**THE BALLAD OF THE "EURYDICE."**

(Lost with her crew of three hundred boys on the last day of her voyage, March 23rd, 1876.)

Up with the royals that top the white spread of her!
Press her and dress her and drive thro' the foam!
The Islands to port and the mainland ahead of her,
Oh, for the Warner and Hayling and home!

"Bo'sun, oh Bo'sun, just look at the green of it!
Look at the red cattle down by the hedge!
Look at the farmsteading, all that is seen of it,
One little gable-end over the edge."

"Lord, the tongues of them, clattering, clattering,
All going wild at a peep of the Wight.
Aye, sir, aye, it has set them all chattering,
Thinking of home and their mothers to-night."

Spread the top-gallants, oh, lay them out lustily!
What though it darken o'er Netherby Combe?
'Tis but the valley-wind, puffing so gustily,
On for the Warner and Hayling and home!

'Bo'sun, oh, Bo'sun, just see the long slope of it;
Culver is there, with the cliff and the light,
Tell us, oh, tell us, now is there a hope of it,
Shall we have leave for our homes for to-night?"

"Tut! the clack of them! Steadily! Steadily!
Aye, as you say, sir, they're little ones still.
One long reach should open it readily,
Round by St Helen's and under the hill.

"The Spit and the Nab are the gates of the promise,
Their mothers to them—and to us its our wives.
I've sailed forty years and—by God, it's upon us!
Reef royals! reef topsails! Reef, reef for your lives!"

A grey swirl of snow with the squall at the back of it
Heeling her, reeling her, beating her down!
A gleam of her bends in the thick of the wrack of it,
A flutter of white in the eddies of brown!

It broke in one moment of blizzard and blindness,
The next, like a foul bat, it flapped on its way.
But our ship and our boys! Gracious Lord, in Your kindness,
Give help to the mothers who need it to-day!

Give help to the women who wait by the water,
Who stand on the Hard with their eyes past the Wight.
Ah, whisper it gently, your sister or daughter,
"The boys are all gathered at home for to-night."

A. CONAN DOYLE.

**ARE YOU A MOTHER!**

**If so, read what a St. John Mother says about Lactated Food.**

**A MODEL BABY GIRL.**

It has often been asserted that Lactated Food is the best in the world for babies who cannot obtain a full supply of healthy brest milk. All assertions regarding the superiority of Lactated Food, are backed by the strongest proofs.

Mrs. E. P. Nichols, 106 City Road, St John, N. B. writes as follows: "Some time ago you kindly sent me a sample tin of Lactated Food. I am very lardy expressing my thanks, but it is not, by any means, that I do not fully appreciate it. I have continued using Lactated Food ever since, and am perfectly satisfied with it.

"My baby is now a great fat, healthy girl, weighs over twenty poudds, is just eight months old, and has six teeth, and mare nearly through. My friends are surprised she is getting her teeth so easy. She is no trouble at night to me. I could not, with an easy conscience, do without Lactated Food."

Mothers in Banada who give Lactated Food a weed's trial, will never use any other food for their babies.

Lactated Food is indeed a life-giver; it is also a preserver and shield from all summer complaints to veery baby who is fed on it from day to day.

**A RACE FOR LIFE.**

The new torpedo boat Le Grandeur ran into the harbor at Boulogne last Friday morning at a high rate of speed, and was at once abandoned by her crew. She had been partly burned and was filling with water. La Grandeur was attached to the fleet now manœuvring in the channel. During the early morning she collided with the armored cruiser Jean Bart. The first examination of her hull showed that she was badly damaged, and the water was entering so fast that it would be a race for life to get her into port. She was headed for Boulogne. Fuel was piled on her fire until she was running 25 miles an hour. Her boiler plates grew red hot, the woodwork caught fire and the flames rapidly spread beyond the control of the crew. The 20 men manning the vessel fought the fire with desperation, preserving perfect discipline despite their growing agony as the flames crept towards the magazine. Only one man, and he was a recruit, gave up and tried to jump overboard. He was caught in time, however, and was put in irons. Eventually the fire was checked when but a few feet from the magazine by the influx of water through the hole made by the Jean Bart, and the men were then able to quench it. Water continued to flow in and the vessel would have foundered with all on board had she been kept at sea half an hour longer.

LANSING, Mich., July 2—A friend of William Langley formerly of this city, now of London Ont., received a letter a few months ago stating that Mr. Langley had Bright's disease. Of course no hope of his recovery could be held out. Within a month, the same friend has received a letter from Mr. Langley stating that he is completely cured of the supposed fatal disorder. Mr. Langley says no medicine did him any good until he began using Dodd's Kidney Pills. These helped him from the first and in the end restored him to perfect health.

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

**CAUSE OF BOWEL COMPLAINTS.**

The direct cause of pain and looseness of the bowels, is an irritation of the mucous membrane of the same, sufficient to produce excessive peristaltic or worm-like motion in the interior of the bowels, thus the partly digested food matter is kept constantly passing along and evacuated freely. This is called a diarrhœa; where the irritation is enough to cause bleeding, we have dysentery. Indirect causes of diarrhœa, by which an irritation is started are intestinal dyspepsia, overeating unripe or over-ripe fruit, tainted meats, or oysters etc.; torpid liver, by which not enough bile is secreted; excessive flow of bile, etc.; Taraxacum. To thoroughly evacuate the bowels with Parmelee Pills, they are among the best to get rid of all irritating matter. Then take Johnson's Anodyne Liniment in teaspoonful doses diluted with water, every four hours, and oftener if the case is severe. In case of Asiatic cholera, one teaspoonful should be given every half hour. Thousands of people remember the year 1849, when the worst known epidemic disease spread over this country. Johnson's Anodyne Liniment at that time was little known outside of the state of Maine. But for its use at that time by its friends, many would not now live to spread the joyful news that any case of diarrhœa, dysentery, cholera-morbus, or kindred diseases, can be cured by Johnson's Anodyne Liniment. It never yet failed. The proprietors, I. S. Johnson & Co., Boston, Mass., will send their new illustrated book, entitled "TREATMENT FOR DISEASES," free to any person for the asking. July 25

One of the great features of the gold mining industry in New South Wales at the present time, is the increasing use of gold-saving appliances of various kinds. At the different mines are large heaps of "talings" or "wash dirt" from which the bulk of the precious metal has been extracted. Hitherto these heaps of mine refuse have been allowed to remain neglected, except by Chinese miners, who have extracted gold in considerable quantities from them. It is now found that, with the use of certain appliances, the output of gold can be largely increased, by saving the auriferous particles which were formerly allowed to run to waste. In the northern coastal districts large quantities of fine gold are obtained from the sand on the sea-beaches, especially after a storm, and it is expected that by substituting machine for hand labor, the gains of the crowds of gold hunters will become considerably augmented.
