only the ALL-FLEXALUM blind gives you all these features:

long-wear nylon cords—Stronger, Flexalum cords won't fray. Slimmer, they look better—let slats close tighter. Plastic tassels are seamless, unbreakable.

wipe clean plastic tapes—Flexalum tapes stay beautiful ... even sticky jam wipes right off the non-porous surface. Won't fade, fray, shrink, stretch.

non-slip tilt control—No stretching or climbing to reach Flexalum tilt cords. They're always in reach—locked permanently to the friction-free mechanism.

snap-back slats—Flexalum aluminum slats are spring-tempered to snap back ruler-straight! The rich mar-proof finish won't rust, chip, crack or peel.

crush-proof cord lock—No crush when cord is released too quickly. Just let go—automatic Flexalum device locks blind in position.

new decorating ideas—No need for drapery hardware ... order Flexalum blinds with top bar extended and hook your drapes on it. All blind cords can be placed where they are easiest to reach.

The ALL-FLEXALUM Venetian Blind is Custom Made, with all parts color-matched — in a wide choice of color combinations. Come in, phone or write for Free Estimate.
