our marriage, with the result that our child will be born six weeks too soon. Naturally, no one believes a tale about a premature baby under such circumstances. In order to avoid causing my parents grief, we are considering placing the child for adoption. Another problem that will arise if we keep it is the child's reaction upon learning the truth.

ANSWER: You are certainly manufacturing great difficulties for yourself. Since you are safely and legally married, cast away all thought of putting your baby out for adoption. As a matter of fact, any such thoughts will be immediately dispersed when you first behold your little angel. Perhaps some folks will lift their eyebrows when you find the baby is born, but since premature births are by no means rare, you'll find most people willing to give the benefit of the doubt. Even your parents will accept the situation gracefully.
