SAVE GASOLINE FOR WAR PURPOSES

OTTAWA, Sept 16—The Fuel Controller, after investigation has decided that a curtailment of the use of gasoline is necessary in order to conserve the product for war uses. A voluntary appeal to curtail pleasure riding particularly on Sundays, similar to that made in the United States, has been issued. The Fuel Controller, to-day said if this fails to procure results compulsory regulations will be made.

BIG FRENCH ADVANCE.

LONDON, Sept. 15.—The French advanced for a distance of between one and two miles on an eleven mile front. The attack was launched by the French at five o'clock this morning and the division at an early hour had taken 1,000 prisoners making a total of 18,000 Germans captured on that front alone.

SAVE GASOLINE FOR WAR PURPOSES

After consultation with the fuel controller, and learning the seriousness of the gasoline situation, the Special Thrift Committee of Canada is calling upon automobile owners to discontinue all Sunday riding for pleasure, commencing next Sunday, Sept 15th. In view of the fact that every gallon of gasoline in sight is needed for war purposes, and that the present excessive consumption is not only further reducing the quantity available, but materially increasing the cost, both to the government for war purposes and to private individuals for their immediate requirements it is urged and expected that every patriotic autoist will cheerfully and voluntarily comply with this reasonable request, and so obviate the necessity of enacting legislation to compel curtailment. It is estimated that $150,000 worth of gasoline is unnecessarily consumed in Canada every Sunday and this quantity of gasoline, as well as the money unnecessarily expended upon it can be saved,by a general and patriotic compliance with this request.

In this province many hundreds of miles in the aggregate are unnecessarily travelled on Sundays and hundreds of gallons of gasoline are wasted, which are needed to supply the airplanes, the motor lorries and the many other war machines, whose only fuel is gasoline. Patriotism demands that this waste be eliminated and the appeal is confidently made to the autoists of this province, feeling assured that, realizing the necessity, they will cheerfully fall in line with their brethren in France and Flanders, who are doing their bit in winning the way. Let there be no joyriding on Sundays, hereafter till the war is over.

PARIS RAIDERS CAME TO GRIEF

PARIS, Sept. 17.—Two German airplanes which had participated in the raid of the region of Paris Sunday night were shot down by anti-air craft guns. They fell in the Forest of Compiegne.

CATARRHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises go to your druggist and get 1 ounce of Parmint (double strength), and add to it 1-4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop drooping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial.
