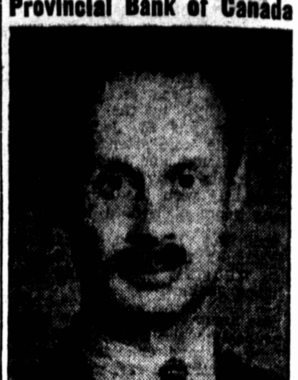
## Vice President Provincial Bank of Canada



Mr. C. F. Carsley, M.B.E.

The election of Mr. C. F. Carsley, M.B.E., as Vice-President of The Provincial Bank of Canada has been announced by Mr. J. Edouard Labelle, President of the Bank. Mr. Carsley is a Director, as well as General Manager of Lion Vinegar Company Limited (Montreal); Director of Canada Vinegars Limited (Toronto) and Kent Foods Limited (Canning, N. S.) He has been a member of the Board of Directors of the Bank since 1948.

The name Carsley is closely linked with the history of The Provincial Bank of Canada. Since the founding of the Bank in 1900, several members of Mr. Carsley's family, all of them prominent in the business life of Montreal, have sat on the Board of Directors of the Bank, they are: from 1901 to 1908, his grand-father, Mr. S. Carsley, Sr., formerly head of the well-known department store of the same name on Notre Dame Street and one of the first established in Montreal; from 1908 to 1927, his uncle, Mr. F. W. Carsley, an executive of the same company; and, from 1944 to 1948, his father, Mr. C. L. Carsley, President of Lion Vinegar Company Limited and Canada Vinegars Limited, who himself was also Vice-President of the Bank from 1946 to 1948.

## Employment Hike During September

OTTAWA, (CP) — Employment in Canada continued to rise during September and the numbers of jobless declined slightly, the labor department said today. However, the number at work was still below the level of a year earlier, and unemployment was nearly double that of September, 1953.

A monthly survey of employment estimated that 4,820,000 persons were working full time at Sept. 18 and 167,000 were without jobs and looking for work.

Those figures, based on a bureau of statistics survey, compared with 4,748,000 full-time workers a month earlier, when 174,000 jobless were seeking work.

In the week ended Sept. 19, 1953, there were 4,896,000 full - time workers and 84,000 jobless seeking work.

ANNUAL PEAK PASSED

The bureau's estimates were issued jointly with labor department figures which showed that 243,517 persons were registered for jobs at Sept. 16 with the national employment service. A month earlier 254,800 were registered and a year earlier there were 162,015.

The annual seasonal peak in labor demand apparently was reached and passed during the month, the statement said.

"This annual peak in employment occurred somewhat later this year than last. The high level of fall construction activity and the larger than usual increase in logging employments during the month were important factors affecting the situation."

ATLANTIC REGION UP

The statement credited the decline in unemployment to the fact that the withdrawal of students and other seasonal workers from the labor force more than balanced a reduction in the number of jobs available.

A general increase in employment was reported throughout the Atlantic region with more jobs available in potato harvesting, coal mining, construction and logging.

The seasonal demand for labor in Quebec was "relatively strong" and the larger pulpwood companies increased employment by 13,500 in the first three weeks of September.
