Carpenters Meet To Consider Applying For Charter In Union
A meeting of carpenters in the Town Hall at Summerside last night decided to apply for a charter as a local of the United Brotherhood of Carpenters and Joiners of America (A. F. L.). The chairman of the meeting was Mr. S. H. Dwyer of Halifax, general representative for Eastern Canada of the Union and a member of the Nova Scotia Labor Relations Board.

Some 40 to 50 carpenters from the Prince County area attended. Mr. Dwyer said if a charter is granted it would be presented in about two weeks time. At the same time election of officers of the local would be held.

Mr. Dwyer said there were 36 locals in the three Maritime Provinces and Newfoundland. He added that it was expected a meeting would be held to consider formation of a local in Charlottetown.

Wages and working conditions were questions for the local to decide, he said, but the local to be formed would be sought along with working contracts with the principal construction firms.

Mr. Dwyer said after the meeting it was anticipated the "same good relations" between union and employers would be maintained in Prince County as have existed in other parts of the district where there have been but five strikes in 14 years.

Commencement Exercises Held At Tignish Convent

The commencement exercises of Our Lady of the Angels Convent, Tignish were held on Friday evening and the address to the graduates was delivered by His Honor Lt. Gov. J. A. Bernard.

The members of the graduation class were: Frances Genevieve Cormier, Florence Anita Dunbar, Joan Camilla Gallant, Irma Theresa Hogan, Mary Marjorie MacDonald, Mary Colleen McCarthy, Joseph Leonard McHugh, Frances Theresa Perry, Mary Janet Perry, Mary Rose Alicia Pineau.

Rev. J. A. MacDonald, parish priest presided and present also were the following other members of the clergy: Rev. Patrick Walsh, Rev. Father Richard, Rev. Father Gallant (Van Buren, Maine), Rev. Fisher Dooley, all of whom conveyed words of encouragement to the graduates.

Congratulations were also extended by Mr. C. F. Morrissey and Mrs. A. J. MacDonald.

In his address Lt. Governor Bernard expressed his happiness at being present and to go back in retrospect over the years and renew his associations with the many men and women of former years who received their early education in the community. He referred to the many notable men who had begun life in Tignish, mentioning in particular the late Sir Charles Dalton who in his generosity and goodness of heart provided money to erect one of the finest schools in the Province at Tignish.

He paid high tribute to the Principal, the Rev. Mother Superior, and said that she was one of the best teachers that Notre Dame Convent had ever produced. "I compliment the citizens of this district," he continued, "on being so fortunate in having her to preside over the work and the eventual destiny of the students under her care."

In closing his address Governor Bernard concluded by saying "many of our young people who have received school diplomas in the past have made large contributions to our church, our convents, our schools and our governments. Many of them have been shining examples of application to duty and of honest, conscientious effort to arrive at the top of their chosen profession. An old and true saying is "There is always room at the top." You now have the opportunity to make the grade as others who went before you. In this connection there is only your own weakness to retard you. If you offset that by the virtues which I have mentioned, select your associates carefully, pursue the work of your calling diligently and faithfully, never forget to practice perseverance and I implore you in going forth from this school room, where you have received the basis of advantage and your God-given gifts of sound common sense in pursuing whatever course in life you may decide upon."

The valedictorian was Miss Genevieve Cormier.

5th Avenue Church Of Rev. Dr. Bonnell Tops \$100,000 Fund

NEW YORK, June 19.—A goal of \$100,000 in funds for the improvement of the Fifth Avenue Presbyterian Church, at Fifty-fifth Street, has been exceeded in less than two months of solicitation, the Rev. Dr. John Sutherland Bonnell, minister, announced during his sermon at the morning service yesterday.

Dr. Bonnell, a native of Prince Edward Island, said that the faith of the congregation in the church's recent decision to remain on its present Fifth Avenue site "most decidedly played a part" in the speed with which the goal was reached. In April he told the congregation that the church was not going to be a part of what he described as "the general retreat" of churches from Fifth Avenue. At that time it was decided to renovate the church after a board of engineers and architects found that the building was "as structurally sound as the day it was built."

"The very presence of the church on this avenue is a sermon, in that it reminds men that man shall not live by bread alone," he said yesterday. "This is a national, a civilization, a materialistic which so readily becomes materialistic."

Thirty of the gifts came from persons affiliated with other churches and from others who have no church affiliations.

The additional funds above \$100,000 will be used in the church's seventy-fifth anniversary improvement program.

Dr. Bonnell announced that the congregation has raised \$778, which will be sent to Premier Douglas L. Campbell of Manitoba, Canada, for the relief of victims of the Winnipeg flood last month.

He read a telegram of appreciation sent by Premier Campbell to the congregation.

A certain number of young people are able to go on and take their university courses with proper encouragement.

The 1,800 steadily employed blind persons in Canada earn in the neighborhood of \$2,500,000 annually, Col. Baker said.

The Institute has 135 local boards functioning across Canada. Recently a new Institute building was opened in Corner Brook, Newfoundland. There are nine boards in the Maritimes and one is being developed in the Yukon.

Discussing the work of the Institute, Col. Baker said: "We don't go around discussing a theory; we have proved the capabilities of the blind by demonstration. Our work has developed to the point where we are able to place them in various occupations suitable to their needs. In carrying out this work we must educate the public, and governments, to its value, in that there may be sufficient funds to provide the essential services; because it would cost governments more money otherwise, in pensions, if it were not for our rehabilitation programme."

In 1931 the Institute obtained its first blind Workmen's Compensation Act in Ontario. Since that time accidents to blind people in Ontario have cost substantially less than the money paid in, and less than the average for sighted workmen. In all but one Province in Canada, similar Acts are now in effect.
