

900 Miners In Springhill Facing Uncertain Future

SPRINGHILL, N.S. (CP)—Tired work crews recovered only two bodies from the caved-in Nov. 2 mine Wednesday as the slow, methodical work went on deep underground.

Seven of the 174 miners trapped by an underground upheaval Oct. 28 are still unaccounted for. They are presumed dead. One hundred men were rescued in the disaster; 900 were in Canadian mining history since the 1920s.

But while the number of dead is no longer in doubt, the 900 miners left are facing an uncertain future. They have no work, Maurice Ruddick, miraculously rescued after nine days entombed, has 12 children to support. A lot of the miners are like him.

Sir Roy Dobson, chairman of A. V. Roe (Canada) Limited which controls the mine through its parent, announced last week that the No. 2 mine would not reopen. It is the town's only industry.

Duplessis Tells CMA How Best To Get Tax Reduction

QUEBEC (CP)—Private enterprise can best obtain a reduction in provincial taxes through a minimum of government intervention in its affairs, Premier Duplessis said Wednesday.

The premier made the statement to a delegation of the Quebec division of the Canadian Manufacturers' Association which presented a brief to the cabinet.

The brief sought repeal of the provincial tax on paid-up capital and on business places as a way of encouraging expansion and attraction of new industry.

It also suggested that the provincial tax on personal income should at no time exceed the amount the federal government allows provincial tax payers to deduct from their federal income tax.

LESS INTERVENTION

The CMA recommendations merit consideration, Mr. Duplessis said, but "the best way to achieve tax reductions is to have government intervention as low as possible in the affairs of private enterprise."

He warned against the trend towards socialism which comes when more and more demands are made for government assistance.

The premier also said he would study the association request that the Quebec Labor Relations Board be composed of an equal number of employers and labor members.

Five Appear In Ch'town Court

Five cases were handled in Charlottetown Police Court Wednesday morning by Magistrate E.M. Martin.

Residents of Dorchester Street, Hunter River and Fredericton were each fined \$5 and costs or 30 days when they appeared on similar charges of being drunk and incapable.

Two traffic cases were also on the docket. A resident of Stanley Bridge was fined \$10 and costs or five days for failure to stop at a red traffic light.

A Bedeque youth was fined \$5 and costs or two days when he pleaded guilty to driving on the sidewalk.

Cape Traverse Man Fined \$20

A young Cape Traverse man was fined \$20 and costs or 30 days when he pleaded guilty to a charge of having possession of intoxicating liquor at a place other than his residence in Magistrate's Court Wednesday morning.

The case against a Tignish man charged with driving while unlicensed was further adjourned. The case has been adjourned several times since the accused was arrested September 22nd. The latest adjournment was due to the absence of defence counsel Gerald Foster.

A charge of allowing sawdust to enter a stream frequented by trout was dismissed. A new summons will be drawn up. The original charge had been against a resident of Hunter River thought to be the owner of the mill.

The adjournment was requested by crown prosecutor J.P. Nicholson who told the court it was deemed upon investigation that the mill is owned by an incorporated firm.

A resident of Souris pleaded guilty to a speeding charge and was fined \$10 and costs or 10 days. A fine of \$5 and costs or five days was handed a Baymen man who pleaded guilty to operating a motor vehicle with defective equipment.

DISTANT TARGET

The moon's distance from earth varies from 221,463 miles to a maximum of 252,710 miles.

BRITTANY SPANIEL PUPS

Over 100 birds shot over the parents of these pups during October.

Sired by Field Champion Jersey Jeff, American National Champion 1949.

Dam by Field Champion Jeffrey of Argard, American National Champion 1956.

In the New Brunswick Field Trials held last month in which all popular pointing breeds were entered all four classes were won by Brittanies.

"Road Up" Warning For Government House Guests

Traffic to Government House has been diverted from the Kent Street approach to that from Euston Street, skirting Government Pond. Work is proceeding between Government Pond and the park waterfront in connection with the laying of a five-foot internal diameter pipe to connect with a similar sewer pipe from the north part of the city which now terminates at the north end of Government Pond.

Chief C.W. MacArthur states that:

"All ladies attending the reception at Government House on Thursday, November 6th are advised that, due to excavation work near the entrance to Government House, it will be necessary to approach same by way of Euston St. and Brighton Road, thence along the new road on the west side of Government Pond to entrance to Government House Grounds. Traffic to this reception will be diverted at the intersection of Kent and Rochford St. and again at the intersection of Rochford and Euston.

Lions Clubs Set Up Relief Fund For Springhill

At the regular dinner meeting of the Charlottetown Lions held last evening at the Queen Hotel, Jack Kunitzky, district governor, of Lions International District 41N, was a guest.

Two new members John Williams and Paul Gannon, both of Charlottetown were inducted into the club by Mr. Kunitzky. He extended a welcome to Jack Middleton who was re-instated as a member.

In addition to the District Governor, the zone chairman of the

Island clubs, Eric Jessome, along with Russell Furness and George Davison of the Kensington club, were in attendance.

In response to King Lion Lou Bagnall's announcement that the Charlottetown club had donated \$100 to the district cabinet earmarked for the Springhill Disaster Relief Fund, the district governor explained that immediately following the notice of this disastrous bump at the Springhill coal mines, an emergency meeting of the International council of Lions District 41N was held jointly with the Springhill club.

From this meeting a committee was formed to administer the funds received from the club of this district. He stated that

Thursday, Nov. 6, 1958
The Guardian Page 3

the fund established is to be known as Lions' Clubs Springhill Relief Fund with an objective of \$10,000.

NEED BILINGUALS

OTTAWA (CP)—The transport department has issued a call for five bilingual young men to train as marine engineers.

Training will be at shipyards in Quebec, Montreal and Kingston, Ont., for 4½ or five years at pay rates ranging between 80 cents an hour and \$1 an hour. Deadline for application is Nov. 28, the department announced Wednesday.
