

Beneficial Effect of the National Policy.

In the Sherbrooke (Ont.) Gazette of the 31st Oct. last we find the following evidence of prosperity, attributed solely to the beneficial effects of the National Policy:—
 "The National Policy has enabled Sherbrooke to obtain a thirty thousand dollar contract for military overcoats, nearly the whole of which large sum is to furnish employment for our working classes, while a proportionate amount will find its way into the pockets of the farmer in the purchase of wool by the Sherbrooke mills for the manufacture of the cloth and flannel required. Under the Cartwright free-trade system our manufacturers here would have been unable to compete with the shoddy articles manufactured in the United States with which our Canadian markets were glutted, and which it is well known the Americans made use of as a slaughter market; and thus, even even though the contract for making up the garments had been given to Sherbrooke contractors, seven eighths of this \$30,000, now to be distributed in payment for labor in this city, would have gone to enrich our American manufacturing rivals—virtually putting the weapon into the hands of our enemies wherewith they might destroy us. The manager of the Paton Manufacturing Company also informs us that had it not been for the encouragement extended to the manufacturing industries by protection, the extensive addition to their works erected this summer and fitted up at a cost of some \$30,000, would never have been thought of. We are further informed by the same gentleman that they have received a \$20,000 order from Gault Bros., for a line of cloths which that firm, previous to the enforcement of the N. P., have always had supplied to them from England.

Mr. Lester, the proprietor of the bobbin factory, informs us that he has filled more orders for bobbins than he has had before for the last three years! This, he admits, is entirely owing to the N. P. He has lately doubled his number of hands, and confidently expects ere long to quadruple them. "S. B. Jencks & Son testify to an increase in business, which they duly credit to the N. P. "The iron bridge now in construction over the Magog, is to be built by the Iron Bridge Co.—an American firm who were forced by the protective tariff to erect their present branch established in Toronto. That the money to be paid by the city for this bridge is to remain in the country, is the direct result of the N. P. Under the Cartwright regime the proprietors of the Toronto Bridge Co. manufactured there the bridges for Canada at their establishment in Ohio.

COMMERCIAL NEWS.

NEWFOUNDLAND MARKETS.

Following are current prices in St. John's Newfoundland markets:—Breadstuffs fluctuated during the past fortnight; markets unsettled. Pork and butter held firmly; corn and meal higher; sugars and molasses advanced; tea dearer. Flour—Superior extra Canadian and choice extra State, 36s; Spring extra and ordinary to good extra State, 34s. @ 36s.; superfines, 23s. @ 34.; No 2's, 30s. @ 32s.; meal per bbl., white and yellow, 19s. @ 20s.

HORSES EXPORTED FROM ENGLAND.

Notwithstanding that Canadian horses are in demand for the English market, the exportation of horses from England is quite large and increasing. This probably denotes that the demand in England for Canadian horses springs from a Continental demand for the English. The number of horses exported from England in the past nine months of the year was 3,617, against 2,214 in the same period last year. The value this year was \$224,106.

MARITIME HATS FOR THE UPPER PROVINCES.
 The Truro hat factory has received an order from Montreal for 800 dozen hats, to be delivered by Feb. 15, 1880. A St. John firm has a standing order for 24 dozen per week, and has just received an order from Quebec for 300 dozen.

MONEY.

The Monetary Times says: "In the midst of the prevailing gloom and anxiety, there is at least one subject for congratulation, and that is plentiful. No embarrassment is felt by and commercial firm from inability to get good bills discounted. No manufacturing enterprise is crippled, much less standing still, because of the stoppage of the necessary supplies or even their diminution. No legitimate enterprise is being nipped in the bud because the necessary accommodation to carry it on cannot be obtained.

GOATS ON SQUARES.—It seems that our Hillsborough Square is not the only place where trees are destroyed by goats. We clip the following from the St. John Telegraph:—

"GOATS ON THE QUEEN SQUARE.—For some time past a number of goats have almost daily grazed on the Queen Square, despite the efforts of a member of the Common Council to keep them off. It became evident that more stringent means would have to be resorted to, and on Saturday a policeman was detailed to stop the nuisance even if he had to use fire arms. Having well armed himself he repaired to the square and found several goats there happily grazing. The officer drew his revolver, took aim and fired, but missed his object. Nothing daunted by his bad luck, he tried again and again, and several shots were fired in succession without hitting any of the goats, who, alarmed at the unusual noise, scampered off while he was loading for another shot."

We are not aware that our "Common Council" use any effort whatever to stop the goats that are constantly grazing on Hillsborough Square.

PRODUCE SHIPMENTS.—Since yesterday at noon, five schooners left this port loaded with produce. One cleared for Harbor Grace, Nfld.; one for Arichat; one for Lunenburg, N. S.; and two for Halifax. Their cargoes consisted totally of 11,774 bushels potatoes, 2,856 bushels oats, 400 bushels turnips, 2,774 lbs. mutton, 1884 lbs beef, 20 blbs. beef, 50 blbs. pork, 19 live hogs, 8 carcasses pork, and 51 geese.

SIR JOHN McDONALD is looking unusually well, considering that he is getting well up in years—he is sixty-four—and considering also that he has been in public life, without intermission, since 1844—thirty-five years. The cares of office do not seem to weigh heavily upon him.

The barque "Moselle," Daniel Carew, master, with a cargo of 43,500 bushels of oats, 34 lbs. each, and 300 pieces of deals, containing 12,000 feet superficial measurement shipped by Peake Bros & Co., cleared for Dieppe France, on the 11th inst.

The reappearance of the plague in St. Petersburg lends interest to the predictions of astrologers, that, owing to the influence of the planets to be in perihelion next year, the plague will reappear in terrible violence in Europe and Asia, carrying away over one-fifth of the population.

The ordinary expenses, apart from buildings and grounds, of the recent Provincial Exhibition at Halifax, N. S., amounted to \$12,249; while the receipts were but \$10,249. The City Council are asked to make up the deficit of \$2,000, now represented by unpaid bills.

PERSONAL.—Alex. Beaton, Esq., of East Point, has just returned home from a trip to Quebec, Montreal and Ottawa. Mr. Beaton enjoyed his trip very much and speaks well of the kindness and courtesy extended to him at Ottawa by his honor the Minister of Marine and Fisheries.

WRECKED.—The schr. "Emeline McMillan," from Newfoundland, consigned to Peake Bros. & Co. was wrecked on Saturday night, the 8th inst., on Indian Rocks, Wood Islands. She is owned by the Hon. Ambrose Shea, of St. John's, Newfoundland.

VENOR promises us some more fine weather. The old people also say we will yet have Indian summer, lots of rain, and leaves more generally off the trees before the winter sets in. This kind of weather necessitates living by faith, not by sight, in view of such promises.

POLICE PENALTINGS.—At the Stipendiary Magistrate's Court to-day, Thomas Connolly was fined \$2 and costs, or 8 days, for being drunk and incapable. Two shelter seekers were harbored in the police station last night, and let go this morning.

CHATHAM DEBATING SOCIETY have postponed the question for debate till coming Thursday, last Thursday being Thanksgiving night, the Society did not hold their regular meeting.—W. BROWN, Jr. Sec'y.

TAMMANY HALL has decided to issue an address warning the Democracy of the United States against Tilden.

The market to-day was very small. Prices are unchanged.
