Bright Young Minds Are Being Steered From Science

By ALTON L. BLAKELEY... Numerous teen-agers, a Purdue survey finds, regard scientists as being unattractive, unappealing or incapable of living a normal life... Many students avoid science courses as hard, or for squares, or for too many hours to be learned in university, they find it would be necessary to go back to school to study science...

Mathematics is a cornerstone of science, but many youngsters are being steered away from it... Arithmetic often is taught by rote, and not only in teaching compound interest rates which they likely never will use...

Many students avoid science courses as hard, or for squares, or for too many hours to be learned in university, they find it would be necessary to go back to school to study science... Students often avoid science because they see higher pay and more prestige in engineering, advertising, medicine, business, entertainment and other fields...
