As there was only \$500.00 insurance on the building, the loss was very and soon a crowd gathered. The poultry house adjoining the barn had the end burned off, and another barn close by had a narrow escape from destruction.

"My Back Aches"
BOTH liver and kidney troubles are usually first detected by backache.
When the liver is to blame you have pains under the shoulder blades and down towards the right side.
When the kidneys are deranged the pains settle in the small of the back.
In either case you can obtain relief promptly by using Dr. Chase's Kidney-Liver Pills.
The liver and kidneys work hand-in-hand in eliminating poisons from the blood. Neither one can be greatly deranged without the other being affected.
Because they correct the action of both these great filtering organs, Dr. Chase's

Kidney-Liver Pills afford relief in complicated derangements which ordinary medicines do not seem to touch.
Mrs. Alex Gordon, Walkerton, Ont., writes: "A few years ago I suffered from kidney and liver trouble, with pains in my back. I had heard of Dr. Chase's Kidney-Liver Pills being good for this, so I commenced taking them. I had only taken a couple of boxes when the trouble was all removed."
Few medicines have ever attained to such universal use as Dr. Chase's Kidney-Liver Pills. This is because they afford prompt relief from the most common ills of humanity—backache, constipation, indigestion, liver and kidney derangements.

Discounting the Count
A COUNT used to be a man in charge of a count of 500 persons to whom he was a sort of overlord. This is not true today because of altered political conditions. We still have Counts, but the Count business has changed somewhat.
Business, of all kinds, has undergone something of a revolution. It was not so many years ago that pack peddlers were the sole distributors and transporters of many of the household articles of the day. Their legs set the limits for most distribution problems in those days.
Modern transportation, progressive sales methods—and advertising—have broken the shackles of time. They make a speedy job of what used to take years. Through advertising many an article has been introduced simultaneously in stores all over the country.
Advertising today is the method used by business to tell you why you should have certain goods and how to identify those goods. The advertisements you find here are a truthful catalog of needed merchandise.
Articles of all kinds and for all purposes are presented in a pleasant way through the medium of type and picture. The outstanding requirements of every member of the family are met by offers of good merchandise of proved value.
Use the advertisements for guidance and you will be a constant gainer.
