THE INCORPORATION OF THE TOWN.

Born the Examiner and Advertiser at last come to the necessity of having Charlestown incorporated, and we are heartily glad to find that this desirable measure will not only be effected, but will be effected in the Session of the Legislature, but with a degree of unanimity that we could not last year have anticipated.

It has been so often given, that we trust to see the day when our countrymen will be more far-sighted than the Legislature. We shall, however, previous to the sitting of the Legislature, give our views on the subject of general public utility should be carried out, and we trust that in the prosecution of it, all party spirit and feelings of personal animosity will be, for the time at least, laid aside.

In this as in all other matters, when unanimity is attained, it becomes the duty of every man to sacrifice his personal feelings on the altar of public good.
