

### Council May Give Light To Projects

The Executive Council, at its meeting today, is expected to approve several projects that can be carried out in the province when the federal-provincial agreement on agricultural rehabilitation and development is signed.

Acting-premier Andrew MacLean said Wednesday that the agreement, under which the federal government shares in the cost of certain provincial projects, is expected to be ready for signing within a month.

"Our projects," said Mr. MacLean, "don't have to be ready when the agreement is signed but by having them ready we can get an earlier start on them."

Some of the projects under consideration deal with water conservation, community and recreational development, tourist industry development and development in the fishing industry.

Two years later he was named assistant to the master of novices at Guelph, Ont. From 1944 to 1947, he was assistant rector at Jesuit Seminary in Toronto.
