

THE EXAMINER.

VOL. 5.

CHARLOTTETOWN, PRINCE EDWARD ISLAND, TUESDAY, NOVEMBER 18, 1879.

NO. 135.

Hewson, McDougall & Seaman

BEG leave to acknowledge thanks to the public generally for the very liberal patronage extended to them since commencing business, and intimate that they have on hand a large and select stock of material for the manufacture of Sleighs, etc. They have recently received photos of all the latest prize sleighs of the Ottawa Exhibition. Parties requiring new sleighs would do well to call at their factory and examine before ordering elsewhere.

They keep on hand and make to order Top Buggies, Phaetons, the famous Dexter Spring Wagons, and carriages of every description. Repairing of all kinds done with neatness and despatch, and warranted to give satisfaction to those who favor them with a call, at prices to suit the times.

N. B.—Parties having their Sleighs repaired and painted would do well to leave them at once in order to have them in time for the first snow.

Wagons stored at moderate charges. Parties having their wagons repaired and painted in the spring will have them stored free of charge for the winter.

NEWS BY TELEGRAPH.

EUROPEAN.

CONSTANTINOPLE, Nov. 16.

Pending instructions which are daily expected from the home Government the Minister is carefully abstaining from visiting the Sultan or taking any steps which may be construed into an official act. Concerning existing critical relations between Great Britain and the Porte the menacing attitude assumed by England is attributed in this capital to the suspicion entertained by her that the recent trip of Count Lobanoff from this city to Lividia and thence to Constantinople and holding an audience with the Sultan and Empress at either end of the route meant an understanding if not a positive alliance between the two Powers.

Musurus Pasha, Turkish Ambassador at London, has telegraphed to the Porte that Salisbury is satisfied with the explanations presented by the ambassador. He believes he has convinced Salisbury that the reports that an understanding exists between Turkey and Russia are without foundation.

LONDON, Nov. 16.

Lord Dufferin is reported by a Paris Correspondent as having said that England could carry out her programme in Turkey independently and that the maintenance of peace rested with Gortschakoff.

A despatch from Constantinople says the Turkish Ministry is divided in opinion. One portion, headed by Osman Pasha, favors an alliance with Russia. Disorders are increasing throughout the country. Even within sixty miles of Constantinople the Circassians are robbing and murdering the inhabitants. It is believed that Carathodori Pasha is about to be proposed to succeed Aeko Pasha in Roumelia.

LONDON, Nov. 16.

A despatch from Dublin says that the Colonel commanding the 67th Regt., stationed at Birr, Ireland, has been anonymously notified that the barracks were to be attacked by a large force of anti-renters and an attempt made to explode the magazine. Precautions have been taken to guard against the attack, and the Colonel has asked for assistance.

BERLIN, Nov. 16.

Improvements are being made to Dantzic harbor, and its enlargement has been the means of furnishing employment to many hands.

MADRID, Nov. 16.

Owing to the large amounts derived from the relief of the sufferers by the late floods a change in the programme of the coming festivities on the occasion of the royal marriage has been made, and the union between the King and the Arch-Duchess will be celebrated with the usual pomp and splendor. The Pope and other potentates have already sent presents to King Alfonso. Admiral Jarves has left Paris with numerous staff officers carrying the gifts of France to the young King.

LONDON, Nov. 16.

Henry Labouchere, of Truth, was yesterday expelled from the Beefsteak Club. Montague, Williams and Lawson have resigned.

NEW YORK, Nov. 16.

An Ottawa special says that the action of Secretary Everts in regard to the fishery question provokes much comment editorially and otherwise. The Free Press says: "Canadians desire to act with perfect equity and if the United States will act fairly and honestly they will have no cause to complain."

CUBA.

NEW YORK, Nov. 16.

A Havana letter of the 8th inst., says:—A strong party of Insurgents drove off about 300 head of cattle from Holguin on the 4th, and the Spanish troops were sent after them unsuccessfully. In explanation of the above Spanish account, the Patriot statement is that General Valena attacked the Patriots at Barrancas, but was defeated, with a loss of 250 killed and wounded, and retreated to Holguin, where he was shut up by the Patriot forces. The Spanish General Blanco with 4,800 men, went to the relief of Valena, when the Patriots raised the investment of the place, sacked several stores in the outskirts and captured large quantities of booty.

A portion of Cubans—about 3,000, under Benitez—crossed in the eastern province, captured Incaro, which they pillaged, established a muster camp near Las Guasimas, where recruits can enroll, and then headed for Peroto Principe where cattle and recruits are being obtained. A vigorous campaign is planned to extend to San Miguel, Baj and Nevitas, where the sugar estates and telegraph lines will be destroyed. The Patriots have sent emissaries to enlist the whites into the revolutionary army and to entice slave gangs from Remedios, Trinidad and Cienfuegos to strike work and repair to the mountains to enlist with the Patriots.

In the Trinidad Valley it is stated that a thousand yeomen are in the mountains awaiting the arrival of the Cuban force to join it.

Reinforcements, including volunteer regiments, are being pushed forward from Havana to the Spanish troops, and arrivals from Spain are anxiously awaited.

LADIES' new Felt Hats, new feathers, velvetene, new mantle cloths, just received at J. B. MACDONALD'S.

MISCELLANEOUS.

One death from small-pox in St. John, N. B., last week.

A count is necessary in New York to decide the recent elections. The Republicans still claim to have carried all their men except the Engineer.

The Sultan has issued a decree that the rations for horses, which have from time immemorial been served out to naval officers, shall be discontinued.

There is a mountain pass in Switzerland over which the traveller is conducted blindfolded. He might lose his footing if he caught but one bewildering glimpse of the chasm below.

Over 200 statues and pieces of sculpture, belonging to the best period of Greek art, have been recovered by a German engineer on the site of the ancient Pergamos, now Bergama, Asiatic Turkey.

Her Majesty, a fortnight ago, expressly commanded that a paragraph stating that she was eating strawberries grown in the open air at Balmoral should be sent to the papers, her object being to dissipate the idea that at this season Balmoral lies in a snowy or foggy waste.

The Finance Minister is completing his inspection of the Ontario factories. He left Ottawa on the 12th for this purpose and visits Guelph, Brantford, London and other western towns before his return to the capital. It is stated that a banquet has been tendered him at Guelph.

Courtney and Hanlan—after nine hours conference at Rochester, N. Y.—agreed to row a five mile race on Potomac River, near Washington, on Tuesday, Dec. 9th. Each man is to put up \$500 forfeit as a guarantee to start in the race. Mr. Blaikie will be referee. Hanlan and Courtney expect to start for Washington next week.

An attempt has been made to blow up with dynamite a building at Linares, Spain, during a lecture attended by nearly three hundred members of a Catholic working-men's club. There was a shock shaking the whole building; the gas was extinguished and the gas meter destroyed, but happily nobody was injured. The act is attributed to enemies of the club.

THE MONCTON KNITTING FACTORY.—The Times says: The meeting of parties interested in the establishment of a Knitting Factory in Moncton met in Dunlap's Hall on Friday evening. A resolution was passed requesting John McKenzie, Esq., to draw up a memorandum of association, to be forwarded for publication in the Royal Gazette of next week.

The Hudson Bay Company is at last finding something to say in favor of the fertile belt. It has had printed an instructive pamphlet giving an account of Manitoba and of the seven million acres owned by it in the North West, five hundred thousand acres of which it offers for sale. The pamphlet is to be circulated in the Three Kingdoms, in Old Canada and the United States. For generations the Company suppressed or perverted the truth relative to the capabilities of the land it now prides so highly.

The Seminole Indians in the South of Florida have threatened to kill a young boy of their number known as Little Billy, because he persists in going to school at Fort Meyers and learning to read, write and speak English. They denounce him as a deserter from his tribe. The Key West Key says that the Indians must be taught that their tribal laws will not be tolerated in Florida, and that they can ostracize Little Billy if they choose, but if they kill him the tribe "will be destroyed as the prairie grass before the summer fires," for their conduct would be resisted by every citizen in the southern part of the State.

Kossuth has been engaged on a history of his life for several years past, and it was to have been published simultaneously at Vienna, Berlin and other European capitals some time last year, but from some reason or other—principally on account of the gifted author's unreadiness—the publication has hung fire up till now. Kossuth, however, has at length completed his memoirs, and last week arranged with a publishing firm at Pesth for their production. The volume will embrace all his writings of importance and fugitive essays in periodical literature since 1859. During the past twenty years few have seen more ups and downs than Kossuth.

STANDARD REQUISITES FOR POULTRY.—There are certain things absolutely necessary for the thrift, comfort and convenience of fowl stock which must be supplied by every one who attempts to raise them. These requisites, in general terms, are a sufficient quantity of lime among their food, to assist in egg-shell making; plenty of gravel, which helps to digest their hard, dry grain food; a due allowance of animal substance, such as insects, meat scraps, etc., a moderate supply of shells, pounded bones, etc., and a full medium of green feed constantly all the year round. All these are necessities. And in some shape or other these must be furnished the fowls or they will not grow well, feed well, breed well, lay well or do well. If the flocks are permitted to run at large, the birds will gather a good share of these supplies abroad, especially in the summer season. If they are confined within fenced runs, all these provisions must be accorded them artificially, or they suffer.—American Agriculturist.
