in wheat. The first year of the report shows that Prince Edward Island had 41,942 acres planted to wheat in 1951 with a total yield of 546,986 bushels. In 1947, the last year covered in the report there were only 4,400 acres under that grain with a yield of only 96,800 bushels.

The report also makes note of the fact that in 1946 this Province imported approximately 65,000 tons of animal feeds which is converted to a barley basis would represent about two and one-quarter million bushels at a cost to farmers here of two million dollars. In the same year the farmers imported approximately 58,500 tons of fertilizer at a cost of another two million dollars.

In earlier days it played an important part in the seasonal activity of the people as shown by the 91,000 pounds which were made in 1951. While it may still be made in some areas no sizable quantities have been reported for the past 50 years. Probably the most startling in-

VERNON RIVER CO-OP

Pre-Nuptial Shower

A large number of people from Meadow Bank and surrounding districts met at the spacious home of Mr. Frank MacLean on the evening of Nov. 27th to tender a miscellaneous shower to Miss Jean Boyle, prior to her marriage.

To the strains of the "Wedding March", Mrs. Sterling Clow escorted the bride-to-be to the seat of honour in the prettily decorated living room. Little Miss Vivian Drake and Master Wendell Hyde, as miniature bride and groom, presented her with a beautiful bouquet, then carried in a large basket heaped with gifts.
