whom you come in contact. Trusting that your future fields of labor may be pleasant, and that every success may crown your work, we remain, in behalf of the school,

EMMA CARR,  
 ELIZA REARDON,  
 CHAS. REARDON.

Mr. Auld made the following reply:

DEAR SCHOLARS,—As I look back over my work during the past year many memories come and go, and I recall much that, if I had the opportunity of changing, I would gladly rectify.

But more pleasant thoughts come to me, and I recall many hours spent with you, the memory of which will give me comfort and pleasure while life shall last.

Sorrow fills our hearts when we recall the faces of loved ones, who have passed from time to eternity during my stay among you, and our thoughts turn to another who has gone to a far off land to fight for Queen and country.

I have much pleasure in receiving from your hands this token of your approbation, and shall always look upon it as my choicest possession. I trust that the time spent among you has not been without beneficial results that will mould your careers as they should be, and I earnestly hope that your desire for knowledge may grow keener as time passes, and that you all may imbibe that true knowledge which will make you better boys and girls, and which will have an influence on your lives, so that

"In the world's broad field of battle,  
 You may be heroes in the strife,"  
 and will leave an influence in the world which time cannot destroy.

 433,373 lbs of milk drawn.

Hereafter a monthly statement of the factory will be given, together with the largest patrons on each route.—Sua.

—The principal event of the week in Paris has been the campaign to secure more friendly relations between France and the United States. The participation of the French Government in, and the exceptionally cordial tone of the French press towards, the Washington and fourth of July fetes have given an unmistakable stamp to the direction of France's foreign policy. There is no doubt that the French Government feels that it is a matter of paramount importance to their country to secure the good will of the United States, and to lay the foundation for a more intimate understanding than ever before existed between the two republics. M. Greville-Beache, one of the representatives in the Chamber of Deputies for Gaudeloupe, has published an article in the *Elclair* suggesting that steps be taken for the formation of a society for the promotion of the Franco-American alliance, proposing that M. Leon Bourgeois be made president.

Do you read what people say about Hood's Sarsaparilla? It is curing all forms of disease caused or promoted by impure blood.

### St. Peter's Bay Jottings.

Now "when nature dresses green and gay to drive our cares away," the people in this section are awakening to the necessity of supplying themselves with some species of enjoyment. Foremost amongst these are the fishing excursions. Some of our young people have had several outings to the banks of the charming and picturesque Cow River, where we understand their success was such as would satisfy the most zealous follower of Izaak Walton.

Some of our former inhabitants are again in our midst. Amongst these are Mrs. J. C. McDonald, Miss Mary Somers, Miss Roselle Larkin and Miss Adrena Lewis who were warmly welcomed by their many friends after their lengthy sojourn in Uncle Sam's domain.

Messrs. Peter and Aeneas Cummings, two of our most enterprising young men, have left their homes to better their fortune in Noank, Conn. We wish them every success, and trust to see their names amongst those of the successful Islanders abroad.

The recent rains have been a great boon to the farmers. Although the hay crop is not as promising as that of last year the crops in general are looking splendid and we believe that when the time of harvest is at hand the toil of the husbandman will be well rewarded.

Our cheese factory is doing splendid work under the efficient management of Mr. Albert Donnelly. The average amount of milk received is nine thousand lbs. Although some of the farmers are still keeping home their milk, and following the old style of farming the time is not far distant when dairying will, as it should, be the leading industry of our fertile Isle. Mr. Donnelly has recently purchased a fine wheel, and as the swiftest flyer invariably leads on to fortune we will watch with interest his progress in the future.

Our school is progressing favorably under the skillful management of Mr. Arthur Fraser, who has only recently taken charge here. Judging by the earnestness displayed by both teacher and pupils we have good guarantees of success.

We understand that Mr. F. P. McAulay, who has been employed for some years on the railway here, is about to be transferred to Piquet section. Frank will be much missed.

The popularity of THE EXAMINER in this section is steadily increasing, and its newsiness and generally up-to-date character is much appreciated.

Rex.

### Summerfield Notes.

The farmers of this vicinity have finished getting their crops in; but still they are not now enjoying a rest, for when they finished the last part they had to turn in to weed the first.

One of our most respectable residents has moved from our midst into another part of the Island where he intends to keep store. His name is Mr. Daniel McKenzie. He was a member of Union Division for these last twenty years and was highly esteemed by all who knew him.

Our school has been making notable progress since it has passed under the care of the present teacher, Herbert E. McDonald. One scholar is going to take the entrance examination for the Prince of Wales College, while two others, Mr. Dan Nicholson and Mr. Ben McKenzie, are going to take the entrance examination at McGill for the coming year. The former, thinking that he lost too much time walking to school, has purchased a fine bicycle with which he can go in much shorter time.

Mr. Alex. Nicholson, the village blacksmith, having rented out his farm and sold most of his stock, is now able to give all his skill and attention to his trade. He has a large run of work on hand now; but by keeping his hammer swinging he can soon clear the way for a new supply.

Mr. Bernard Crokin has purchased a fine hundred acre farm from Mr. Daniel Goodwin for a handsome sum, the latter having moved his residence to a station farther west.

Mr. Thos. McKay has a three-year-old McGill mare, which weighs around thirteen hundred pounds.

## Save Your MONEY.

To save your money, by getting more for it, ask your dealer in medicine to show you the new 50 cent size bottle of JOHNSON'S ANODYNE LINIMENT. It contains over three times as much as the old 25 cent style, which is a great saving to those who use this valuable family medicine. The superior quality of this old Anodyne has never been equaled.

## JOHNSON'S ANODYNE LINIMENT

Fifty years ago this month, Dr. Johnson left with me some Johnson's Anodyne Liniment. I remember him distinctly, and could tell you just how he was dressed on that day. I have sold Johnson's Liniment ever since. Can truly say it has maintained its high standard from that time to this. No medicine today possesses the confidence of the public to a greater extent. JOHN B. RAND, North Waterford, Me., Jan., 1891.

As a family remedy it has been used and endorsed for nearly a century. Every Mother should have it in the house for many common ailments, Internal as much as External. Our book on INFLAMMATION free. Price 25 and 50c. J. B. Johnson & Co., Boston, Mass.

# Look at it

And look at it well, that's what we like to see every customer do, examine our youths suits well, and if you find anything wrong tell us so, if there's room for improvement we want to know it, and we'll make it.

We don't think there's much room for improvement in that all wool serge suit of ours at \$6.50, unless we improve the profit; when you see the suit you'll acknowledge that we could do that if we wished, but we don't.

# It Won't Bite

Any man's pocket book, if he buys a nice covert top coat for the chilly evening.

He will be richer too although he does spend \$6.00 for one of those nice light cord ones.

He is very apt to save more than that in doctor's bills before the summer's over. These coats are not too heavy; they're just right

something a little better if you want it, \$8.00, \$10.00, \$12.00.

# But it's Apt to

Be very warm during the days of this month, we would advise you to see our hot weather underclothing. There's the cheap grade at 40c the suit, then there's the better all the way to \$3.00 the suit.

But you must ask to see the \$1.00 kind, that's the kind we claim to be all that can be asked for in comfort-giving underwear.

# Have a Fit

When you are buying a hat, its just as easy to get a hat right as wrong, and its not half so headachey.

We claim to be able to fit any head. Surely one of our 6000 "Christy" felt hats at from 50c to \$2.00 will do it. If you don't want a felt why we have 32,000 straw hats the way from 5c to \$2.00 each. The \$1.00 hat in both is our speciality.

But be sure you get a fit, don't take one until you get it; its here somewhere, no doubt about that.

# Prowse Bros

What trade we have we'll hold, and what we haven't, we're after.
