Physicians

prescribe Scott's Emulsion of Cod-liver Oil and Hypophosphites because they find their patients can tolerate it for a long time, as it does not upset the stomach nor derange the digestion like the plain oil.

Scott's Emulsion is as much easier to digest than the plain oil as milk is easier to digest than butter. Besides, the fish-fat taste is taken out of the oil, and it is almost palatable. The way sickly children, emaciated, anæmic and consumptive adults, gain flesh on Scott's Emulsion is very remarkable.

Don't be persuaded to accept a substitute!

Scott & Bowne, Belleville. 50c. and $1.

What is Going On in the World of Labor, Invention and Business—Odds and Ends Gathered From a Variety of Sources.

There is a paper roasting pan.
Atlanta boasts a paper house.
Glasgow has a 454-foot chimney.
Mexico has women car conductors.
Jerusalem has eight printing shops.
Leather is made of red beechwood.
Tuckahoe (N. J.) has a turtle farm.
The French photograph flying insects.
A machine makes 10,000,000 match sticks daily.
Chicagoans daily drink 13,000 barrels of beer.
Potatoes sell in Salamanca, N. Y., for 15 cents a bushel.
Potatoes in Greenland never grow larger than a marble.
A person can live in splendid style in Japan for $5 a week.
There is only one lawyer to every 6,000 people in France.
An English Cabinet Minister's full dress uniform costs $600.
Since 1820 Pennsylvania has produced 852,000,000 tons of coal.
Glass stopping for decayed teeth seems common, used by dentists in Berlin.
A Hartford concern has just made a four-ply leather belt 118 feet long and 78 inches wide. The hides of 100 steers were used.
No fewer than sixty-six persons in Great Britain are shown by the income tax reports just published in London to enjoy an annual income of over $300,000.
A "carpet" was originally a covering for a table, not a floor. Hence, a topic was on the carpet when lying on the table for discussion, or when gossiped about by people sitting at table.
The owner of a pin factory in Seymour, Conn., recently hauled away several tons of defective pins and made of them a sidewalk in front of his house. He expects as soon as these useful implements rust and are pounded down to have the finest pavement in this country.
Statistics from the German Imperial show that one-fifteenth of all cultivated land in Germany is devoted to the productions of the materials for the making of alcoholic drink. The liquor traffic employs directly 1,500,000 men out of 20,500,000 engaged in German industries of all kinds.
We are carrying our passion for cleanliness pretty far when we take to whitening the coals in engine tenders. This was the course actually adopted on Friday when the Princess of Wales and daughters left Victoria station for Osborne. Only the top layer is thus whitened, the fireman taking his supplies from a trap door on the floor of the tender.—London Realm.
It is reported from Switzerland that some experiments have been recently made there by advertisers with the view of turning to some practical use the waters of those lakes that have hitherto been admired merely because of their natural beauty. The method employed is simplicity itself. The words of the advertisement are printed in giganite yellow or white letters on a black ground. When sunk and securely held at the bottom of the lake the advertisement is fairly legible, the refraction of the light making the words appear on the surface of the water.
An illustration of how space is annihiliated by the telegraph was afforded a few days ago by two telegraph clerks sitting opposite each other in a Chicago office. One of them was sending a message to New Orleans; the other was receiving a message from the same city. The sender wanted to borrow a plug of tobacco from his colleague, but it would have been a breach of the rules to ask for it. He thereupon wired to New Orleans and asked the receiver there to tell his partner to hand him a "chew." In less than a minute the plug came over the glass partition which separated the two operators. The message had traveled considerably over a thousand miles, although only a yard separated one operator from another.
This is the way new potatoes are manufactured in Paris: Old potatoes, the cheapest and smallest that can be obtained, are purchased by the rafistoleurs do pommes de terre, as they are called, who carry their property to the banks of the Seine, a good supply of water being necessary. The potatoes are put into tubs half filled with water; then they are vigorously stirred about by the feet and legs of the manufacturers, who roll up their trousers and stamp on the raw potatoes until they have not only completely rubbed off their dark skins, but have also given them that smooth and satinlike appearance which is so much appreciated by gourmands. They are then dried, neatly wrapped in paper and arranged in small baskets, which are sold at the Marchands de Comestibles for five francs apiece. The oddest part of the whole business is that the rafistoleurs make no secret of their trade, and may daily be seen at work near the Point Louis Philippe, within sight of the Hotel-de-Ville.
Lumber is worth about twice as much in Japan as it is with us. Common lumber, which we sell for $10 and $12 per 1,000 feet, will bring 40 yen—that is $20 gold—there. This is due chiefly to the scarcity of timber and the great labor required to work it up by their primitive processes. The Japanese make all the woodwork about a house by hand, and most of their houses are all wood. They are very skillful in all kinds of cabinet and joiner work, and are more rapid than our people. They use very few nails, but mortise almost everything. It is usually so well done that it is difficult to detect the points except by the grain, and it lasts forever. Some of their ships are made without a bit of iron in their composition. Everything is mortised. What pay do they get? Skilled machinists, carpenters, joiners, cabinet makers and the highest class of that sort of mechanics get 40 to 42 sen a day for 12 hours' work. That is equivalent to 20 and 21 cents of our money; while second rate workmen get from 15 to 20 sen a day, and women, who work right along with the men in the shops, receive from 10 to 15 sen. They do not accomplish as much in 12 hours as our skilled mechanics will in eight hours, but they do it better.—Chicago News.

IN THE TREATY PORTS.

A Canadian Product Finds Favor in the Land of Confucius.

VANCOUVER (Special) Oct. 14.—A passenger by the last vessel from China stated the other day that among other Canadian products which are fast coming into favor in the Chinese treaty ports, is the Canadian specific remedy for kidney diseases of all kinds Known as Dodd's Kidney Pills. The medicine was first introduced by Canadians and the increase in its use both by Europeans and natives is attributed first to the accounts of its success in the Canadian and American newspapers, many of which are received in Shanghai and other ports, and later to its established efficacy in curing all kinds of kidney diseases, which are very prevalent in the country.

Last year it cost Great Britain no less than $24,010 to combat the locust plague Cyprus.

Linen can be marked by electricity. The fabric is dampened with water containing common salt in solution, and a current is passed for about two seconds from a silver die, carrying silver into the fabric wherever the die touches.

WOMAN AND HER DISEASES.

Paine's Celery Compound Peculiarly Adapted to Regulate the System and Give Her Strength.

A PARAGRAPH OF TRUTH FROM A MEDICAL JOURNAL.

The following paragraph from a medical journal published on this continent, demands our serious attention. It reads thus:—"It is safe to say that more than one-half the revenue of the physicians of the world is derived from the treatment of females. Not once is the diagnosis correct; not once in fifty is the treatment successful to the patient."

Why is it that the editor makes such a statement in his editorial in regard to the sufferings of women? Because the spirit of the times affects them as much as it does the men—more, for their nervous systems are more delicate and sensitive. There is a cause for every evil, and in the schoolroom we can usually find the starting point of these headaches, backaches and womanly ills which are growing so alarmingly common. When the great change from childhood to womanhood is in progress, the girl is crowded, pushed, overworked, to keep up with her studies. Add to this the severe anxiety and worry which attend examinations, and when the school life is over her health is seriously deranged.

After school days what comes? Are not the duties of women as wearing as those of men? Even more. Social, household, often business cares, must be assumed, which all lend a hand in bringing those delicate nerves into an irritated, weakened, unstrung condition. Is it to be wondered at that the sensitive organs, covered by a network of nerves, are deranged, and that life becomes one long, dreary road of suffering, without an escape or turn.

Paine's Celery Compound, that great medical discovery, should be used. Soon your nerves will be strong and vigorous, and the nutrition, digestion and specially womanly functions will be natural and regular. Rosy cheeks, sparkling eyes, a beautiful figure, all the freshness and beauty of youth will follow the health-giving influence of Paine's Celery Compound. When you are nervous, weak, tired, cannot sleep, have headaches, or any of the nameless ills which so many women suffer in silence, use Paine's Celery Compound, and it will restore to you the greatest blessing of life—health.

THAT ACHING HEAD.

What Causes It and How Overcome.

How often the remark, "Oh, my head aches," and there are so many varieties of aches and pains the head is subject to all along the line from the dull and heavy and oppressed feeling over the eyes to the persistent, racking and torturing misery of Sick Headache. The cause is in most cases the same, the overflow of poisonous uric acid is not extracted from the blood by the Kidneys, and accumulating in the blood, causes high and irregular pulse, headaches, mental depression and nausea. Chase's K. & L. Pills tone and restore the Kidneys, excrete poisonous matter from the blood, sending it on its way pure and health-giving, curing Headache, and removing all the attending symptoms from its wake. Mrs. G. Bird, Harriston, Ont., while attending the 1894 Fall Exhibition at Toronto, was taken very ill with Sick Headache and dizziness. She was subject to these attacks for years, compelling her to take to her bed. In this case by using Chase's Pills relief was immediately obtained, and the usual days of misery and prostration avoided. Thousands of such cases can be referred to where Chase's Pills have cured Sick Headache and its attendant symptoms. 25 cents a box, of all dealers, or by addressing Edmanson, Bates & Co., 45 Lombard St., Toronto.

The New "Eudora" Cloth

Have you seen the new "Eudora?" It might have been thought that the Priestleys could do no better. They had made the best black dress goods in the world. And now they have brought out the new "Eudora." The Henriettas seemed perfection. But with the Priestleys it is ever onward. The "Eudora" has a softness, a richness, all its own. It has extra width and weight, it fits beautifully, and gives long service, while the glow upon its surface, gives it the character which ladies like.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE,
Conway, Ar.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY,
Boston, Mass.
